1920s writers ebook: *English Writing and India, 1600-1920* Pramod K. Nayar, 2008-03-25 This book explores the formations and configurations of British colonial discourse on India through a reading of prose narratives of the 1600-1920 period. Arguing that colonial discourse often relied on aesthetic devices in order to describe and assert a degree of narrative control over Indian landscape, Pramod Nayar demonstrates how aesthetics furnished a vocabulary and representational modes for the British to construct particular images of India. Looking specifically at the aesthetic modes of the marvellous, the monstrous, the sublime, the picturesque and the luxuriant, Nayar marks the shift in the rhetoric - from the exploration narratives from the age of mercantile exploration to that of the 'shikar' memoirs of the late nineteenth and early twentieth century's extreme exotic. *English Writing and India* provides an important new study of colonial aesthetics, even as it extends current scholarship on the modes of early British representations of new lands and cultures.

1920s writers ebook: Caribbean Literature in Transition, 1800-1920: Volume 1 Evelyn O'Callaghan, Tim Watson, 2021-01-14 This volume examines what Caribbean literature looked like before 1920 by surveying the print culture of the period. The emphasis is on narrative, including an enormous range of genres, in varying venues, and in multiple languages of the Caribbean. Essays examine lesser-known authors and writing previously marginalized as nonliterary: popular writing in newspapers and pamphlets; fiction and poetry such as romances, sentimental novels, and ballads; non-elite memoirs and letters, such as the narratives of the enslaved or the working classes, especially women. Many contributions are comparative, multilingual, and regional. Some infer the cultural presence of subaltern groups within the texts of the dominant classes. Almost all of the chapters move easily between time periods, linking texts, writers, and literary movements in ways that expand traditional notions of literary influence and canon formation. Using literary, cultural, and historical analyses, this book provides a complete re-examination of early Caribbean literature.

1920s writers ebook: Writing the Digital History of Nazi Germany Julia Timpe, Frederike Buda, 2022-02-07 How do scholarship and practices of remembrance regarding Nazi Germany benefit from digital tools and approaches? They discuss the digital initiatives of various archives and source databases, highlight findings of research undertaken with digital tools, and examine how such tools can be used to present history in education, exhibitions and memorials. All contributions focus on recent or, in some cases, ongoing digital projects related to the history of National Socialism, World War II, and the Holocaust.

This book tracks the period's new social phenomena and unfolds its distinctively modern modes of writing. It provides expert introductions amid new insights into women's writing throughout the United Kingdom and around the globe.

1920s writers ebook: Literature of the 1920s: Writers Among the Ruins Chris Baldick, 2012-10-03 Surveys a war-haunted, self-consciously disoriented but exceptionally vibrant decade of writing The 1920s emerge in this study as a period with its own distinctive historical awareness and creative agenda, one in which Modernist, non-Modernist and semi-Modernist writers met on shared ground with common memories and preoccupations. Spanning genres high and low, including war memoirs, critical essays and detective stories as well as drama, poetry and the novel, Chris Baldick's approachable study of the decade sets out a 'map' of the new post-Great-War literary landscape with its unique configuration of genres, settings and character-types. Successive chapters investigate the place of ideas (biological, Freudian, esoteric, and more) in literature; the uses of anachronism and the time-sense of the Twenties; re-shapings of war-memory and war myth into varieties of Twenties 'disillusionment'; and curious connections between crime-writing and comedy in the period. This account moves easily between experimental and more 'traditional' literary tendencies of the decade to discover common obsessions and shared moods of elegiac despair, nervous frivolity and bold irreverence.

1920s writers ebook: Literature of the 1920s Chris Baldick, 2012 This series of ten volumes presents a decade-by-decade account of how literature developed in Britain throughout the 20th century. Each volume offers original analyses of the literature of a single decade, and of how it was shaped by the wider history and culture of its times.

1920s writers ebook: Writing, Authorship and Photography in British Literary Culture, 1880 - 1920 Emily Ennis, 2022-03-24 At the turn of the 20th century, printing and photographic technologies evolved rapidly, leading to the birth of mass media and the rise of the amateur photographer. Demonstrating how this development happened symbiotically with great changes in the shape of British literature, *Writing, Authorship and Photography in British Literary Culture, 1880-1920* explores this co-evolution, showing that as both writing and photography became tools of mass dissemination, literary writers were forced to re-evaluate their professional and personal identities. Focusing on four key authors-Thomas Hardy, Bram Stoker, Joseph Conrad and Virginia Woolf-each of which had their own private and professional connections to photographs, this book offers valuable historical contexts for contemporary cultural developments and anxieties. At first establishing the authors' response to developing technologies through their non-fiction, personal correspondences and working drafts, Ennis moves on to examine how their perceptions of photography extend into their major works of fiction: *A Laodicean*, *Dracula*, *The Secret Agent*, *The Inheritors* and *The Voyage Out*. Reflecting on the first 'graphic revolution' in a world where text and image are now reproduced digitally and circulated en masse and online, Ennis redirects our attention to when image and text appeared alongside each other for the first time and the crises this sparked for authors: how they would respond to increasingly photographic depictions of everyday life, and in turn, how their writing adapted to a distinctly visual mass media.

