alan brinkley american pdf: American Matrix Karl Schlögel, 2023-09-25 Was macht Amerika aus? Karl Schlögel's besonderer Blick auf die Geschichte des 20. Jahrhunderts: die großen Jahre der USA Karl Schlögel hat als Historiker den Osten nach Europa zurückgebracht. Er hat aber auch intensiv die USA bereist, wo ihn die Weite des Landes genauso faszinierte wie in Russland. „American Matrix“ erzählt, wie Nordamerika von Eisenbahn und Highway erschlossen wurde, Städte und Industrien aus dem Nichts entstanden, Wolkenkratzer in den Himmel schossen – Errungenschaften einer Gesellschaft, die sich frei von allen Traditionen fühlte. Das Versprechen des American Way of Life veränderte die Welt genauso wie das sozialistische Experiment. Karl Schlögel's großes Buch beschreibt die USA aus einer einmaligen, überraschenden Perspektive – und erzählt eine Geschichte des 20. Jahrhunderts, wie sie noch nicht zu lesen war.

alan brinkley american pdf: Word Embeddings: Reliability & Semantic Change J. Hellrich, 2019-08-08 Word embeddings are a form of distributional semantics increasingly popular for investigating lexical semantic change. However, typical training algorithms are probabilistic, limiting their reliability and the reproducibility of studies. Johannes Hellrich investigated this problem both empirically and theoretically and found some variants of SVD-based algorithms to be unaffected. Furthermore, he created the JeSemE website to make word embedding based diachronic research more accessible. It provides information on changes in word denotation and emotional connotation in five diachronic corpora. Finally, the author conducted two case studies on the applicability of these methods by investigating the historical understanding of electricity as well as words connected to Romanticism. They showed the high potential of distributional semantics for further applications in the digital humanities.

alan brinkley american pdf: Westernisierung der Geschichtswissenschaft Matthias Krämer, 2021-11-08 Auch die deutschsprachige Geschichtswissenschaft arbeitet heute in einem internationalen Netzwerk. In der ersten Hälfte des 20. Jahrhunderts prallten dagegen nationale Historiographien aufeinander, vielfach in Erweiterung der Weltkriege. Um den Übergang von Konflikt zu Kooperation aufzuklären, nimmt Matthias Krämer ab 1933 emigrierte Historiker und ihre transatlantischen Gastprofessuren nach 1945 als Ausgangspunkte transnationaler Vernetzung in den Blick. Die kollektivbiographisch untersuchten Historikerkarrieren reichen vom Kaiserreich bis ins 21. Jahrhundert. Sie führen aus dem Deutschen Reich nach Amerika, schließlich in einen transnationalen Raum zeitlich begrenzter Remigrationen. Die Ausgrenzung der Emigranten blieb in der Historikerkunft auch nach dem Nationalsozialismus stark. Als Gastprofessoren erreichten sie jedoch die Studierendengeneration der Nachkriegszeit. Die von dieser vorangetriebene Westernisierung der Zukunft zeigt sich in einer tiefenhermeneutischen Rezeptionsanalyse und einer

praxeologischen Feldanalyse der Historischen Zeitschrift ebenso wie in den Erinnerungen der Nachkriegsstudierenden an ihre transatlantischen Gastprofessoren. Sie können die komplette Einleitung kostenfrei herunterladen!

alan brinkley american pdf: *The New Politics of the Textbook* Heather Hickman, Brad J. Porfilio, 2012-10-13 In an age of unprecedented corporate and political control over life inside of educational institutions, this book provides a needed intervention to investigate how the economic and political elite use traditional artifacts in K-16 schools to perpetuate their interests at the expense of minoritized social groups. The contributors provide a comprehensive examination of how textbooks, the most dominant cultural force in which corporations and political leaders impact the schooling curricula, shape students' thoughts and behavior, perpetuate power in dominant groups, and trivialize social groups who are oppressed on the structural axes of race, class, gender, sexuality, and (dis)ability. Several contributors also generate critical insight in how power shapes the production of textbooks and evaluate whether textbooks still perpetuate dominant Western narratives that normalize and privilege patriotism, militarism, consumerism, White supremacy, heterosexism, rugged individualism, technology, and a positivistic conception of the world. Finally, the book highlights several textbooks that challenge readers to rethink their stereotypical views of the Other, to reflect upon the constitutive forces causing oppression in schools and in the wider society, and to reflect upon how to challenge corporate and political dominance over knowledge production.

