academic love fiction download: *Oral History, Education, and Justice* Kristina R. Llewellyn, Nicholas Ng-A-Fook, 2019-10-09 This book addresses oral history as a form of education for redress and reconciliation. It provides scholarship that troubles both the possibilities and limitations of oral history in relation to the pedagogical and curricular redress of historical harms. Contributing authors compel the reader to question what oral history calls them to do, as citizens, activists, teachers, or historians, in moving towards just relations. Highlighting the link between justice and public education through oral history, chapters explore how oral histories question pedagogical and curricular harms, and how they shed light on what is excluded or made invisible in public education. The authors speak to oral history as a hopeful and important pedagogy for addressing difficult knowledge, exploring significant questions such as: how do community-based oral history projects affect historical memory of the public? What do we learn from oral history in government systems of justice versus in the political struggles of non-governmental organizations? What is the burden of collective remembering and how does oral history implicate people in the past? How are oral histories about difficult knowledge represented in curriculum, from digital storytelling and literature to environmental and treaty education? This book presents oral history as a form of education that can facilitate redress and reconciliation in the face of challenges, and bring about an awareness of historical knowledge to support action that addresses legacies of harm. Furthering the field on oral history and education, this work will appeal to academics, researchers and postgraduate students in the fields of social justice education, oral history, Indigenous education, curriculum studies, history of education, and social studies education.

academic love fiction download: *Living the Stories We Create* Ellen McCabe, 2018-08-14 This work explores the potential of digital media to rectify the disparity between formal learning contexts and contemporary perceptions and expectations of narrative. How can education systems

respond to the changing technological landscape, thus preparing students to become active participants in society as well as to realise the extent of their own potential? This book explores such concepts in the classroom environment through direct engagement with students and teachers with the case of Shakespeare's Macbeth. Written in approximately 1606, Macbeth has its roots in a culture of orality and yet has sustained through centuries of print dominance. Indeed, as both text and performance the work itself embodies both the literary and the oral. Yet as a staple of many second level curricula increasingly Macbeth is perceived as an educational text. Macbeth reflects its cultural moment, an age of ambiguity where much like today notions of selfhood, privacy, societal structures, media and economy were being called into question. Thus Macbeth can be understood as a microcosm of the challenges existing in contemporary education in both content and form. This book examines Macbeth as a case-study in seeking to explore the implications of digital media for learning, as well as its possible potential to constructively facilitate in realigning formal learning contexts to contemporary experiences of narrative.

academic love fiction download: Critical Race English Education Lamar L. Johnson, 2021-11-29 Johnson's visionary and much-needed book is a call for the transformation of English education to embrace rather than reject Blackness. Confronting the context of heightened racial violence against Black youth that continues to sweep across the United States, Johnson illuminates the interconnection between the physical and symbolic violence that unfolds in and outside the classroom and demonstrates the harm this causes to Black youth. Employing an original framework, Critical Race English Education, Johnson reveals how English education and ELA classrooms are dominated by eurocentric language and literacy practices, and provides a justice-oriented framework that combats anti-Black racism. Throughout the book, Johnson disperses love letters to Blackness, Black culture, and Black people, which serve as actions and practices for positive thinking and self-awareness about Blackness. Critical Race English Education is a movement for Black lives. A crucial resource for pre-service ELA teachers, researchers, professors, and graduate students in language and literacy education, and sociology of education, this book offers classroom lessons, thematic units, sample activities, and other pedagogical and curricula practices that reconceptualize ELA pedagogies in humanizing ways and cater to the needs of students who come from racially and linguistically diverse backgrounds.

academic love fiction download: [The End of Cool Japan](#) Mark McLelland, 2016-07-22 Today's convergent media environment offers unprecedented opportunities for sourcing and disseminating previously obscure popular culture material from Japan. However, this presents concerns regarding copyright, ratings and exposure to potentially illegal content which are serious problems for those teaching and researching about Japan. Despite young people's enthusiasm for Japanese popular culture, these concerns spark debate about whether it can be judged harmful for youth audiences and could therefore herald the end of 'cool Japan'. This collection brings together Japan specialists in order to identify key challenges in using Japanese popular culture materials in research and teaching. It addresses issues such as the availability of unofficially translated and distributed Japanese material; the emphasis on adult-themes, violence, sexual scenes and under-age characters; and the discrepancies in legislation and ratings systems across the world. Considering how these issues affect researchers, teachers, students and fans in the US, Canada, Australia, China, Japan and elsewhere in Asia, the contributors discuss the different ways in which academic and fan practices are challenged by local regulations. Illustrating from personal experience the sometimes fraught nature of teaching about 'cool Japan', they suggest ways in which Japanese Studies as a discipline needs to develop clearer guidelines for teaching and research, especially for new scholars entering the field. As the first collection to identify some of the real problems faced by teachers and researchers of Japanese popular culture as well as the students over whom they have a duty of care, this book will be of great interest to students and scholars of Japanese Studies and Cultural Studies.
