

american nationalist views

american nationalist views represent a complex and evolving set of beliefs centered around the idea that the United States should prioritize its own interests, culture, and sovereignty above those of other nations. This perspective has been shaped by historical events, political movements, and shifting attitudes toward globalization and immigration. In this comprehensive article, we will explore the origins of American nationalism, examine its key principles, and discuss how these views influence contemporary politics, society, and foreign policy. We will delve into the core values that define American nationalist ideology, analyze its impact on public discourse, and consider both supportive and critical perspectives. Whether you are seeking to understand the historical foundations or the current influence of American nationalist views, this guide offers detailed insights and balanced information. Continue reading to discover how these ideas shape national identity, policy decisions, and debates within the United States.

Understanding American Nationalist Views

American nationalist views are rooted in the belief that the United States should emphasize its unique culture, prioritize its own interests, and maintain strong national sovereignty. These perspectives often focus on preserving traditional American values, promoting patriotism, and resisting external influences that might dilute national identity. American nationalism can be seen in various social, political, and cultural discussions, with advocates stressing the importance of unity, self-reliance, and national pride. Understanding these views requires examining their ideological foundations and the ways they manifest in everyday life.

Defining American Nationalism

American nationalism is typically defined by an allegiance to the country's symbols,

traditions, and founding ideals. This includes respect for the Constitution, the flag, and the nation's historical achievements. Nationalists often argue that prioritizing American interests leads to greater prosperity, security, and cohesion among citizens. The emphasis on national sovereignty distinguishes American nationalist views from more globalist or internationalist outlooks.

Key Elements of Nationalist Thought

- Emphasis on patriotism and national pride
- Support for strong borders and immigration controls
- Preference for American-made goods and industries
- Advocacy for traditional American values
- Opposition to perceived threats from globalization

Historical Origins of American Nationalism

The foundations of American nationalist views can be traced back to the nation's earliest days. The emergence of a distinct American identity was shaped by the Revolutionary War, the crafting of the Constitution, and the development of a shared culture. Throughout history, nationalism has played a role in moments of unity and conflict, influencing political movements and shaping the national narrative.

Early American Identity

During the colonial era and the fight for independence, American nationalism was fueled by a desire for self-governance and resistance to foreign control. The Founding Fathers promoted values such as liberty, individualism, and civic duty, which became cornerstones of national pride. These themes were further reinforced during the Civil War, which tested the bonds of unity and national purpose.

20th Century Nationalism

In the 20th century, American nationalism was shaped by global conflicts such as World War I and II, the Cold War, and the rise of superpower status. Nationalist sentiment often surged during times of perceived external threat, leading to campaigns promoting unity and patriotism. The civil rights movement and debates over immigration also influenced the evolution of American nationalist views.

Core Principles and Beliefs

American nationalist views encompass a range of principles that guide political and social attitudes. These beliefs are reflected in policy preferences, cultural norms, and public rhetoric. Nationalists emphasize the importance of protecting American interests, fostering a strong sense of community, and upholding the nation's founding values.

Patriotism and National Pride

A central tenet of American nationalism is the celebration of the country's achievements and symbols. Nationalists often participate in patriotic events, honor military service, and advocate for civic engagement. This pride is seen as essential for maintaining unity and resilience in the face of challenges.

Support for Sovereignty and Security

Nationalist views prioritize the protection of American borders and the enforcement of immigration laws. Advocates argue that maintaining sovereignty and security is critical for preserving the nation's way of life and preventing external threats. This perspective often leads to support for strong military capabilities and robust law enforcement.

Preservation of Traditional Values

American nationalist ideology frequently calls for the preservation of cultural and moral values associated with the nation's history. This includes support for the nuclear family, religious freedom, and respect for constitutional principles. Nationalists may resist changes perceived as undermining these traditions.

Influence on U.S. Politics and Society

American nationalist views have significantly impacted political discourse, party platforms, and public debates. Politicians and leaders who embrace nationalist rhetoric often gain support from voters seeking to prioritize domestic interests and reinforce national identity. These views also affect social attitudes and community dynamics.

Role in Political Movements

Nationalism has influenced the development of political parties and grassroots movements, especially those advocating for limited government, strong borders, and economic protectionism. Prominent figures have leveraged nationalist themes in campaigns and policy proposals, shaping the direction of national debates.

