Overview of "A Problem from Hell"

"A Problem from Hell: America and the Age of Genocide" is a Pulitzer Prize-winning book authored by Samantha Power. The book investigates the United States' response to various genocides in the twentieth century, focusing on why the world's most powerful nation often failed to act in the face of mass atrocities. The work is recognized for its thorough research, compelling narrative, and its influence on public policy debates regarding humanitarian intervention. Understanding why "A Problem from Hell" remains relevant is essential for anyone interested in international relations, human rights, or modern history.

Author Background and Book Summary

About Samantha Power

Samantha Power is an Irish-American academic, diplomat, and author, renowned for her expertise in

foreign policy and human rights. Before writing "A Problem from Hell," she served as a war correspondent, which gave her a firsthand view of international conflicts. Power later became the U.S. Ambassador to the United Nations and a national security advisor. Her experience and scholarly rigor are evident throughout the book.

Summary of "A Problem from Hell"

"A Problem from Hell" meticulously examines genocides in Armenia, the Holocaust, Cambodia, Iraq, Bosnia, and Rwanda. The book scrutinizes the political, moral, and bureaucratic barriers that prevented effective American intervention. Samantha Power explores key figures and activists who tried to push for action, while also analyzing the reluctance of policymakers to label atrocities as "genocide." The book ultimately provides a sobering account of missed opportunities and the consequences of inaction.

Key Themes Explored in the Book

The Definition and Recognition of Genocide

A central theme is the struggle to define and recognize genocide. Samantha Power details how the term "genocide" was coined by Raphael Lemkin and explores its implications in international law. The book highlights the challenges governments face in acknowledging acts of genocide, often due to political interests or fear of military entanglement.

American Foreign Policy and Moral Responsibility

Another key theme is the tension between national interests and moral responsibility. "A Problem from Hell" questions why the United States, despite its stated commitment to human rights, repeatedly failed to intervene in genocidal situations. Power presents case studies illustrating how bureaucratic inertia, public apathy, and political calculations influenced American responses.

Activism and Advocacy

The role of activists, journalists, and NGOs is explored throughout the book. Power profiles individuals who raised awareness, pressured governments, and documented evidence of atrocities. This theme underscores the importance of advocacy in shaping policy and public opinion.

- Key case studies: Armenia, Holocaust, Cambodia, Iraq, Bosnia, Rwanda

- The interplay between politics and humanitarian action
- The power of individual action in confronting atrocities

The Demand for "A Problem from Hell" PDF

The search for "A Problem from Hell PDF" has grown in recent years due to the book's inclusion in academic curricula, its relevance to current international events, and the convenience of digital formats. Students, educators, and researchers often prefer PDF versions for ease of access and portability. Additionally, readers from regions with limited access to physical books look for digital copies as a practical solution.

a problem from hell pdf: *Srebrenica* Matthias Fink, 2015-07-20 Der Name Srebrenica steht für das schwerste Kriegsverbrechen in Europa seit Ende des Zweiten Weltkriegs: mehr als 8.000 ermordete bosnisch muslimische Männer und Jugendliche; über 25.000 Vertriebene, vor allem Frauen, Kinder und alte Menschen. Aber auch dafür, dass eine noch immer unbekannte Anzahl von Offizieren, Unteroffizieren und Soldaten aus der Armee der bosnischen Serben im Juli 1995 zu Kriegsverbrechern wurde. Der Internationale Strafgerichtshof für das ehemalige Jugoslawien stufte das Verbrechen in Srebrenica als Völkermord ein - noch heute wird gegen mutmaßliche Verantwortliche und ihre Untergebenen verhandelt. Am 11. Juli 1995 hatte die Armee der bosnischen Serben die ostbosnische Bezirksstadt Srebrenica, Zentrum einer Sicherheitszone der Vereinten Nationen erobert. Armeebefehlshaber General Ratko Mladić erklärte vor laufender Kamera, er überreiche die Stadt dem serbischen Volk als Geschenk. Die Blauhelmsoldaten der Vereinten Nationen vor Ort sahen den Vorgängen hilflos zu. Anhand von Beweisdokumenten und Zeugenaussagen des Internationalen Strafgerichtshofs erzählt Matthias Fink die Vorgeschichte und

den Ablauf des Dramas von Srebrenica. Seine Darstellung zeigt, warum die ethnische Säuberung des Bezirks Srebrenica am Ende in den Völkermord geführt hat und warum die bosnische Regierung und ihre Armee sowie die Weltgemeinschaft und ihre Schutztruppe diesem Geschehen tatenlos zusahen. Es gelingt dem Autor, das gesellschaftliche Konstrukt hinter dem Konflikt aufzudecken. Eindrücklich werden Aussagen der Überlebenden, aber auch der Täter und der Zuschauer dargestellt, sodass die Gewalteskalation wie auch die Erfahrungswelten der Beteiligten bestechend, erschreckend und auch berührend anschaulich werden.

