Historical and Cultural Context of 1920s American Literature

The 1920s in America, often referred to as the Roaring Twenties, was a period of unprecedented economic prosperity, cultural experimentation, and social transformation. Post-World War I optimism fueled a surge in artistic creativity, giving rise to jazz music, modernist art, and groundbreaking

literature. Urbanization and technological advancements changed the fabric of American life, while the prohibition era and the Harlem Renaissance shaped the nation's cultural landscape. F. Scott Fitzgerald's "The Great Gatsby" is perhaps the most celebrated novel of the 1920s. With its concise language and focus on the "Lost Generation," the novel addresses themes of disillusionment and the search for meaning in a postwar world. 1920s american novels archive: *American Literature in Transition, 1910-1920* Mark W. Van Wienen, 2017-12-28 *American Literature in Transition, 1910-1920* offers provocative new readings of authors whose innovations are recognized as inaugurating Modernism in US letters, including Robert Frost, Willa Cather, T. S. Eliot, Ezra Pound, Gertrude Stein, H. D., and Marianne Moore. Gathering the voices of both new and established scholars, the volume also reflects the diversity and contradictions of US literature of the 1910s. 'Literature' itself is construed variously, leading to explorations of jazz, the movies, and political writing as well as little magazines, lantern slides, and sports reportage. One section of thematic essays cuts across genre boundaries. Another section oriented to formats drills deeply into the workings of specific media, genres, or forms. Essays on institutions conclude the collection, although a critical mass of contributors throughout explore long-term literary and cultural trends - where political repression, race prejudice, war, and counterrevolution are no less prominent than experimentation, progress, and egalitarianism.

1920s american novels archive: *Guide to the YIVO Archives* Yivo Institute For Jewish Research, 2019-08-08 YIVO, founded in 1925 in Wilno (Vilnius), is a center for scholarship on East European Jewish history, language, and culture. During the 1920s and early 1930s a network of YIVO affiliates was established across Europe and the Americas including one in New York, which became the institute's new home when YIVO was reestablished in 1940 by members of its board who had escaped from Nazi-occupied Europe. This is the first repository-level finding aid to the archives (over 1,400 collections) of the YIVO Institute for Jewish Research in New York. It includes a brief history of the institute and archives, descriptive entries on each collection, a detailed index of key words and subject headings, and information on the archive's basic services.

1920s american novels archive: *Archives of American Time* Lloyd Pratt, 2011-07-07 American historians have typically argued that a shared experience of time worked to bind the antebellum nation together. Trains, technology, and expanding market forces catapulted the United States into the future on a straight line of progressive time. The nation's exceedingly diverse population could cluster around this common temporality as one forward-looking people. In a bold revision of this narrative, *Archives of American Time* examines American literature's figures and

forms to disclose the competing temporalities that in fact defined the antebellum period. Through discussions that link literature's essential qualities to social theories of modernity, Lloyd Pratt asserts that the competition between these varied temporalities forestalled the consolidation of national and racial identity. Paying close attention to the relationship between literary genre and theories of nationalism, race, and regionalism, *Archives of American Time* shows how the fine details of literary genres tell against the notion that they helped to create national, racial, or regional communities. Its chapters focus on images of invasive forms of print culture, the American historical romance, African American life writing, and Southwestern humor. Each in turn revises our sense of how these images and genres work in such a way as to reconnect them to a broad literary and social history of modernity. At precisely the moment when American authors began self-consciously to quest after a future in which national and racial identity would reign triumphant over all, their writing turned out to restructure time in a way that began foreclosing on that particular future.

1920s american novels archive: Popular Culture: 1920-1939 Jane Bingham, 2012-10-08

Who were the flappers? What were talkies? Who inspired the Harlem Renaissance? This book provides the answers and covers the effect of World War I and the newfound freedom of women on the popular culture of the era. For this was the age of jazz and cabaret, King Kong and Tarzan at the cinema, and the golden age of radio.

1920s american novels archive: Archives of Labor Lori Merish, 2017-05-04 In *Archives of Labor* Lori Merish establishes working-class women as significant actors within literary culture, dramatically redrawing the map of nineteenth-century US literary and cultural history. Delving into previously unexplored archives of working-class women's literature—from autobiographies, pamphlet novels, and theatrical melodrama to seduction tales and labor periodicals—Merish recovers working-class women's vital presence as writers and readers in the antebellum era. Her reading of texts by a diverse collection of factory workers, seamstresses, domestic workers, and prostitutes boldly challenges the purportedly masculine character of class dissent during this era. Whether addressing portrayals of white New England factory girls, fictional accounts of African American domestic workers, or the first-person narratives of Mexican women working in the missions of Mexican California, Merish unsettles the traditional association of whiteness with the working class to document forms of cross-racial class identification and solidarity. In so doing, she restores the tradition of working women's class protest and dissent, shows how race and gender are central to class identity, and traces the ways working women understood themselves and were understood as workers and class subjects.