Impact on Social Cohesion

Supporters of American nationalist views argue that emphasizing unity and shared values strengthens social cohesion. Initiatives promoting civic education, historical awareness, and community involvement often draw upon nationalist principles to foster a sense of belonging and purpose.

Criticisms and Support for American Nationalism

American nationalist views are the subject of ongoing debate, with both supporters and critics offering distinct perspectives. While some praise nationalism for promoting unity and self-reliance, others caution against potential exclusionary effects and risks to democratic values.

Supportive Arguments

- Enhances national unity and pride
- Protects American jobs and industries
- Strengthens national security and sovereignty
- Preserves cultural traditions and values

Criticisms and Concerns

- May foster exclusion or intolerance
- Risks undermining international cooperation
- Potential conflict with democratic and pluralistic ideals
- Concerns about xenophobia or isolationism

Impact on Foreign Policy and Global Relations

American nationalist views have shaped the country's approach to foreign policy and international relations. Leaders who prioritize nationalist principles often advocate for policies that emphasize American interests, reduce reliance on international organizations, and renegotiate trade agreements.

Approach to Global Engagement

Nationalists typically favor a more restrained, strategic approach to global involvement. This includes skepticism toward multilateral institutions and a preference for bilateral agreements that serve American interests. The goal is to limit foreign entanglements and ensure that diplomacy aligns with national priorities.

Trade and Economic Policy

Economic nationalism manifests in calls for protecting domestic industries, promoting American manufacturing, and scrutinizing trade deals. Policies such as tariffs, import restrictions, and incentives for local production are often justified as necessary for safeguarding economic sovereignty.

Contemporary Trends and Future Outlook

American nationalist views continue to evolve in response to changing social, economic, and political dynamics. Current trends reflect ongoing debates over immigration, globalization, and cultural identity. The future of American nationalism will be shaped by generational shifts, technological advancements, and the nation's role in a rapidly changing world.

Emerging Issues

Recent years have seen renewed interest in nationalist ideas, driven by global uncertainty, demographic changes, and political polarization. The rise of social media and new communication platforms has amplified nationalist rhetoric and influenced public opinion. Ongoing debates about American identity and values will likely continue to shape nationalist perspectives.

Potential Developments

The trajectory of American nationalist views will depend on national and global events, as well as the ability of advocates and critics to engage in constructive dialogue. As the United States navigates complex challenges, the balance between nationalism and international cooperation will remain a defining issue for policymakers and citizens alike.

Q: What are the main beliefs associated with american nationalist views?

A: American nationalist views emphasize patriotism, national pride, strong borders, preservation of traditional American values, support for sovereignty, and prioritization of domestic interests over global considerations.

Q: How have american nationalist views shaped U.S. politics?

A: American nationalist views have influenced political platforms, election campaigns, and policy decisions, especially regarding immigration, trade, national security, and cultural issues.

Q: What are common criticisms of american nationalist views?

A: Criticisms include concerns about exclusion, intolerance, risks to pluralism and democracy, potential isolationism, and diminished international cooperation.

Q: How do american nationalist views impact foreign policy?

A: These views often result in policies that favor national sovereignty, renegotiation of trade agreements, reduced participation in international organizations, and a focus on bilateral relations.

Q: Are american nationalist views compatible with globalization?

A: American nationalist views generally resist aspects of globalization that are perceived to threaten national identity, economic sovereignty, or cultural traditions, favoring protectionist policies.

Q: What historical events have influenced american nationalist views?

A: Events such as the Revolutionary War, Civil War, World Wars, and the Cold War have all contributed to shaping American nationalist perspectives and identity.

Q: How do american nationalist views address immigration?

A: Advocates typically support stricter immigration controls and policies that prioritize security and assimilation, viewing immigration through the lens of national interest.

Q: What is the future outlook for american nationalist views?

A: The future of American nationalism will depend on societal, political, and economic trends, as well as evolving debates about identity, sovereignty, and global engagement.

Q: Do american nationalist views promote social cohesion?

A: Supporters argue that nationalist views foster unity and shared purpose, while critics caution that they may lead to division or exclusion.

Q: How do american nationalist views differ from patriotism?