alan brinkley american pdf: *Rediscovering Republicanism* John Nantz, 2021-10-19 When well-designed institutions function properly, people thrive. Few institutions have been more ingeniously designed than the U.S. federal government via the Constitution in 1787. This auspicious beginning more than two centuries ago helps explain why the U.S. remains a magnet for opportunity seekers, students, entrepreneurs, dissidents, and persecuted believers. Yet for decades now, America's federal government has been underperforming. Social Security and Medicare face looming insolvency. The federal government's "war on poverty" has failed to "end poverty" and arguably made it worse. In 2012, the United States Postal Service lost more money than the nation spent on the State Department, and Amtrak has lost money every year since being created in 1971. How can an enduring institution, so thoughtfully crafted, now produce such poor results? The federal government has grown so much because it serves a new and different vision, American Progressivism. American Progressives believed that democratically elected, public-minded federal

politicians and employees could use federal programs to solve the nation's greatest problems in a way no other American institution could. This idea justified the federal government's massive expansion: today, the federal government runs over 1,500 programs and employs over 5% of the U.S. workforce. Yet federal results do not match Progressive expectations. Three key problems – "windfall politics", "the government surcharge", and "complexity failure" – overlooked by American Progressives explain the federal government's consistent failures. American Progressives' rosy-eyed view of human nature and political institutions have not been borne out by the evidence. In an era of substantial political fermentation and debate, rediscovering and re-applying American Republicanism represents the best path forward for the United States. The federal government should retain many necessary responsibilities but turn over those where it has failed – for social welfare, federally provided services, and retirement savings among others – to the country's state governments, civil society, and individual citizens respectively.

alan brinkley american pdf: Die offene Moderne - Gesellschaften im 20. Jahrhundert Christian Marx, Morten Reitmayer, 2020-12-14 Die europäischen Gesellschaften sahen sich während des 20. Jahrhunderts vor die Aufgabe gestellt, auf die neuen Herausforderungen zu reagieren, welche von den Basisprozessen der Industriemoderne – wie der Hochindustrialisierung, der Entstehung der modernen Industriearbeiterschaft, Urbanisierung, Massenmigration, Entstehung eines politischen Massenmarktes, Verwissenschaftlichung und »Entzauberung der Welt« – ausgingen. Hierfür brachten sie unterschiedliche, aber vergleichbare Institutionen, Mechanismen, Akteurskonstellationen, Deutungsmuster, Wissensformen und Diskurse hervor. Der Band geht in europäischer Perspektive der Frage nach, inwieweit deren spezifische Ausformungen von den jeweiligen »Ordnungsmustern« – als dem weitgehend nationalspezifischen Ensemble dominierender Ordnungsideen, Leitbegriffe, Gesellschafts- und zeitspezifischer Erfahrungen und Problemlagen – bestimmt wurden.

alan brinkley american pdf: Utopia in Practice Ou Ning, 2020-10-29 This book is a collection of texts on one of China's boldest social experiments in recent years: the rural reconstruction project in Bishan. The Bishan Project (2011-2016) was a rural reconstruction project in a small village Bishan, Anhui Province, China. The writings describe and criticize the social problems caused by China's over-loading urbanization process and starts a a contemporary agrarianism and agritopianism discourse to resist the modernism and developmentalism doctrine which dominated China for more than a century, answering a global desire for the theory and action of the alternative social solution for today's environmental and political crises. This practical utopian commune project ran for 6 years and caused a national debate on rural issues in China, when it was invited to be exhibited and presented abroad. This collection of writing will be of interest to artists, China scholars, architects, and the cultural community at large.

alan brinkley american pdf: Direct Democracy and the Courts Kenneth P. Miller, 2009-08-31 This book analyzes the conflict between two rising powers - direct democracy and the courts. Many voter-approved initiatives are challenged in court after the election and many are invalidated. The resulting conflict between the people and the courts threatens to produce a popular backlash against judges and raises profound questions about the proper scope of popular sovereignty and judicial power in a constitutional system.