a problem from hell pdf: Die Überwindung der Gewalt Thorsten Gromes, Bernhard Moltmann, Bruno Schoch, 2015-11-30 Seit dem Zweiten Weltkrieg dominieren Bürgerkriege das weltweite Kriegsgeschehen. Nach 1989 versuchte man vielerorts, innerstaatliche Gewaltkonflikte durch Demokratisierung zu befrieden. Doch das Scheitern in Afghanistan und im Irak stärkte Vorbehalte gegen Interventionen und von außen initiierte Demokratisierung. Beides gilt vielen als mission impossible und Selbsttäuschung des Westens. Die Autoren dieses Bandes zeigen: So allgemein ist dieses Verdikt falsch. Unter bestimmten Umständen ist Demokratisierung von außen durchaus imstande, einen Rückfall in den Bürgerkrieg zu verhindern. Sie analysieren deshalb an den Beispielen Bosnien und Herzegowina, Kosovo und Nordirland die spezifischen Bedingungen, unter denen das Vorhaben gelingen kann. Demokratisierungspolitik wird mangels besserer Optionen auf der Tagesordnung der internationalen Politik bleiben. Verschaffen Sie sich hier einen Überblick.

a problem from hell pdf: Global Violence Eric A Heinze, 2016-01-08 What does it mean to say that a particular war is just or unjust, that terrorism is always wrong, or that torture can sometimes be morally justified? What are the moral bases for the possession or use of nuclear weapons, intervening in other countries' civil wars, or being a bystander to genocide? Such questions take us to the heart of what is morally right and wrong behaviour in our world. Global Violence: Ethical and Political Issues provides readers with the analytical tools to better understand the suppositions that underlie the debates about such questions, as well as advances its own reasoned and informed ethical analyses of these topics. The book engages different normative approaches from the fields of ethics, political theory, and international relations and uses them to examine a set of case studies on the subjects of inter-state and civil war, nuclear weapons, terrorism, torture and genocide.

a problem from hell pdf: Strategischer Wandel und zivil-militärischer Konflikt Gerlinde Groitl, 2014-10-01 Gerlinde Groitl untersucht die Ursachen für die zivil-militärischen Konflikte bei der Formulierung und Implementierung der US-Sicherheitspolitik, die in den letzten 20 Jahren bei allen Militäreinsätzen zwischen der Politik und den ranghöchsten Generälen und Admirälen zu beobachten waren. Sie zeigt, dass die neue Konfliktträchtigkeit als eine Begleiterscheinung von strategischem Wandel zu interpretieren ist. Die USA betrieben als einzig verbliebene Supermacht Ordnungspolitik und verlangten ihren Streitkräften mit den Einsätzen in Somalia, auf Haiti, in Bosnien, im Kosovo sowie den Kriegen in Afghanistan und im Irak immer wieder Anpassungen an neue Missionen ab. Dabei entstand – auch wegen der gemischten Erfolgsbilanz – kein stabiler zivil-militärischer Konsens darüber, wozu militärische Macht dient und wie sie richtig eingesetzt wird. Die Geschichte der amerikanischen zivil-militärischen Beziehungen nach dem Kalten Krieg ist damit eine von politischer und militärischer Innovation in einem sich verändernden sicherheitspolitischen Umfeld.