A: While both emphasize love of country, American nationalist views place greater focus on sovereignty, self-reliance, and the prioritization of national interests, sometimes at the expense of international cooperation.

american nationalist views: *Not Viable An Autobiography of an American Nationalist* Nick Taurus, 2024-05-31 Not Viable: An Autobiography of an American Nationalist is the story of American nationalist, activist, and former congressional candidate Nick Taurus. The work explores

the difficulties in infiltrating the political mainstream, the inherent hypocrisy of the GOP political establishment, and the continued ideological awakening of millions of White Americans who have grown dissatisfied with the current trajectory of our country. Although *Not Viable* is the story of one man, Nick Taurus, and his long-shot candidacy in the 2022 midterms, the story itself is a commentary on our broken political system. American politics is far from this virtuous process our elites want us to believe it is, while the levels of ethnic nepotism, backroom dealing, and blackballing is truly astounding. *Not Viable* is meant as a middle finger to established American political orthodoxy, and this work hopes to demonstrate that the machinations of our bankrupt political class is what's truly not viable in American politics today.

american nationalist views: *The American National Preacher* , 1838

american nationalist views: *American National Security* Michael J. Meese, Suzanne C. Nielsen, Rachel M. Sondheimer, 2018-09-03 This classic text provides a rich and nuanced discussion of American national security policymaking. *American National Security* remains the ideal foundational text for courses in national security, foreign policy, and security studies. Every chapter in this edition has been extensively revised, and the book includes discussion of recent security policy changes in the Trump administration. Highlights include: • An updated look at national security threats, military operations, and homeland security challenges • An analysis of the evolving roles of the president, Congress, the intelligence community, the military, and other institutions involved in national security • A revised consideration of the strengths, limitations, and employment of instruments of national power, including diplomacy, information, economic tools, and armed forces • An exploration of the economic and national security implications of globalization • An enhanced examination of the proliferation of transnational threats, including security challenges in space and in cyberspace • A new assessment of how international, political, and economic trends may change US leadership of the post-World War II international order • A comprehensive update on changing dynamics in key states and regions, including Russia, China, East Asia, the Middle East, South Asia, Europe, Sub-Saharan Africa, and Latin America An authoritative book that explains US national security policy, actors, and processes in a wide-ranging yet understandable way, *American National Security* addresses key issues, including challenges to the free and open international order, the reemergence of strategic competition among great powers, terrorism, economic and fiscal constraints, and rapid advances in information and technology.

american nationalist views: *The Rhetorical Invention of America's National Security State* Marouf Hasian Jr., Sean Lawson, Megan D. McFarlane, 2015-07-29 *The Rhetorical Invention of America's National Security State* examines the rhetoric and discourse produced by and constitutive of America's national security state. Hasian, Lawson, and McFarlane illustrate the importance of rhetoric to the expansion of the American national security state in the post-9/11 era through their examination of the global war on terrorism, enhanced interrogation techniques, drone crew stress, activities of Edward Snowden, rise of Special Forces, and popular representations of counterterrorism. The coauthors contend this expansion was not the result of lone, imperial executives or a nefarious state within a state, but was co-produced by elite and non-elite Americans alike who not only condoned, but also in many cases demanded, the expansion of the national security state. This work will be of interest to scholars in communication studies and political science.

american nationalist views: *Perspectives On Irish Nationalism* Thomas E. Hachey, Lawrence J. McCaffrey, 2021-03-17 *Perspectives on Irish Nationalism* examines the cultural, political, religious, economic, linguistic, folklore, and historical dimensions of the phenomenon of Irish nationalism. Its essayists are among the most distinguished Irish studies scholars. Their essays include a comprehensive analysis of the tapestry of Irish nationalism and focused studies that often challenge myths, pieties, and the scholarly consensus. Thomas E. Hachey is Professor of Irish, Irish-American, and British history and Chair of the department at Marquette University. He wrote *Britain and Irish Separatism: From the Fenians to the Free State 1807-1922* (1977), coauthored and edited *The Problem of Partition: Peril to World Peace* (1972); coedited *Voices of Revolution: Rebels*

and Rhetoric (1972), and edited *Anglo-Vatican Relations, 1919-1937: Confidential Annual Reports of the British Ministers to the Holy See and Confidential Dispatches: Analyses of American by the British Ambassador, 1939-45* (1974). Lawrence J. McCaffrey is Professor of Irish and Irish-American History at Loyola University of Chicago. He has published a number of articles and books, including *Daniel O'Connell and the Repeal Year* (1966), *The Irish Question, 1800-1922* (1968), *The Irish Diaspora in America* (1976) and coauthored *The Irish in Chicago* (1987).

