amityville haunting: Haunting Experiences Diane Goldstein, Sylvia Grider, Jeannie Banks Thomas, 2007-09-15 Ghosts and other supernatural phenomena are widely represented throughout

modern culture. They can be found in any number of entertainment, commercial, and other contexts, but popular media or commodified representations of ghosts can be quite different from the beliefs people hold about them, based on tradition or direct experience. Personal belief and cultural tradition on the one hand, and popular and commercial representation on the other, nevertheless continually feed each other. They frequently share space in how people think about the supernatural. In *Haunting Experiences*, three well-known folklorists seek to broaden the discussion of ghost lore by examining it from a variety of angles in various modern contexts. Diane E. Goldstein, Sylvia Ann Grider, and Jeannie Banks Thomas take ghosts seriously, as they draw on contemporary scholarship that emphasizes both the basis of belief in experience (rather than mere fantasy) and the usefulness of ghost stories. They look closely at the narrative role of such lore in matters such as socialization and gender. And they unravel the complex mix of mass media, commodification, and popular culture that today puts old spirits into new contexts

amityville haunting: The Haunting of Borley Rectory Sean O'Connor, 2022-10-13 Marianne Foyster, Harry Price and the most haunted house in England - the perfect read for Halloween. In 1928, Eric and Mabel Smith took over a lonely parish on the northern border of Essex. When they moved into Borley Rectory, Mrs Smith made a gruesome discovery in a cupboard: a human skull. Soon the house was electric with ghosts. Within the year, the Smiths had abandoned it and the Rectory became notorious as the 'most haunted house in England'. When Reverend Lionel Foyster moved in he experienced a further explosion of poltergeist activity with an increasing violence directed at his attractive young wife. Marianne was a passionate and sensuous woman isolated in a village haunted by ancient superstition and deep-rooted prejudice. She would be accused not only of faking the ghosts but of adultery, bigamy ... and even murder. The haunting, sensationally reported in the tabloid press, gripped the nation. It was investigated by Harry Price, a self-made 'psychic detective'. This was the case that would make Price's name as the most celebrated ghost-hunter of the age. He recorded the evidence of 200 witnesses to over 2,000 supernatural incidents. This surely confirmed that not only did ghosts exist but, finally, here was proof of life after death. With the

tension of a thriller and the uncanny chills of a classic English ghost story, Sean O'Connor brings the story of Borley Rectory to vivid life as an allegory for an age fraught with anxiety, haunted by the shadow of the Great War and terrified of the apocalypse to come. 'Borley Rectory is perhaps the definition of an old haunt, still exerting an extraordinary grip on the popular imagination... Balanced, surprising and strangely moving' Mark Gatiss

amityville haunting: The Ghost in the Image Cecilia Sayad, 2021 Our century has seen the proliferation of reality shows devoted to ghost hunts, documentaries on hauntings, and horror films presented as found footage. The horror genre is no longer exclusive to fiction and its narratives actively engage us in web forums, experiential viewing, videogames, and creepypasta. These participative modes of relating to the occult, alongside the impulse to seek proof of either its existence or fabrication, have transformed the production and consumption of horror stories. The Ghost in the Image offers a new take on the place that supernatural phenomena occupy in everyday life, arguing that the relationship between the horror genre and reality is more intimate than we like to think. Through a revisionist and transmedial approach to horror this book investigates our expectations about the ability of photography and film to work as evidence. A historical examination of technology's role in at once showing and forging truths invites questions about our investment in its powers. Behind our obsession with documenting everyday life lies the hope that our cameras will reveal something extraordinary. The obsessive search for ghosts in the image, however, shows that the desire to find them is matched by the pleasure of calling a hoax.
