alif baa answer key: Arabic as One Language Mahmoud Al-Batal, 2017-12-04 For decades, students learning the Arabic language have begun with Modern Standard Arabic (MSA) and then transitioned to learning spoken Arabic. While the MSA-first approach neither reflects the sociolinguistic reality of the language nor gives students the communicative skills required to fully function in Arabic, the field continues to debate the widespread adoption of this approach. Little research or evidence has been presented about the effectiveness of integrating dialect in the curriculum. With the recent publication of textbooks that integrate dialect in the Arabic curriculum, however, a more systematic analysis of such integration is clearly becoming necessary. In this seminal volume, Mahmoud Al-Batal gathers key scholars who have implemented integration to present data and research on the method's success. The studies address curricular models, students' outcomes, and attitudes of students and teachers using integration in their curricula. This volume is an essential resource for all teachers of Arabic language and those working in Teaching Arabic as a Foreign Language (TAFL).

alif baa answer key: Rain over Baghdad Hala El Badry, 2014-03-01 What was it like to live in Iraq before the earth-shaking events of the end of the twentieth century? The mid seventies to the late eighties witnessed Saddam Hussein's rise to power, the establishment of Kurdish autonomy in the north, and the Iraq-Iran war. It also brought an influx of oil wealth, following the 1973 war and the spike in oil prices, and a parallel influx of Arab talent, including many Egyptians, as the Egyptian left became disenchanted with Sadat. The massive migration also extended to workers and peasants, some of whom created an entire Egyptian village just outside Baghdad. We witness all of this and more through the eyes of an Egyptian woman married to an engineer working in Iraq. The narrator, who works for an Egyptian magazine's bureau in the Iraqi capital, has a behind-the-scenes view of what was really happening at a critical juncture in the history of the region. Moreover, she has a mystery to solve: an Iraqi woman from the marshes in the south of Iraq, who is also a communist journalist, has disappeared, and as the mystery unfolds we learn of her love for an older Egyptian Marxist journalist. This is Iraq before and beyond Saddam, Iraq as the Arabs knew it, in the lives of interesting people living in a vibrant country before the attempted annexation of Kuwait and the American invasion. This is the Iraq that was