american nationalist views: Theoretical and Comparative Perspectives on Nationalism

Taras Kuzio, 2007-12-17 This volume brings together 15 articles divided into four sections on the role of nationalism in transitions to democracy, the application of theory to country case studies, and the role played by history and myths in the forging of national identities and nationalisms. The book develops new theories and frameworks through engaging with leading scholars of nationalism: Hans Kohn's propositions are discussed in relation to the applicability of the term 'civic' (with no ethno-cultural connotations) to liberal democracies, Rogers Brubaker over the usefulness of dividing European states into 'civic' and 'nationalizing' states when the former have historically been 'nationalizers', Will Kymlicka on the applicability of multiculturalism to post-communist states, and Paul Robert Magocsi on the lack of data to support claims of revivals by national minorities in Ukraine. The book also engages with 'transitology' over the usefulness of comparative studies of transitions in regions that underwent only political reforms, and those that had 'quadruple transitions', implying simultaneous democratic and market reforms, as well as state and nation building. A comparative study of Serbian and Russian diasporas focuses on why ethnic Serbs and Russians living outside Serbia and Russia reacted differently to the disintegration of Yugoslavia and the USSR. The book dissects the writing of Russian and Soviet history that continues to utilize imperial frameworks of history, analyzes the re-writing of Ukrainian history within post-colonial theories, and discusses the forging of Ukraine's identity within theories of 'Others' as central to the shaping of identities. The collection of articles proposes a new framework for the study of Ukrainian nationalism as a broader research phenomenon by placing nationalism in Ukraine within a theoretical and comparative perspective.

american nationalist views: The Literary Quest for an American National Character Finn

Pollard, 2009 What then is the American, this new man? This question is explored here through the lives and writings of a sequence of imaginative authors each of whom confronted a crucial moment in the evolution of the new nation (from Crèvecoeur and the Revolution, through Washington Irving and Jeffersonian Democracy, to James Fenimore Cooper and the Era of Good Feelings). At the centre of these confrontations was a division between those who claimed national perfection had been obtained, and those who, while desperately wanting to believe this, perceived all too clearly that that perfection had not yet come. Rediscovering this neglected literary debate, *The Literary Quest for an American National Character* illuminates afresh the traumatic birth and development of the new American nation.

american nationalist views: *Moon USA National Parks* Becky Lomax, 2018-10-16

They've been dubbed America's best idea for a reason: get inspired, get outdoors, and discover the wild beauty of the United States with *Moon USA National Parks*. Inside you'll find: Coverage of all 59 national parks, from the misty mountains of the east and the redwoods of the west, to the glaciers of Alaska and volcanoes of Hawaii, organized by region Strategic lists and itineraries: Choose from lists of the best parks for hiking, wildlife, families, and scenic drives, or make your way down the list of the top ten national parks experiences across the country The best outdoor adventures in every park, including backpacking, biking, mountain climbing, kayaking, rafting, and more, plus detailed hike descriptions and trail maps marked with distance, duration, effort level, and trailheads National parks road trips with driving times and advice for linking multiple parks, interesting stops between them, and nearby attractions and state parks Comprehensive planning resources: With detailed maps and transportation tips, you'll have the tools to explore each park or region individually, or visit multiple for an epic national parks trip Expert advice from former park guide and award-winning author Becky Lomax on how to avoid crowds, what time of year to visit, and where to

stay inside and outside the parks, from campgrounds to hotels Know before you go: Find essential background on climate, terrain, wildlife, history, and safety precautions, plus practical information on park fees, passes, and reservations, including how to obtain and use a National Parks Pass Gorgeous, full-color photos throughout, plus a handy keepsake section for your national parks stamps and a detachable fold-out poster map Whether you're trekking to striking vistas, rafting a wild river, or camping under the stars, find your park adventure with Moon USA National Parks. For more in-depth information on a specific park, check out Moon's national parks travel guides.

american nationalist views: Hiking Hidden Gems in America's National Parks Ted Alvarez, 2024-09-17 Hiking Hidden Gems in America's National Parks takes you to the lesser known hikes in these exceptional destinations—avoid the crowds and enjoy the epic views of our national parks' best kept secrets.

