acting script starcatcher: The Routledge Companion to Dramaturgy Magda Romanska, 2014-08-07 Dramaturgy, in its many forms, is a fundamental and indispensable element of contemporary theatre. In its earliest definition, the word itself means a comprehensive theory of play making. Although it initially grew out of theatre, contemporary dramaturgy has made enormous advances in recent years, and it now permeates all kinds of narrative forms and structures: from opera to performance art; from dance and multimedia to filmmaking and robotics. In our global, mediated context of multinational group collaborations that dissolve traditional divisions of roles as well as unbend previously intransigent rules of time and space, the dramaturg is also the ultimate globalist: intercultural mediator, information and research manager, media content analyst, interdisciplinary negotiator, social media strategist. This collection focuses on contemporary dramaturgical practice, bringing together contributions not only from academics but also from prominent working dramaturgs. The inclusion of both means a strong level of engagement with current issues in dramaturgy, from the impact of social media to the ongoing centrality of interdisciplinary and intermedial processes. The contributions survey the field through eight main lenses: world dramaturgy and global perspective dramaturgy as function, verb and skill dramaturgical leadership and season planning production dramaturgy in translation adaptation and new play development interdisciplinary dramaturgy play analysis in postdramatic and new media dramaturgy social media and audience outreach. Magda Romanska is Visiting Associate Professor of Slavic Languages and Literatures at Harvard University, Associate Professor of Theatre and Dramaturgy at Emerson College, and Dramaturg for Boston Lyric Opera. Her books include *The Post-Traumatic Theatre of Grotowski and Kantor* (2012), *Boguslaw Schaeffer: An Anthology* (2012), and *Comedy: An Anthology of Theory and Criticism* (2014).

acting script starcatcher: Playwriting, Dramaturgy and Space Sara Freeman, 2024-01-18 Theatre has come back to text, but with perspectives shifted by the experimental practices of the twentieth century across performance forms. Contemporary playwriting brings its scenographic engagement to the foreground of the text, reflecting the spatial turn in theory and practice. In production, this spatiality has renewed and enlivened the status and impact of text-based theatre. Theatre studies needs to better describe the artfulness of contemporary text-based theatre, bringing to it the same sophisticated lenses scholars and critics have used for performance-based theatre and other experimental theatre practices. This Element does that by presenting the work of Caryl Churchill, Naomi Iizuka, and Sarah Ruhl as exemplary of the way text-based theatre, both its scripts and productions, now creates and expects a spatialized imaginary and demonstrates the potentials of text-based theatre in an increasingly visual and spatial field of cultural production.

acting script starcatcher: Actors Who Refused Ethan Parker, AI, 2025-02-24 *Actors Who Refused* explores the fascinating world of film casting decisions and the significant impact of actors rejecting iconic roles. Delving behind the scenes of American and British cinema, the book examines the complex reasons behind these rejections, which often extend beyond simple ego clashes to include scheduling conflicts, script concerns, or differing artistic visions. It highlights how these no decisions create ripple effects, opening doors for other actors and potentially reshaping entire film projects. The book argues that rejected roles offer a unique lens through which to understand the collaborative and subjective nature of filmmaking. For example, Sean Connery's refusal to play Gandalf in *The Lord of the Rings* illustrates how skepticism about a script can lead to a major casting change. Similarly, Michelle Pfeiffer turning down Clarice Starling in *The Silence of the Lambs* may have changed the thriller film genre. By analyzing these casting decisions, the book moves past industry gossip to provide a researched, analytical examination of the creative and institutional forces at play. Beginning with a theoretical framework for understanding rejection in Hollywood, *Actors Who Refused* progresses through case studies of specific roles that were famously turned down. Each chapter dissects the circumstances surrounding a significant casting rejection,

providing insight into the actor's rationale, the director's response, and how the film ultimately evolved. The book concludes by examining the broader implications of these casting choices, considering how these what if scenarios might have altered careers and film trajectories.