1920s writers ebook: African Literature in the Digital Age Shola Adenekan, 2021 The digital space provides a new avenue to move literature beyond the restrictions of book publishing on the continent. Arguing that writers are putting their work on cyberspace because communities are emerging from this space, and because increasing numbers of Africans use the internet as part of their day-to-day engagement with their societies and the world, Shola Adenekan explores this transformative development in Nigeria and Kenya, both significant countries in African literature and two of the continent's largest digital technology hubs. Queer Kenyans and Nigerians find new avenues for their work online where print publishers are refusing to publish short stories and poems on same-sex desire. Binyavanga Wainaina's rise to critical acclaim arguably started on the literary blog *Generator 21*. Chimamanda Ngozi Adichie's literary celebrity partly relies on her prolific use of social media to tell the story of powerful Nigerian women. With further examples from the development of literature across the continent, this innovative book sheds new light on narratives about digital Africa. It will also be the first major work to provide a trajectory of class consciousness in Kenyan and Nigerian writing. Through this analysis, the book articulates the difference in attitudes towards queerness, sexuality, and hetero-normativity among successive generations of writers. SHOLA ADENEKAN is an Assistant Professor of Literary and Cultural Analysis at the University of Amsterdam, the Netherlands, and also the publisher of *Thenewblackmagazine.com*. He was previously a Researcher and Tutor in African Literatures and Cultures at the University of Bremen, Germany, and a postdoctoral researcher at the University of Bayreuth, Germany.

1920s writers ebook: American Literature in Transition, 1920-1930 Ichiro Takayoshi,

2017-12-28 *American Literature in Transition, 1920-1930* examines the dynamic interactions between social and literary fields during the so-called Jazz Age. It situates the era's place in the incremental evolution of American literature throughout the twentieth century. Essays from preeminent critics and historians analyze many overlapping aspects of American letters in the 1920s and re-evaluate an astonishingly diverse group of authors. Expansive in scope and daring in its mixture of eclectic methods, this book extends the most exciting advances made in the last several decades in the fields of modernist studies, ethnic literatures, African-American literature, gender studies, transnational studies, and the history of the book. It examines how the world of literature intersected with other arts, such as cinema, jazz, and theater, and explores the print culture in transition, with a focus on new publishing houses, trends in advertising, readership, and obscenity laws.

1920s writers ebook: *The Forgotten Appeasement of 1920* Andrzej Nowak, 2023-05-26 *The Forgotten Appeasement of 1920* examines a turning point in East European history: the summer of 1920, when Lenin's Soviet Russia decided to challenge the Versailles system and launch a military attack on the continent. The outcome of this attack might have been the occupation of all of Poland and East Central Europe, and a Red Army sweep further west. This book probes the British-Soviet negotiations and diplomatic operations behind the scenes. Professor Nowak uses hitherto unexamined documents from Russian and British archives to show how (and why) top British politicians were ready to accept a new Russian imperial control over the whole of Eastern Europe. Nowak unravels this previously untold story of that first and forgotten appeasement, stopped only by the Polish military victory over the Red Army. His excellent historical craftsmanship and new sources contribute to the book's quality, filling up a lacuna in contemporary historiography. This book will appeal to researchers of geopolitical affairs and the Great Powers, the history of Poland, and the political mentality of Western elites. It will also be of interest to university students and tutors, scholars of history and international relations and – thanks to the book's brisk and fascinating narrative – amateur historians and history aficionados.

1920s writers ebook: *Digital Orality* Cecelia Cutler, May Ahmar, Soubeika Bahri, 2022-10-31 This volume showcases innovative research on dialectal, vernacular, and other forms of “oral,” speech-like writing in digital spaces. The shift from a predominantly print culture to a digital culture is shaping people's identities and relationships to one another in important ways. Using examples from distinct international contexts and language varieties (kiAmu, Lebanese, Ettounsi, Shanghai Wu, Welsh English, and varieties of American English) the authors examine how people use unexpected codes, scripts, and spellings to say something about who they are or aspire to be. This book will be of particular interest to students and scholars interested in the impact of social media on language use, style, and orthography, as well as those with a broader interest in literacy, communication, language contact, and language change.

1920s writers ebook: *Theatre Spaces 1920-2020* Iain Mackintosh, 2023-03-09 In this lavishly illustrated hands-on account of the creation of new theatre spaces spanning a century, Iain Mackintosh offers a compelling history that is part memoir, part impassioned call to rethink the design of our theatre spaces and the future of live theatre. As the originator of theatre designs as diverse as the Cottesloe in 1977, Glyndebourne in 1994, the Orange Tree Theatre in 1991, the Martha Cohen Theatre in 1985 and the Tina Packer Playhouse in 2001, he discovered why the same show worked in some theatres but not in others. It is this unique blend of experience that informs this account of many of the best-known theatre spaces in Britain, besides many international examples including the Guthrie Theater, Minneapolis and the Oslo Opera House. Running

throughout is a consideration of factors which have shaped design thinking during this time and which demand attention today. After the long theatre closures driven by the Covid-19 pandemic, Mackintosh argues that now is the time to discover the routes travelled over the last century. Published in partnership with the Society of Theatre Research, the book features a foreword by Sir Richard Eyre, Director of the National Theatre, 1987–1997.