american nationalist views: Culture, Technology, and the Creation of America's National Parks Richard A. Grusin, 2004-04-22 Richard Grusin's innovative study investigates how the establishment of national parks participated in the production of American national identity after the Civil War. The creation of America's national parks is usually seen as an uncomplicated act of environmental preservation. Grusin argues, instead, that parks must be understood as complex cultural technologies for the reproduction of nature as landscape art. He explores the origins of America's three major parks - Yosemite, Yellowstone, and Grand Canyon—in relation to other forms of landscape representation including photography, mapping, travel writing and fiction.

american nationalist views: American National Security Policy John T. Fishel, 2017-02-15 Security policy is a key factor not only of domestic politics in the U.S., but also of foreign relations and global security. This text sets to explain the process of security policy making in the United States by looking at all the elements that shape it, from institutions and legislation to policymakers themselves and historical precedents. To understand national security policy, the book first needs to address the way national security policy makers see the world. It shows that they generally see it in realist terms where the state is a single rational actor pursuing its national interest. It then focuses on how legislative authorities enable and constrain these policy makers before looking at the organizational context in which policies are made and implemented. This means examining the legal authorities that govern how the system functions, such as the Constitution and the National Security Act of 1947, as well as the various governmental institutions whose capabilities either limit or allow execution, such as the CIA, NSA, etc. Next, the text analyzes the processes and products of national security policy making, such as reports, showing how they differ from administration to administration. Lastly, a series of case studies illustrate the challenges of implementing and developing policy. These span the post-Cold war period to the present, and include the Panama crisis, Somalia, the Balkans Haiti, the Iraq wars, and Afghanistan. By combining both the theory and process, this textbook reveals all aspects of the making of national security policy in United States from agenda setting to the successes and failures of implementation.

american nationalist views: USA National Parks DK Travel, 2024-03-07 The USA's National Parks truly are places of wonder: staggering landscapes of jaw-dropping dimensions and incredible diversity where you can stand on the very edge of civilisation. They are the earth's breathing spaces, precious places to conserve nature and wildlife for future generations. It's everywhere, and it's telling entire generations of people how to travel the world.' Fairfax Media (Australia)

american nationalist views: *Race and the Production of Modern American Nationalism* Reynolds J. Scott-Childress, 2014-01-14 This important book addresses the ways race has both helped and hindered Americans in determining national identity. Contributors consider race and American nationalism from a variety of historical and disciplinary vantage points. Beginning with the aftermath of the Civil War and unfolding chronologically through to the present, the essays examine a multitude of different groups-Japanese Americans, Chinese Americans, Puerto Ricans, African Americans, whites, Jews, Irish Americans, German Americans-by examining race and nationalism represented in public memorials, photography, film, classic and minor literature, gender issues, legal studies, and more. The book offers rereadings of some of the pivotal figures in American culture and politics, including Herman Melville, Frances Harper, William James, Frederic Remington, Charles Francis Adams, W. E. B. DuBois, George Creel, Zora Neale Hurston, Louis Chu, and others. In the course of these essays, readers will learn how Americans in different periods and circumstances have grappled with the changing issues of defining race and of defining American as a race, as a nationality, or as both.

american nationalist views: *America's National Parks and Their Keepers* Ronald A. Foresta, 2013-11-26 First Published in 2011. This book is a study of an expanding National Park System; it is also a study of the bureaucracy that shaped it, how it grew, and the stresses it faces. As

Dr. Foresta shows, the Park Service is no stranger to controversy and change. One of the Service's strengths has been its pragmatism and adaptability, but current guidelines are hard to come by and the decisions of the future will be neither simple nor easy. This study is valuable not only for its analysis but for the informed, revealing picture it presents of an agency and a system that have enriched the lives of countless citizens and visitors to this country.

