a long way gone pdf: *Up for Sale* Alison Marie Behnke, 2014-09-01 Trafficking thrives in the shadows. And it can be easy to dismiss it as something that happens to someone else, somewhere else. But that is not the case. Trafficking is a crime that involves every nation on earth, and that includes our own.—US secretary of state Hillary Rodham Clinton, 2009 Human trafficking is as old as slavery and continues to be practiced in the modern world. Victims of human traffickers include workers in restaurants and in garment factories, maids and nannies in the homes of wealthy families, child sex workers, beggars on the street, boy soldiers, even infants kidnapped for foreign adoptions. Women and children are more likely to be coerced or seized than men and boys, especially if they are poor and uneducated. Traffickers sell their victims for their bodies or for their labor and reap an enormous profit. Human trafficking is estimated to be a \$30 to \$45 billion industry on an annual basis, rivaling weapons and drug trafficking as one of the most profitable criminal undertakings in the world. *Up for Sale* takes a hard look at human trafficking, identifying perpetrators and telling the stories of victims through their own words. You'll discover why some people become vulnerable to trafficking and you'll read about what their lives are like on a daily basis. You'll also meet some of the courageous individuals and organizations working to free people from lives in bondage so that, in the words of US president Barack Obama, each person can forge a life equal to [their] talents and worthy of [their] dreams.

a long way gone pdf: The Refugee Challenge in Post-Cold War America María Cristina García, 2017-08-01 For over forty years, Cold War concerns about the threat of communism shaped the contours of refugee and asylum policy in the United States, and the majority of those admitted as refugees came from communist countries. In the post-Cold War period, a wider range of geopolitical and domestic interests influence which populations policymakers prioritize for admission. The Refugee Challenge in Post-Cold War America examines the actors and interests that have shaped refugee and asylum policy since 1989. Policymakers are now considering a wider range of populations as potentially eligible for protection: victims of civil unrest, genocide, trafficking, environmental upheaval, and gender-based discrimination, among others. Many of those granted protected status since 1989 would never have been considered for admission during the Cold War. Among the challenges of the post-Cold War era are the growing number of asylum seekers who have petitioned for protection at a port of entry and are backlogging the immigration courts. Concerns over national security have also resulted in deterrence policies that have raised important questions about the rights of refugees and the duties of nations. María Cristina García evaluates the challenges of reconciling international humanitarian obligations with domestic concerns for national security.

a long way gone pdf: Searching for Normal in the Wake of the Liberian War Sharon Alane Abramowitz, 2014-07-03 At the end of Liberia's thirteen-year civil war, the devastated population struggled to rebuild their country and come to terms with their experiences of violence. During the first decade of postwar reconstruction, hundreds of humanitarian organizations created programs that were intended to heal trauma, prevent gendered violence, rehabilitate former soldiers, and provide psychosocial care to the transitioning populace. But the implementation of these programs was not always suited to the specific mental health needs of the population or easily reconciled with the broader aims of reconstruction and humanitarian peacekeeping, and psychiatric treatment was sometimes ignored or unevenly integrated into postconflict humanitarian health care delivery. Searching for Normal in the Wake of the Liberian War explores the human experience of the massive apparatus of trauma-healing and psychosocial interventions during the first five years of postwar reconstruction. Sharon Alane Abramowitz draws on extensive fieldwork among the government officials, humanitarian leaders, and an often-overlooked population of Liberian NGO employees to examine the structure and impact of the mental health care interventions, in particular the ways they were promised to work with peacekeeping and reconstruction, and how the reach and effectiveness of these promises can be measured. From this courageous ethnography emerges a geography of trauma and the ways it shapes the lives of those who give and receive care in postwar Liberia.

a long way gone pdf: We the Young Fighters Marc Sommers, 2023-10 We the Young Fighters is at once a history of a nation, the story of a war, and the saga of downtrodden young people and three pop culture superstars. Reggae idol Bob Marley, rap legend Tupac Shakur, and the John Rambo movie character all portrayed an upside-down world, where those in the right are blamed

while the powerful attack them. Their collective example found fertile ground in the West African nation of Sierra Leone, where youth were entrapped, inequality was blatant, and dissent was impossible. When warfare spotlighting diamonds, marijuana, and extreme terror began in 1991, military leaders exploited the trio's transcendent power over their young fighters and captives. Once the war expired, youth again turned to Marley for inspiration and Tupac for friendship. Thoroughly researched and accessibly written, *We the Young Fighters* probes terror-based warfare and how Tupac, Rambo, and—especially—Bob Marley wove their way into the fabric of alienation, resistance, and hope in Sierra Leone. The tale of pop culture heroes radicalizing warfare and shaping peacetime underscores the need to engage with alienated youth and reform predatory governments. The book ends with a framework for customizing the international response to these twin challenges.