1920s american novels archive: The American Novel 1870-1940 Priscilla Wald, Michael A. Elliott, Jonathan Arac, 2014-02 Witnessing the end of a war that nearly terminated the nation, the abolition of racial slavery and rise of legal segregation, the rise of Modernism and Hollywood, the closing of the frontier and two World Wars, the literary historical period represented in this volume constitutes the crucible of American literary history. Here, 35 essays by top researchers in the field detail how considerations of race and citizenship; immigration and assimilation; gender and sexuality; nationalism and empire; all reverberate throughout novels written in the United States between 1870 and 1940. Contributors discuss the professionalization of literary production after the Civil War alongside legal and political debates over segregation and citizenship; while chapters on journalism, geography, religion, and immigration offer discussions on everything from the lasting role of literary realism in American fiction to the Spanish-American War's effect on developing theories of aesthetics and popular culture. The volume offers thorough coverage of the emergence of serial fiction, children's fiction, crime and detective fiction, science fiction, and even cinema and comics, as new media and artistic revolutions like the Harlem Renaissance helped usher in the new international aesthetic movement of Modernism. The final chapters in the volume explore the

relationship of the novel to the emergence of American literature as a category in the academy, in public criticism and journalism, and in mass culture.

1920s american novels archive: *Bungalow Modernity* Mary Lou Emery, 2020-07-15 Despite its cozy image, the bungalow in literature and film is haunted by violence even while fostering possibilities for personal transformation, utopian social vision and even comedy. Originating in Bengal and adapted as housing for colonialist ventures worldwide, the homes were sold in mail-order kits during the bungalow mania of the early 20th century and enjoyed a revival at century's end. The bungalow as fictional setting stages ongoing contradictions of modernity--home and homelessness, property and dispossession, self and other--prompting a rethinking of our images of house and home. Drawing on the work of writers, architects and film directors, including Katherine Mansfield, E. M. Forster, Amitav Ghosh, Frank Lloyd Wright, Willa Cather, Buster Keaton and Walter Mosley, this study offers new readings of the transcultural bungalow.

1920s american novels archive: *The Bloomsbury Handbook of Modernist Archives* Jamie Callison, Matthew Feldman, Anna Svendsen, Erik Tønning, 2024-06-13 Providing a broad, definitive account of how the 'archival turn' in humanities scholarship has shaped modernist studies, this book also functions as an ongoing 'practitioner's toolkit' (including useful bibliographical resources) and a guide to avenues for future work. Archival work in modernist studies has revolutionised the discipline in the past two decades, fuelled by innovative and ambitious scholarly editing projects and a growing interest in fresh types of archival sources and evidence that can re-contextualise modernist writing. Several theoretical trends have prompted this development, including the focus on compositional process within genetic manuscript studies, the emphasis on book history, little magazines, and wider publishing contexts, and the emphasis on new material evidence and global and 'non-canonical' authors and networks within the 'New Modernist Studies'. This book provides a guide to the variety of new archival research that will point to fresh avenues and connect the methodologies and resources being developed across modernist studies. Offering a variety of single-author case studies on recent archival developments and editing projects, including Samuel Beckett, Hart Crane, H.D., James Joyce, Dorothy Richardson, May Sinclair and Virginia Woolf, it also offers a range of thematic essays that examine an array of underused sources as well as the challenges facing archival researchers of modernism

1920s american novels archive: Art and Archive. Genealogy and Contemporaneity (1920-2010) Anna Maria Guasch, 2024-12-31 This book provides a comprehensive exploration of the relationship between art and the archive. The author examines how artists have engaged with archival materials, practices and methodologies throughout history, from the avant-garde movements of the early 20th century to contemporary artistic practices. She explores the ways in which artists have appropriated, transformed and recontextualized archival documents and narratives to create new meanings and perspectives on history, memory, and identity. Guasch also discusses the role of the archive in shaping artistic production, reception and historiography, highlighting its significance as a site of cultural memory and knowledge production. Through a series of case studies and theoretical reflections, the book offers insights into the diverse ways in which artists have navigated the archive as a source of inspiration, critique and intervention in the artistic process. Art and Archive represents an archaeological and genealogical history of the relationships, sometimes linear, sometimes discontinuous, between art and the archive. The archive ceases to be a dusty space or a repository of historical artifacts, to become an active discursive and relational system that establishes — aesthetically, socially and politically — new relationships of temporality between past, present, and future, in what is understood as the time of the "future perfect".
