Changes in law either from the meaning of normative substance, institutional, and legal culture are inevitably in line with the dynamics within various sectors of life

society. Therefore, it is necessary to thoroughly discuss and analyze which sectors may have a significant impact on the business world and society today. By discussing comprehensively, comparatively and collaboratively, it is hoped that legal issues can be seen from various perspectives in the legal and social fields by finding fundamental problems in depth related to several topics of discussion, including in the telematics legal sector, natural resource management law, business legal culture, as well as the tourism sector. For this reason, APPTHI held a series of conferences in 3 cities to discuss and make it a meeting place for world law experts with law lecturers throughout Indonesia and invited lecturers from various countries, such as South Korea, India, Malaysia and Europe to take a part in this conference. The 1st APPTHI International Conference on Changing of Law (the series) is the first international conference series held in Indonesia by the Association of Indonesian Law College Leaders (APPTHI), inviting several legal experts from countries such as the USA, the Netherlands, Korea, Malaysia, India, as well as South Korea. This program is also a form of implementation of various forms of international cooperation in several countries such as New York University, Utrecht University, National University of Malaysia, Hankuk University, and Jawaharlal Nehru University. In this event APPTHI collaborated with the international program organizer, PASQAPRO. For the activities of The First APPTHI International Conference on Changing Law, The Series, involving campuses as co-hosts in Jakarta (hosted by Trisakti University), including: Jakarta Islamic University, Universitas Suryakencana, Cianjur, Lampung Mitra University, Palembang Law School STIHPADA, Islamic University Jakarta, Muhammadiyah University Jakarta, YARSI University, National University, Borobudur University, while co-hosted in Makassar (Host Indonesian Muslim University): Panca Bakti University, West Kalimantan, Sawerigading University, Christian University of Paulus, Makasar, Universitas Juanda, Bogor and Seventeen August University (UNTAG) Semarang, for Bali with the host university Warmadewa, assisted by co-hosts including: Caritas College of Law, Papua. Hopefully this conference will not only be a scientific forum for APPTHI members and various foreign partner universities by providing outputs in the form of indexed proceedings and journals, but also an event that will contribute thoughts in the field of law for the Indonesian government in conducting studies on legal changes positively as well as being a think tank for the formation of state laws and policies.

Herodotus's *The Histories* stands as a pioneering work in the realm of historical narrative, intertwining a rich tapestry of anecdotal accounts, cultural observations, and intricate political analyses from the Greek and Persian worlds. Written in the 5th century BCE, this text employs a prose style that ebbs and flows between informational chronicle and engaging storytelling, inviting readers into a vibrant world of conflict, exploration, and human experience. Herodotus not only chronicles the Greco-Persian Wars but also provides an extensive examination of the customs, beliefs, and histories of various peoples,

positioning his work within the larger context of a burgeoning inquiry into the nature of history and human behavior. agus fortune 2023: Transformations of Pelops András Patay-Horváth, 2023-05-18 This volume is the first monograph in English dedicated to the study of the Greek mythical hero Pelops. While popular in antiquity, Pelops' popularity has since faded; this book presents a comprehensive treatment of his character and legacy. Ancient tradition held that Pelops was the son of Tantalus and the ancestor of the Atreids, Agamemnon and Menelaos, who appear in the Homeric poems as leaders of the Greek forces against Troy. After arriving in Greece from the east, Pelops was eventually worshipped in Olympia, became the eponym of the Peloponnese, and was celebrated as one of the founders of the Olympic Games. However, his character is morally problematic, his family were heavily condemned, and few tales about Pelops exist. Patay-Horváth takes an interdisciplinary approach to the study of this obscure figure, presenting and analyzing written sources and depictions of Pelops, the etymology of his name, the history of his mythical family, and the afterlife of his myths. Drawing on folklore and ethnography, art and archaeology, linguistics and geography, this volume provides a detailed and accessible overview of both old and new theories about Pelops, his descendants, and his legacy. *Transformations of Pelops* is suitable for students and scholars of ancient Greek history and mythology, classical philology, and archaeology.

