anglo saxon epic comics pdf: Robots in Popular Culture Richard A. Hall, 2021-07-12 Robots in Popular Culture: Androids and Cyborgs in the American Imagination seeks to provide one go-to reference for the study of the most popular and iconic robots in American popular culture. In the last 10 years, technology and artificial intelligence (AI) have become not only a daily but a minute-by-minute part of American life-more integrated into our lives than anyone would have believed even a generation before. Americans have long known the adorable and helpful R2-D2 and the terrible possibilities of Skynet and its army of Terminators. Throughout, we have seen machines as valuable allies and horrifying enemies. Today, Americans cling to their mobile phones with the same affection that Luke Skywalker felt for the squat R2-D2. Meanwhile, our phones, personal computers, and cars have attained the ability to know and learn everything about us. This volume opens with essays about robots in popular culture, followed by 100 A-Z entries on the most famous AIs in film, comics, and more. Sidebars highlight ancillary points of interest, such as authors, creators, and tropes that illuminate the motives of various robots. The volume closes with a glossary of key terms and a bibliography providing students with resources to continue their study of what robots tell us about ourselves.

anglo saxon epic comics pdf: Northlanders Book 1: The Anglo-Saxon Saga Brian Wood, 2016-06-28 The first of three volumes chronicling the entire NORTHLANDERS saga! Writer BRIAN

WOOD (DMZ, Rebels, The Massive), with a lineup of acclaimed artists including DAVIDE GIANFELICE (Daredevil: Reborn) and RYAN KELLY (LUCIFER), brings his modern, stylish sensibility a thousand years into the past. The British Isles were a tempting target to the Vikings, who craved lush land to farm and rich monasteries to plunder, and the fractured Saxon kingdoms were barely able to resist. But as time progressed and the centuries-old pagan belief in nature, the fates, and a raucous warrior afterlife were gradually replaced by the rigid traditions of Christianity, a dark ages culture war took shape. An exiled Viking warrior returns to Orkney to claim a family title in "Sven The Returned." A trio of Norse wives hold a coastal fort against wave after wave of invaders in "The Shield Maidens." A forensic investigator tracks a series of killings across pagan Ireland in "The Cross And The Hammer." "Thor's Daughter" introduces a young woman, the sudden and tragic heir to an army of impatient warriors. And in the poignant "Lindisfarne," a young boy witnesses the brutal monastery raid that started it all. Collects NORTHLANDERS #1-16, #18-19, and #41.