a problem from hell pdf: Handbuch Transitional Justice Anja Mihr, Gert Pickel, Susanne Pickel, 2017-09-14 Dieses Handbuch ist eine systematische und methodische Einführung in das Thema Transitional Justice, das bislang vor allem durch Länderstudien zur strafrechtlichen Aufarbeitung, Entschuldigungen, Kompensationen, Erinnerungsarbeiten oder Wahrheitskommissionen wie etwa zu Südafrika, Ruanda, Chile oder dem ehemaligen Jugoslawien, bekannt geworden ist. Die Beiträge zeigen best-practice ebenso auf wie die zahlreichen Maßnahmen, die inzwischen unter dem Konzept Transitional Justice in der Politik zur Anwendung

gekommen sind und ein eigenes Forschungsfeld für die Wissenschaft darstellen. Dabei stehen weniger die Fallstudien im Mittelpunkt, sondern die methodische Ausrichtung zur Analyse und Bewertung der Transitional Justice-Prozesse. Materialreiche Fall- oder Areastudien bearbeiten den Umgang mit Unrechtsregimen; gezielte empirische Befunde werden für die verschiedenen Gebiete der Welt zur Illustration der Prozesse hinzugezogen. Der Band thematisiert vorrangig die Politikfelder Friedens- und Konfliktforschung, Demokratisierung und Demokratievergleich, Internationale Beziehungen und Zeitgeschichte.

a problem from hell pdf: Humanitarian Intervention Thomas G. Weiss, 2016-05-17 A singular development in the post-Cold War era is the use of military force to protect human beings. From Rwanda to Kosovo, Sierra Leone to East Timor, and Libya to Côte d'Ivoire, soldiers have rescued civilians in some of the world's most notorious war zones. But what about Syria? Why have we observed the Syrian slaughter and done nothing? Is humanitarian intervention in crisis? Is the so-called responsibility to protect dead or alive? In this fully revised and expanded third edition of his highly accessible and popular text, Thomas Weiss explores these compelling questions. Drawing on a wide range of case studies and providing a persuasive overview of the theory and practice of humanitarian intervention in the modern world, he examines its political, ethical, legal, strategic, economic, and operational dimensions to highlight key debates and controversies. Neither celebratory nor complacent, his analysis is an engaging exploration of the current quandaries and future challenges for robust international humanitarian action in the twenty-first century.

a problem from hell pdf: Militärische Missionen Hubert Zimmermann, 2023-08-21 Militärische Eingriffe in fremden Territorien gehören zu den großen Triebkräften der Weltgeschichte. Gewöhnlich lagen ihre Ursachen in der Gier nach Macht, Land oder Reichtümern begründet. Seit dem 19. Jahrhundert hat sich ein neuer Typus etabliert: militärische Interventionen, die nicht mehr vornehmlich auf Vergeltung, Eroberung oder Machtgewinn abzielen, sondern auf die Herstellung kollektiver und individueller Sicherheit durch die Stabilisierung fremder Territorien. Hubert Zimmermann zeichnet, basierend auf umfangreichen Fallstudien zu den USA, Deutschland und Frankreich, die spannende Geschichte militärischer Interventionen und ihrer Rechtfertigungen im internationalen Vergleich bis in die Gegenwart nach. Wie wandelten sich im Laufe der Geschichte die Motive und Begründungen? Welche Konflikte und Widersprüche tauchten immer wieder auf? Ganz wesentlich geht es bei der Rechtfertigung von Auslandseinsätzen um die eigene Identität im Verhältnis zu anderen Gesellschaften. In diesem Sinne ist dieses Buch auch eine Reflexion über die seit jeher umstrittenen Vorstellungen von Rechtmäßigkeit und Verhältnismäßigkeit im Umgang der Staaten untereinander.

a problem from hell pdf: Jahrbuch Öffentliche Sicherheit - 2010/2011 Martin H. W. Möllers, Robert Chr. van Ooyen, 2023-02-20 Sicherheit hat Konjunktur und lässt sich inzwischen kaum noch überblicken. Dabei tritt zugleich ihre Komplexität immer deutlicher hervor: die klassischen Bereiche der inneren und äußeren Sicherheit gehen mit vielfältigen Wechselwirkungen ineinander über, neue Faktoren erodieren das tradierte Verständnis und Instrumentarium — und das nicht erst seit dem 11. September. Das JBÖS versucht, dieser neuen Unübersichtlichkeit einer erweiterten Sicherheit Herr zu werden: durch die Beschreibung der aktuellen sicherheitsrelevanten Entwicklungen, deren begrifflich-theoretische Durchdringung und kritische Reflexion sowie durch den interdisziplinären Blickwinkel von Politik- und Rechtswissenschaften, Soziologie, Geschichte und Philosophie.

a problem from hell pdf: Genocide Adam Jones, 2006-09-27 An invaluable introduction to the subject of genocide, explaining its history from pre-modern times to the present day, with a wide variety of case studies. Recent events in the former Yugoslavia, Rwanda, East Timor and Iraq have demonstrated with appalling clarity that the threat of genocide is still a major issue within world politics. The book examines the differing interpretations of genocide from psychology, sociology, anthropology and political science and analyzes the influence of race, ethnicity, nationalism and gender on genocides. In the final section, the author examines how we punish those responsible for waging genocide and how the international community can prevent further bloodshed.

