alice walker awards: *Contemporary American Women Writers* Catherine Rainwater, William J. Scheick, 2021-05-11 Ann Beattie, Annie Dillard, Maxine Hong Kingston, Toni Morrison, Cynthia Ozick, Grace Paley, Marge Piercy, Anne Redmon, Anne Tyler, and Alice Walker all seem to be especially concerned with narrative management. The ten essays in this book raise new and intriguing questions about the ways these leading women writers appropriate and transform generic norms and ultimately revise literary tradition to make it more inclusive of female experience, vision, and expression. The contributors to this volume discover diverse narrative strategies. Beattie, Dillard, Paley, and Redmon in divergent ways rely heavily upon narrative gaps, surfaces, and silences, often suggesting depths which are lamentably absent from modern experience or which mysteriously elude language. For Kingston and Walker, verbal assertiveness is the focus of narratives depicting the gradual empowerment of female protagonists who learn to speak themselves into existence. Ozick and Tyler disrupt conventional reader expectations of the anti-novel and the family novel, respectively. Finally, Morrison's and Piercy's works reveal how traditional narrative forms such as the Bildungsroman and the soap opera are adaptable to feminist purposes. In examining the writings of these ten important women authors, this book illuminates a significant moment in literary history when women's voices are profoundly reshaping American literary tradition.

alice walker awards: Inviting Understanding Sonja K. Foss, Cindy L. Griffin, 2020-08-20 *Inviting Understanding: A Portrait of Invitational Rhetoric* is an authoritative reference work designed to provide a comprehensive overview of the theory of invitational rhetoric, developed twenty-five years ago by Sonja K. Foss and Cindy L. Griffin. This theory challenges the conventional conception of rhetoric as persuasion and defines rhetoric as an invitation to understanding as a means to create a relationship rooted in equality, immanent value, and self-determination. Rather than celebrating argumentation, division, and winning, invitational rhetoric encourages rhetors to listen across differences, to engage in dialogue, and to try to understand positions different from their own. Organized into the three categories of foundations, extensions, and applications, *Inviting Understanding* is a compilation of published articles and new essays that explore and expand the theory. The book provides readers with access to a wide range of resources about this revolutionary

theory in areas such as community organizing, social justice activism, social media, film, graffiti, institutional and team decision-making, communication and composition pedagogy, and interview protocols.

alice walker awards: Inviting Transformation Sonja K. Foss, Karen A. Foss, 2019-01-03 The fourth edition of *Inviting Transformation* continues to offer an innovative approach to presentational speaking at a very reasonable price. The authors introduce readers to invitational rhetoric, teaching speakers to clarify ideas and to work to achieve understanding for all participants in an interaction. A primary goal of presentational speaking is to create an environment in which growth and change can occur for both the audience and the speaker. The text highlights four external conditions affecting transformational environments: safety, openness, freedom, and value (honoring the intrinsic worth of all individuals). To reflect respect for the diversity of the world, Sonja Foss and Karen Foss include options from many speaking traditions and practices to foster creativity. Discussions of all the processes of presenting— selecting a speaking goal, organizing ideas, elaborating on ideas, and delivering the presentation—emphasize inclusive speaking practices. Sample presentations provide clear and contemporary examples of the best invitational speaking practices. The authors recognize readers as competent communicators and encourage them to think about and systematize their approaches to presentational speaking. The exceptionally accessible

writing style is an aid to readers in thinking through strategies for meeting their interactional goals. Readers learn to design and deliver effective presentations for any speaking situation.