american nationalist views: The American National Exhibition, Moscow, July 1959

United States. Congress. House. Committee on Un-American Activities, 1959

american nationalist views: Immigration, Assimilation, and the Cultural Construction of American National Identity Shannon Latkin Anderson, 2015-11-19 Over the course of the 20th century, there have been three primary narratives of American national identity: the melting pot, Anglo-Protestantism, and cultural pluralism/multi-culturalism. This book offers a social and historical perspective on what shaped each of these imaginings, when each came to the fore, and which appear especially relevant early in the 21st century. These issues are addressed by looking at the United States and elite notions of the meaning of America across the 20th century, centering on the work of Horace Kallen, Nathan Glazer and Daniel Patrick Moynihan, and Samuel P. Huntington. Four structural areas are examined in each period: the economy, involvement in foreign affairs, social movements, and immigration. What emerges is a narrative arc whereby immigration plays a clear and crucial role in shaping cultural stories of national identity as written by elite scholars. These stories are represented in writings throughout all three periods, and in such work we see the intellectual development and specification of the dominant narratives, along with challenges to each. Important conclusions include a keen reminder that identities are often formed along borders both external and internal, that structure and culture operate dialectically, and that national identity is hardly a monolithic, static formation.

american nationalist views: *The Art of Belonging: Immigrants and the Making of America's National Identity* Pasquale De Marco, 2025-07-15 In the tapestry of human history, few stories are as compelling and transformative as the journey of immigrants. Driven by dreams of a better life, they leave their homelands and embark on a perilous journey to an unknown land, carrying with them their hopes, fears, and aspirations. This book captures the essence of this extraordinary phenomenon, delving into the multifaceted experiences of immigrants in America. Through the prism of their journeys, we witness the challenges and triumphs, the hopes and fears, the dreams and disappointments that shape their lives. We come to understand the profound impact that immigration has had on American society, culture, and politics. From the earliest settlers who crossed the Atlantic in search of a new beginning to the millions who have arrived in more recent times, immigrants have played an integral role in shaping the American narrative. Their stories of struggle and triumph, of resilience and perseverance, are an intrinsic part of the American experience. We begin our exploration by examining the historical roots of immigration in America, tracing the waves of newcomers who have arrived on these shores over the centuries. We delve into the motivations that drove them to leave their homelands and embark on a perilous journey to an unknown land. We uncover the hardships they faced, the prejudice and discrimination they encountered, and the resilience they displayed in overcoming adversity. From there, we turn our attention to the contemporary immigrant experience, delving into the lives of those who have recently arrived in America. We witness their struggles to learn a new language, adapt to a new culture, and find their place in a new society. We explore the challenges they face in finding employment, housing, and healthcare, and the often-overlooked contributions they make to their communities. We also examine the complex and often contentious issue of immigration policy in America. We explore the historical evolution of immigration laws, the current debates surrounding immigration reform, and the impact that these policies have on the lives of immigrants and American citizens alike. We delve into the arguments for and against stricter border control, the challenges of undocumented immigration, and the moral and economic implications of these policies. Throughout our exploration, we never lose sight of the human dimension of immigration. We encounter individuals and families whose stories embody the hopes, dreams, and struggles of millions. We hear

their voices, we share their experiences, and we gain a deeper understanding of the profound impact that immigration has on the lives of those who choose to make America their home. If you like this book, write a review!

american nationalist views: *Harlem Renaissance Lives from the African American National Biography* Henry Louis Gates (Jr.), Evelyn Brooks Higginbotham, 2009 The Harlem Renaissance is the best known and most widely studied cultural movement in African American history. Now, in *Harlem Renaissance Lives*, esteemed scholars Henry Louis Gates Jr. and Evelyn Brooks Higginbotham have selected 300 key biographical entries culled from the eight-volume *African American National Biography*, providing an authoritative who's who of this seminal period. Here readers will find engagingly written and authoritative articles on notable African Americans who made significant contributions to literature, drama, music, visual art, or dance, including such central figures as poet Langston Hughes, novelist Zora Neale Hurston, aviator Bessie Coleman, blues singer Ma Rainey, artist Romare Bearden, dancer Josephine Baker, jazzman Louis Armstrong, and the intellectual giant W. E. B. Du Bois. Also included are biographies of people like the Scottsboro Boys, who were not active within the movement but who nonetheless profoundly affected the artistic and political statements that came from Harlem Renaissance figures. The volume will also feature a preface by the editors, an introductory essay by historian Cary D. Wintz, and 75 illustrations.

american nationalist views: *The Oxford Handbook of U.S. National Security* Derek S. Reveron, Nikolas K. Gvosdev, John A. Cloud, 2018-05-01 The Oxford Handbook of U.S. National Security frames the context, institutions, and processes the U.S. government uses to advance national interests through foreign policy, government institutions, and grand strategy. Contributors examine contemporary national security challenges and the processes and tools used to improve national security.