agus fortune 2023: *The Histories of Herodotus* Herodotus, 2023-12-25 Herodotus's *The Histories* stands as a seminal text in the annals of history and literature, merging anecdotal eyewitness accounts, elaborate descriptions, and an engaging narrative style. Herodotus employs a sophisticated yet accessible prose that deftly intertwines personal observation with a meticulous chronicle of events, offering not only historical insight but also a meditation on the nature of truth and memory. His work was revolutionary, setting the foundational framework for the discipline of history, and providing a rich tapestry of the ancient world. Herodotus, often called the Father of History, was himself a traveler and an inquisitive mind, influenced by the complexities of the Persian Wars and the diverse cultures he encountered. Born in Halicarnassus, his explorative journeys through places like Egypt and Babylon imbued him with a deep curiosity about human experience, politics, and war. agus fortune 2023: *Beyond Fiction* Ruth El Saffar, 2023-11-15 *Beyond Fiction: The Recovery of the Feminine in Cervantes* explores how Cervantes's works, particularly his long-form fiction, grapple with themes of illusion, reality, desire, and the evolving role of women in literature. The book positions Cervantes as a writer acutely aware of the limits and contradictions of literary constructs, reflecting his transition from entanglement in traditional narratives to an eventual mastery of form and meaning. The study identifies a consistent pattern in Cervantes's works, from *La Galatea* through *Don Quixote* Parts I and II, where he moves from depicting unresolved conflicts and fragmented characters to crafting stories with deeper integration and more liberated representations of both men and women. By tracing the evolution of Cervantes's narrative structures, it shows how his characters increasingly break free from conventional roles, especially those imposed by the love triangle—a recurring emblem of displaced desire in his earlier works. This transformation is most evident in *Don Quixote* Part II, where Cervantes fully controls his material, integrates secondary tales seamlessly, and elevates female characters beyond their traditional roles as mere objects of male desire. Women in this later work, along with male characters like Sancho and Basilio, assert agency and individuality, reflecting a broader liberation from the confines of literary and societal archetypes. By shifting away from the constraints of pastoral and chivalric traditions, Cervantes demonstrates a profound shift in his artistic vision, using his narrative to explore truth and identity while rejecting the artificial hierarchies and illusions of his time. This study asserts that Cervantes's journey as a writer mirrors the transformative journeys of his characters, making his works a masterful interrogation of both fiction and reality. This title is part of UC Press's *Voices Revived* program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, *Voices Revived* makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. agus fortune 2023: *The Aran Islands* John Millington Synge, 2023-11-16 In *The Aran Islands*, John Millington Synge presents a vivid and poignant exploration of life on these remote Irish isles. Blending travel narrative with rich cultural observation, Synge employs a lyrical yet unadorned prose style, capturing the rugged beauty of the landscape and the resilience of its inhabitants. The book is steeped in the context of the Irish Literary Renaissance, articulating both the simplicity and

complexity of rural life while providing a nuanced look at the intersection of tradition and modernity in early 20th-century Ireland. Synge's reflections extend beyond mere observation, offering profound insights into the human condition amid a distinctly Irish setting. John Millington Synge was a pivotal figure in Irish theatre and literature, deeply influenced by his experiences and travels in western Ireland. His passion for capturing the nuances of Irish vernacular, coupled with his background in playwriting, led him to write *The Aran Islands* as a means of preserving the authentic voices and stories of a unique culture. This book is a must-read for anyone interested in Irish culture, literature, or travel narratives. agus fortune 2023: *The Irish Revival* Joseph Valente, Marjorie Howes, 2023-06-15 The Irish Revival has inspired a richly diverse and illuminating body of scholarship that has enlarged our understanding of the movement and its influence. The general tenor of recent scholarly work has involved an emphasis on inclusion and addition, exploring previously neglected texts, authors, regional variations, and international connections. Such work, while often excellent, tends to see various revivalist figures and projects as part of a unified endeavor, such as political resistance or self-help. In contrast, *The Irish Revival: A Complex Vision* seeks to reimagine the field by interpreting the Revival through the concept of "complexity," a theory recently developed in the information and biological sciences. Taken as a whole, these essays show that the Revival's various components operated as parts of a network but without any overarching aim or authority. In retrospect, the Revival's elements can be seen as having come together under the heading of a single objective; for example, decolonization broadly construed. But this volume highlights how revivalist thinkers differed significantly on what such an aspiration might mean or lead to: ethnic authenticity, political autonomy, or greater collective prosperity and well-being. Contributors examine how relationships among the Revival's individual parts involved conflict and cooperation, difference and similarity, continuity and disruption. It is this combination of convergence without unifying purpose and divergence within a broad but flexible coherence that Valente and Howes capture by reinterpreting the Revival through complexity theory.