a problem from hell pdf: The Genocide Convention H. G. Van Der Wilt, Harmen van der Wilt, Jeroen Vervliet, 2012-05-16 Genocide is acknowledged as 'the crime of crimes'. This book is the product of an encounter between scholars of historical and legal disciplines which have joined forces to address the question of whether the legal concept of genocide still corresponds with the historical and social perception of the phenomenon.

a problem from hell pdf: Values, World Society and Modelling Yearbook 2015 Gordon Burt, 2017-05-11 The Values, World Society and Modelling Yearbook 2015, like the 2014 Yearbook, analyses contemporary world events with special attention to values, drawing on foundational ideas in a variety of academic disciplines. World society in 2015 exhibited economic, political and cultural tensions: growth and austerity; the Greek bailout referendum; the Paris attacks on the Charlie Hebdo cartoonists; the Christian south and Muslim north in the Nigerian elections; and religion and secularism in Ireland's referendum on same-sex marriage. Demographics, austerity, migration and nationalism were all issues in the UK general election. There were debates about immigration into Europe and debates about Western military intervention. There were debates about the Enlightenment surrounding the bicentenary of the Battle of Waterloo. The year 2015 was the seventieth anniversary of the establishment of the United Nations, and the centenary of the birth of one of those who attended the San Francisco conference in 1945, namely John Burton, founder of the Conflict Research Society. Chapter Two of the Yearbook is "The John Burton Memorial Lecture 2015", by Kevin Clements. Other guest contributors are Feargal Cochrane, Hugh Miall, Dennis Sandole and Rania Dimitraki. The modelling aspect of the Yearbook is strongly structured around the notions of space, time and value. Six of the chapters are about space – physical space, geographical space, psychological space, social space, political space and value space. Four of the chapters are about time: time series for human development and population; revisiting the Pinker debate about a decline in violence; physical and structural violence; the 1945–2015 UK decline in two-party and three-party politics; the flight from the centre and the rise of UKIP and Jeremy Corbyn. The chapter "Life is a Journey" discusses values in a qualitative way, then models of values are developed for particular topics and finally a systematic account is given of value spaces.

a problem from hell pdf: The Refugee Challenge in Post-cold War America María Cristina García, 2017 The Refugee Challenge in Post-Cold War America examines the geopolitical and domestic interests that have shaped US refugee and asylum policy since 1989. In the post-Cold War era, policymakers consider a wider range of populations as potentially eligible for refuge: victims of civil unrest, trafficking, and gender and sexuality-based discrimination.

a problem from hell pdf: Discipleship and the Evangelical Church Jesse Hamilton, 2022-03-11 The Evangelical Protestant church is in the midst of a crisis--but the causes might be different than we think. In this book, Jesse Hamilton argues that the reason for the church's growing disunity, moral and cultural confusion, and general lack of passion and power is its perpetual neglect of the fundamentals of discipleship--what it truly means to follow Jesus. Our only hope for change is to recalibrate our hearts and lives on the call of Christ and the New Testament distinctives of absolute surrender, deep and abiding holiness, the work of prayer, and engagement with the lost and needy of the world--all the things that the modern church has so often struggled to commit to. But first, the church must come to a biblical understanding of what these things actually are and how we must pursue them. Combining theological rigor with clarity of thought and simplicity of style, Discipleship and the Evangelical Church aims to reach modern Christians with the urgent message of the hour, which is nothing other than the timeless call of Christ to follow him.

a problem from hell pdf: How Cities Will Save the World Ray Brescia, John Travis Marshall, 2016-06-03 Cities are frequently viewed as passive participants to state and national efforts to solve the toughest urban problems. But the evidence suggests otherwise. Cities are actively devising innovative policy solutions and they have the potential to do even more. In this volume, the authors examine current threats to communities across the U.S. and the globe. They draw on first-hand experience with, and accounts of, the crises already precipitated by climate change, population

shifts, and economic inequality. This volume is distinguished, however, by its central objective of traveling beyond a description of problems and a discussion of their serious implications. Each of the thirteen chapters frame specific recommendations and guidance on the range of core capacities and interventions that 21st Century cities would be prudent to consider in mapping their immediate and future responses to these critical problems. *How Cities Will Save the World* brings together authors with frontline experience in the fields of city redevelopment, urban infrastructure, healthcare, planning, immigration, historic preservation, and local government administration. They not only offer their ground level view of threats caused by climate change, population shifts, and economic inequality, but they provide solution-driven narratives identifying promising innovations to help cities tackle this century's greatest adversities.