acting script starcatcher: Temporary Stages III Jo Beth Gonzalez, 2025-09-01 Theatre activities ask adolescents to empathize with those who are different from themselves. Recognizing divergence invites self-reflection and kindles compassion. These actions tap students' inner cores while at the same time deepening their understanding of privilege, a key component of critical consciousness. Through the lens of critical pedagogy and feminist theory, this book explores the mutually reinforcing development of spirituality and emerging critical consciousness fostered by high school theatre experience. By examining her own public high school theatre program through description, analysis and interpretation, Gonzalez explores why and how theatre work can simultaneously fortify teens' spiritual growth while activating dawning awareness of the socio-political dynamics in their own lives and the world around them. The book includes the original one-act play *Free to Fly*, which introduces young people to the dangers of sex trafficking of minors. *Temporary Stages III* will appeal especially to secondary theatre teachers, theatre education pre-service teachers, and graduate students studying theatre pedagogy and critical cultural theory.

acting script starcatcher: Dance in Musical Theatre Phoebe Rumsey, Dustyn Martincich, 2023-12-14 From *Oklahoma!* and *West Side Story*, to *Spring Awakening* and *Hamilton*, dance remains one of the most important and key factors in musical theatre. Through the integration of song and dance in the 'dream ballets' of choreographers like Agnes De Mille; the triple threat performances of Jerome Robbins' dancers; the signature style creation by choreographers like Bob Fosse with dancers like Gwen Verdon; and the contemporary, identity-driven work of choreographers like Camille A. Brown, the history of the body in movement is one that begs study and appreciation. *Dance in Musical Theatre* offers guidelines in how to read this movement by analyzing it in terms of composition and movement vocabulary whilst simultaneously situating it both historically and critically. This collection provides the tools, terms, history, and movement theory for reading, interpreting, and centralizing a discussion of dance in musical theatre, importantly, with added emphasis on women and artists of color. Bringing together musical theatre and dance scholars, choreographers and practitioners, this edited collection highlights musical theatre case studies that employ dance in a dramaturgically essential manner, tracking the emergence of the dancer as a key figure in the genre, and connecting the contributions to past and present choreographers. This collection foregrounds the work of the ensemble, incorporating firsthand and autoethnographic accounts that intersect with historical and cultural contexts. Through a selection of essays, this volume conceptualizes the function of dance in musical: how it functions diegetically as a part of the story or non-diegetically as an amplification of emotion, as well as how the dancing body works to reveal character psychology by expressing an unspoken aspect of the libretto, embodying emotions or ideas through metaphor or abstraction. *Dance in Musical*

Theatre makes dance language accessible for instructors, students, and musical theatre enthusiasts, providing the tools to critically engage with the work of important choreographers and dancers from the beginning of the 20th century to today.

acting script starcatcher: The Theatre of Les Waters Scott T. Cummings, 2022-04-28 The Theatre of Les Waters: More Like the Weather combines original writings from Les Waters with short essays by a wide range of his collaborators, creating a personal and multi-faceted portrait of an influential director, revered mentor, and inspirational theatre artist. The book begins with a critical introduction of Waters's work, followed by essays written by a wide range of Waters's collaborators over the past four decades. These essays are framed by shorter pieces of writing by Waters himself: reflections, inspirations, observations, and personal anecdotes. At the heart of this book lies the notion that the director's central position in theatrical production is defined by collaboration and that a study of directing should take into account how a director works with playwrights, designers, actors, stage managers, and dramaturgs to turn artistic vision into concrete reality on stage. An insightful resource for early career or student directors in theatre programs, The Theatre of Les Waters sheds light on the art of theatre directing by exploring the work of a major theatre artist whose accomplished career sits at the heart of American theatre in the 21st century. Drawing on aspects of memoir, case study, interview, miscellany, biography, and criticism, this is also an enlightening read for anyone with an interest in how theatre artists bring their creative vision to life.
