1968 chicago fiction: The Battle of the Sexes in Science Fiction Justine Larbalestier, 2023-09-05 Runner-up for the Hugo Best Related Book Award (2003) *The Battle of the Sexes in Science Fiction* is a lively account of the role of women and feminism in the development of American science fiction during its formative years, the mid-20th century. Beginning in 1926, with the publication of the first issue of *Amazing Stories*, Justine Larbalestier examines science fiction's engagement with questions of femininity, masculinity, sex and sexuality. She traces the debates over the place of women and feminism in science fiction as it emerged in stories, letters and articles in science fiction magazines and fanzines. The book culminates in the story of James Tiptree, Jr. and the eponymous Award. Tiptree was a successful science fiction writer of the 1970s who was later discovered to be a woman. Tiptree's easy acceptance by the male-dominated publishing arena of the time proved that there was no necessary difference in the way men and women wrote, but that there was a real difference in the way they were read.

Many were angry about being lied to and angry with what was happening. They joined a counterculture movement of people who believed strongly that the U.S. should live up to its promise. They wanted fewer rules about lifestyle, less materialism and more harmony with nature. Many protested. Status quo America answered with police and National Guard troops. 1968 chicago fiction: Siege of Khe Sanh: The Story of the Vietnam War's Largest Battle

Robert Pisor, 2018-01-30 A war correspondent's masterful blow-by-blow account of the Battle of Khe Sanh, reissued with a new preface by Mark Bowden for the battle's 50th anniversary. The six-month siege of Khe Sanh in 1968 was the largest, most intense battle of the Vietnam War. For six thousand trapped U.S. Marines, it was a nightmare; for President Johnson, an obsession. For General Westmoreland, it was to be the final vindication of technological weaponry; for General Giap, architect of the French defeat at Dien Bien Phu, it was a spectacular ruse masking troops moving south for the Tet offensive. With a new introduction by Mark Bowden—best-selling author of *Hu?* 1968—Robert Pisor's immersive narrative of the action at Khe Sanh is a timely reminder of the human cost of war, and a visceral portrait of Vietnam's fiercest and most epic close-quarters battle. Readers may find the politics and the tactics of the Vietnam War, as they played out at Khe Sahn fifty years ago, echoed in our nation's global incursions today. Robert Pisor sets forth the history, the politics, the strategies, and, above all, the desperate reality of the battle that became the turning point of U.S. involvement in Vietnam.