alan brinkley american pdf: The Electronic Church in the Digital Age Mark Ward Sr., 2015-11-10 This two-volume set investigates the evangelical presence in America as experienced through digital media, examining current evangelical ideologies regarding education, politics, family, and government. Evangelical broadcasting has greatly expanded its footprint in the digital age. This informative text acquaints readers with how the electronic church of today spreads its message through Internet podcasts, social networking, religious radio programs, and televised sermons; how mass media forms the institution's modern identity; and what the future of the industry holds as mobile church apps, Christian-based video games, and online worship become the norm. The work—split into two volumes—reveals the ways that the Christian broadcast community affects evangelical traditions and influences American society in general. Volume 1 explores how

electronic media shapes today's Christian subculture, while the second volume describes how the electronic church impacts the wider American culture, analyzing what key figures in evangelical mass media are saying about today's religious, political, economic, and social issues. The set concludes by addressing criticism about religious media and the prospects of American public discourse to accommodate both secular and religious voices.

alan brinkley american pdf: Personal Faith, Public Policy Harry R. Jackson, 2012-10-30 Harry Jackson and Tony Perkins believe that America stands at a crossroads. As a nation we must choose God's blessings or His destruction of our society. The Religious Right, as it has been termed, often looks to the world as its enemy, and many Christians have seen themselves as combatants in war against anti-God forces. In *Personal Faith, Public Policy*, Jackson and Perkins take a radical new position, stating that the Christian church must lead morally and impact the culture with personal spiritual power and unified Christian public policy, demonstrating how a unified church can tackle each one of the seven major problems of our culture. Achieving victories in each of the seven areas presented will result in vanquishing the big problem facing our country-moral decay. Show Less

alan brinkley american pdf: Diese Wahrheiten Jill Lepore, 2019-10-15 WELTMACHT AM SCHEIDEWEG - JILL LEPORES BRILLANTE GESCHICHTE AMERIKAS Die Amerikaner stammen von Eroberern und Eroberten, von Menschen die als Sklaven gehalten wurden, und von Menschen die Sklaven hielten, von der Union und von der Konföderation, von Protestanten und von den Juden, von Muslimen und von Katholiken, von Einwanderern und von Menschen, die dafür gekämpft haben, die Einwanderung zu beenden. In der amerikanischen Geschichte ist manchmal - wie in fast allen Nationalgeschichten - der Schurke des einen der Held des anderen. Aber dieses Argument bezieht sich auf die Fragen der Ideologie: Die Vereinigten Staaten sind auf Basis eines Grundbestands von Ideen und Vorstellungen gegründet worden, aber die Amerikaner sind inzwischen so gespalten, dass sie sich nicht mehr darin einig sind, wenn sie es denn jemals waren, welche Ideen und Vorstellungen das sind und waren. Aus der Einleitung In einer Prosa von funkelnder Schönheit erzählt die preisgekrönte Historikerin Jill Lepore die Geschichte der USA von ihren Anfängen bis zur Gegenwart. Sie schildert sie im Spiegel jener «Wahrheiten» (Thomas Jefferson), auf deren Fundament die Nation gegründet wurde: der Ideen von der Gleichheit aller Menschen, ihren naturgegebenen Rechten und der Volkssouveränität. Meisterhaft verknüpft sie dabei das widersprüchliche Ringen um den richtigen Weg Amerikas mit den Menschen, die seine Geschichte gestaltet oder durchlitten haben. Sklaverei und Rassendiskriminierung kommen ebenso zur Sprache wie der Kampf für die Gleichberechtigung der Frauen oder die wachsende Bedeutung der Medien. Jill Lepores große Gesamtdarstellung ist aufregend modern und direkt, eine Geschichte der politischen Kultur, die neue Wege beschreitet und das historische Geschehen geradezu hautnah lebendig werden lässt. Das fulminante Portrait einer Nation Von den Anfängen bis zur heutigen Weltmacht in der Krise Jeder, der sich für die Zukunft Amerikas interessiert, muss dieses Buch lesen. Lepore macht alles lebendig, das Gute, das Schlechte, das Schöne und das Hässliche. Lynn Hunt

alan brinkley american pdf: A Troubled Birth Susan Herbst, 2021-11-08 Pollsters and pundits armed with the best public opinion polls failed to predict the election of Donald Trump in 2016. Is this because we no longer understand what the American public is? In *A Troubled Birth*, Susan Herbst argues that we need to return to earlier meanings of public opinion to understand our current climate. Herbst contends that the idea that there was a public—whose opinions mattered—emerged during the Great Depression, with the diffusion of radio, the devastating impact of the economic collapse on so many people, the appearance of professional pollsters, and Franklin