agus fortune 2023: *Precarious Ties* Meg Rithmire, 2023 Developing Asia has been the site of some of the last century's fastest growing economies as well as some of the world's most durable authoritarian regimes. Many accounts of rapid growth alongside monopolies on political power have focused on crony relationships between the state and business. But these relationships have not always been smooth, as anti-corruption campaigns, financial and banking crises, and dramatic bouts of liberalization and crackdown demonstrate. Why do partnerships between political and business elites fall apart over time? And why do some partnerships produce stable growth and others produce crisis or stagnation? In *Precarious Ties*, Meg Rithmire offers a novel account of the relationships between business and political elites in three authoritarian regimes in developing Asia: Indonesia under Suharto's New Order, Malaysia under the Barisan Nasional, and China under the Chinese Communist Party. All three regimes enjoyed periods of high growth and supposed alliances between autocrats and capitalists. Over time, however, the relationships between capitalists and political elites changed, and economic outcomes diverged. While state-business ties in Indonesia and China

created dangerous dynamics like capital flight, fraud, and financial crisis, Malaysia's state-business ties contributed to economic stagnation. To understand these developments, Rithmire presents two conceptual models of state-business relations that explain their genesis and why variation occurs over time. She shows that mutual alignment occurs when an authoritarian regime organizes its institutions, or even its informal practices, to induce capitalists to invest in growth and development. Mutual endangerment, on the other hand, obtains when economic and political elites are entangled in corrupt dealings and invested in perpetuating each other's dominance. The loss of power on one side would bring about the demise of the other. Rithmire contends that the main factors explaining why one pattern dominates over the other are trust between business and political elites, determined during regime formation, and the dynamics of financial liberalization. Empirically rich and sweeping in scope, *Precarious Ties* offers lessons for all nations in which the state and the private sector are deeply entwined.

agus fortune 2023: *The Sustainable Plate: Unveiling the Science of Meat Substitutes and Impact on Global Health* Subhasree Ray, Shoba Suri, 2025-09-27 Meat substitutes and alternative meats, including those made from plants or produced in a lab, reduce the consumption of environmental resources and the production of greenhouse gases. These substitutes are gaining popularity in the sustainable diets of people worldwide, with recent reports illustrating that the meat substitute market has grown significantly to a value of 10 billion. Experts predict that this market will continue to expand at a 42.1% CAGR through 2030. However, these alternatives are too new to global plates, with little or unknown health or environmental outcomes. Some plant-based meat options made from ingredients like soy, peas, and wheat offer a meat-like texture but often contain excessive amounts of artificial ingredients, white sugar, salt, and trans-fats added during processing that are unhealthy and may lead to non-communicable diseases. On the other hand, lab-grown or cultured meats could have a global warming potential of 80% lower than traditional beef production. Additionally, lab-grown meat's health effects have yet to be evaluated. As meat substitutes continue to gain popularity worldwide, it is crucial to examine their potential to promote global food security and sustainability while maintaining positive health outcomes. It is imperative to comprehend the makeup, health effects and environmental impact of alternative meats, which are becoming increasingly popular as potential food for the future. This information is crucial for promoting sustainable food systems and healthier diets, as well as addressing global health concerns and environmental challenges. *The Sustainable Plate: Unveiling the Science of Meat Substitutes and Impact on Global Health* aims to critically discuss the scope of alternative meats to meet global food security, nutritional adequacy and environmental sustainability. The book investigates the scientific basis and progress of meat substitutes, analyzing their capacity as an eco-friendly substitute for traditional meat and their influence on worldwide health results. Detailed information on nutritional composition, taste, texture, and technological innovations of meat substitutes are presented, plus the worldwide health effects of integrating meat substitutes into sustainable food systems and place these substitutes suitably on the global diet plate.

agus fortune 2023: *Routledge Handbook of Autocratization in Southeast Asia* Netina Tan, Yuko Kasuya, 2025-07-31 *The Routledge Handbook of Autocratization in Southeast Asia* examines how global and domestic forces of autocratization affect regional and local politics. It analyzes how the interactions of international and domestic factors affect actors and institutions in both democracies and autocracies in the region. Bringing together a representative slate of both local and international, junior and senior scholars of different methodological backgrounds, this Handbook cross-examines regional trends and provides an insider view of the causes and effects of autocratization in a region with diverse experiences with de-colonization, state-building, and economic and political developments. The 28 chapters are organized into three sections. Part I examines a range of structural, international, socio-political, technological, and ideological causal factors of autocratization. Part II offers a comparative analysis of the consequences of

autocratization on key actors and democratic institutions. Part III provides a more detailed study of autocratic consolidation and pushback in each country in Southeast Asia. Taking into account structural-historical, institutional, and cultural factors, the contributors analyze how domestic actors and democratic institutions withstand the global forces of autocratization. This Handbook fills empirical gaps in the current scholarship by focusing on all nation-states in the Association of Southeast Asia Nations and Timor-Leste, varied regime types with diverse socio-religious backgrounds. It is the first authoritative reference work dedicated to Southeast Asia's autocratization and will be an indispensable reference work for academics and policymakers interested in democracy and autocracy, regime transition, and Southeast Asian politics.