a problem from hell pdf: *Law Among Nations* James Larry Taulbee, Gerhard von Glahn, 2022-05-30 Offering a more accessible alternative to casebooks and historical commentaries, *Law Among Nations* explains issues of international law by tracing the field's development and stressing key principles, processes, and landmark cases. This comprehensive text eliminates the need for multiple books by combining discussions of theory and state practice with excerpts from landmark cases. The book has been updated in light of the continuing revolution in communication technology; the dense web of linkages between countries that involve individuals and bodies both formal and informal; and important and controversial areas such as human rights, the environment, and issues associated with the use of force. Renowned for its rigorous approach and clear explanations, *Law Among Nations* remains the gold standard for undergraduate introductions to international law. New to the Twelfth Edition Added or expanded coverage of timely issues in international law: Drones and their use in the air and in space Outer space Cybercrime and responses The Julian Assange Case Environmental law Expanded discussion of space law Expanded discussion of conflict and non-state actors Final cases in the ICTY Thoroughly rewritten chapters on areas of great change: International Criminal Law Just War and War Crime Law International Economic Law (newly restored in response to reviews) International Environmental Law New cases, statutes, and treaties on many subjects

a problem from hell pdf: *Genocide, Mass Atrocity, and War Crimes in Modern History* James Larry Taulbee, 2017-02-06 Defining genocide as an international crime, this two-volume set provides a comparative study of historical cases of genocide and mass atrocity—clearly identifying the factors that produced the attitudes and behaviors that led to them—discusses the reasons for rules in war, and examines how the five principles laid out in the Geneva Conventions and other international agreements have functioned in modern warfare. Written by an expert on international politics and law, *Genocide, Mass Atrocity, and War Crimes in Modern History: Blood and Conscience* is an easy-to-understand resource that explains why genocides and other atrocities occur, why humanity saw the need to create rules that apply during war, and how culture, rules about war, and the nature of war intersect. The first volume addresses the history and development of the normative regime(s) that define genocide and mass atrocity. Through a comparative study of historical cases that pay particular attention to the factors involved in producing the attitudes and behaviors that led to the incidents of mass slaughter and mistreatment, the author identifies the reasons that genocides and mass atrocities in the 20th century were largely ignored until the early 1990s and why even starting then, responses were inconsistent. The second book discusses why rules in war exist, which factors may lead to the adoption of rules, what defines a war crime, and how the five fundamental principles laid out in the Geneva Conventions and other international agreements have actually functioned in modern warfare. It also poses—and answers—the interesting question of why we should obey rules when our opponents do not. The final chapter examines what actions could serve to identify future situations in which mass atrocities may occur and identifies the problems of timely humanitarian intervention in international affairs.

a problem from hell pdf: *Beyond Preemption* Ivo H. Daalder, 2008-04-01 America's three most recent wars—in Kosovo, Afghanistan, and Iraq—have raised profound questions about when to use military force, for what purpose, and who should make the decision whether to go to war. These crucial questions have been debated around the world with increasing intensity, and by beginning to provide important answers, *Beyond Preemption* moves the debate forward in significant ways. During the past three years, the contributors to this volume have engaged in a global dialogue with political officials, military figures and strategists, and international lawyers from around the world on when and how to use force and in what way its use can best be legitimized. They found consensus that the world has changed so dramatically that much of the old way of thinking about when and how to go to use force to deal with new challenges has become largely obsolete. Drawing on these high-level discussions, Ivo Daalder and his colleagues make specific proposals for how to forge a new international consensus on the vexing questions about the use of force, including its preemptive use, to address today's interrelated threats of terrorism, weapons of mass destruction, and humanitarian crises. In *Beyond Preemption*, the authors also consider the critical matter of how these strategies could be best legitimized and be made palatable to domestic audiences and the international community at large. Contributors include Bruce W. Jentleson (Duke University), Anne E. Kramer (Brookings Institution), Susan E. Rice (Brookings Institution), James B. Steinberg (Lyndon B. Johnson School of Public Affairs, University of Texas at Austin).