Roosevelt's powerful rhetoric. She argues that public opinion about issues can only be seen as a messy mixture of culture, politics, and economics—in short, all the things that influence how people live. Herbst deftly pins down contours of public opinion in new ways and explores what endures and what doesn't in the extraordinarily troubled, polarized, and hyper-mediated present. Before we can ask the most important questions about public opinion in American democracy today, we must reckon yet again with the politics and culture of the 1930s.

alan brinkley american pdf: *Six Stops on the National Security Tour* Miriam Pemberton, 2022-07-18 The U.S. military economy incorporates hundreds of American communities. This is the first book to connect our national security apparatus to the local level via deeply reported portraits of six carefully selected locations, including military Meccas and out-of-the-way places. They are woven into the warfare economy by bases, nuclear weapons labs, and production sites. The book includes an invaluable overview of how the military is structured, how its budget is made, and what it costs. It also shows how the military economy perpetuates itself. In on-the-ground reporting, Pemberton traces the lines of connection between the tour stops presented here and our country's foreign policy, industrial policy, and budget priorities. She examines the meaning of national security in the current moment, as climate change becomes what the military itself calls an urgent and growing threat. And she dramatically demonstrates how redirecting our militarized foreign and industrial policy toward climate security can help these communities become part of the solution. For students, scholars, public servants, and all concerned citizens, this book is essential reading.

alan brinkley american pdf: *Into the Fray* Tom Mascaro, 2012 2012 James W. Tankard Book Award Winner From 1961 to 1989, a committed group of documentary journalists from the National Broadcasting Company (NBC) reported the stories of America's overseas conflicts. Stuart Schulberg supplied film evidence to prosecute Nazi war criminals and established documentary units in postwar Berlin and Paris. NBC newsman David Brinkley created the template for prime-time news in 1961 and bore the scars to prove it. In 1964 Ted Yates and Bob Rogers produced a documentary warning of the pitfalls in Vietnam. Yates was later shot and killed in Jerusalem on the first day of the Six-Day War while producing a documentary for NBC News. In *Into the Fray*, Tom Mascaro vividly recounts the characters and experiences that helped create a unique, colorful documentary film crew based at the Washington bureau of NBC News. From the Kennedy era through the Reagan years, the journalists covered wars, rebellions, the Central Intelligence Agency, covert actions, the Pentagon, military preparedness, and world and American cultures. They braved conflicts and crises to tell the stories that Americans needed to see and hear, and in the process they changed the face of journalism. Mascaro also looks at the social changes in and around the unit itself, including the struggles and triumphs of women and African Americans in the field of television documentary. *Into the Fray* is the story of adventure, loyalty to reason, and life and death in the service of broadcast journalism.

alan brinkley american pdf: *For the Healing of the Nations* Peter Escalante, W. Bradford Littlejohn, 2014-11-04 The doctrine of creation is obviously one of the first things, but it is also one of the last things since the world to come is also, by definition, creation. The simple truth that it is so is incontestable since neither the world to come nor those whose dwelling it is built to be are God. But the way in which this is so is the subject of a long, long debate in Christendom, with the question of whether and in what degree the life to come is continuous with this one. How common is the "thing" in "first thing" and "last thing"? Our answer to this question conditions our answer to many others: the relationship of philosophy to theology, of the church to the saeculum, of the kingdom of Christ to the visible church. This volume brings together the careful investigations of established and emerging historians and theologians, exploring how these questions have been addressed at different points in Christian history, and what they mean for us today. Includes contributions from James Bratt, E.J. Hutchinson, Matthew Tuininga, Andrew Fulford, Laurence O'Donnell, Benjamin Miller, Brian Auten, and Joseph Minich.
