african american literature anthology ebook: Digital Literary Redlining Amy E. Earhart, 2025-06-24 Though canon concerns seem to be a relic of 1990s academia, we are, once again, at a historical moment when there is resistance to teaching texts by writers of color and texts that deal with race, ethnicity and gender. At the same time, algorithmic bias scholars are locating systemic bias encoded into systems from policing software to housing software. Bringing these divergent areas together, Amy E. Earhart examines how technological and institutional infrastructures construct and deconstruct race, ethnicity and gender identities. Focusing on two central infrastructures, the database, a commonly used technological infrastructure in the digital humanities, and the anthology, a scholarly and pedagogical infrastructure, Earhart considers how such seemingly naturalized infrastructures impact the representation and modeling of identity. The book draws upon the building and use of DALA, a collection of almost 100 years of generalist American and African American literature anthologies, constructed to investigate questions of identity and representation in literary anthologies and, by extension, the larger literary canon. The resulting examination, and its rigorous discussion of how identities are created and recreated within Black literary histories, has important implications for contemporary cultural and political debates about canon formation, literary scholarship, and the bias embedded in technological infrastructures.

african american literature anthology ebook: The Geographies of African American Short Fiction Kenton Rambsy, 2022-03-25 Perhaps the brevity of short fiction accounts for the relatively scant attention devoted to it by scholars, who have historically concentrated on longer prose narratives. The Geographies of African American Short Fiction seeks to fill this gap by analyzing the ways African American short story writers plotted a diverse range of characters across multiple

locations—small towns, a famous metropolis, city sidewalks, a rural wooded area, apartment buildings, a pond, a general store, a prison, and more. In the process, these writers highlighted the extents to which places and spaces shaped or situated racial representations. Presenting African American short story writers as cultural cartographers, author Kenton Rambsy documents the variety of geographical references within their short stories to show how these authors make cultural spaces integral to their artwork and inscribe their stories with layered and resonant social histories. The history of these short stories also documents the circulation of compositions across dozens of literary collections for nearly a century. Anthology editors solidified the significance of a core group of short story authors including James Baldwin, Toni Cade Bambara, Charles Chesnutt, Ralph Ellison, Zora Neale Hurston, and Richard Wright. Using quantitative information and an extensive literary dataset, *The Geographies of African American Short Fiction* explores how editorial practices shaped the canon of African American short fiction.

african american literature anthology ebook: *The Bloomsbury Handbook of Modernist Archives* Jamie Callison, Matthew Feldman, Anna Svendsen, Erik Tønning, 2024-06-13 Providing a broad, definitive account of how the 'archival turn' in humanities scholarship has shaped modernist studies, this book also functions as an ongoing 'practitioner's toolkit' (including useful bibliographical resources) and a guide to avenues for future work. Archival work in modernist studies has revolutionised the discipline in the past two decades, fuelled by innovative and ambitious scholarly editing projects and a growing interest in fresh types of archival sources and evidence that can re-contextualise modernist writing. Several theoretical trends have prompted this development, including the focus on compositional process within genetic manuscript studies, the emphasis on book history, little magazines, and wider publishing contexts, and the emphasis on new material evidence and global and 'non-canonical' authors and networks within the 'New Modernist Studies'. This book provides a guide to the variety of new archival research that will point to fresh avenues and connect the methodologies and resources being developed across modernist studies. Offering a variety of single-author case studies on recent archival developments and editing projects, including Samuel Beckett, Hart Crane, H.D., James Joyce, Dorothy Richardson, May Sinclair and Virginia Woolf, it also offers a range of thematic essays that examine an array of underused sources as well as the challenges facing archival researchers of modernism

african american literature anthology ebook: *Stony the Road* Henry Louis Gates, Jr., 2019-04-02 "Stony the Road presents a bracing alternative to Trump-era white nationalism. . . . In our current politics we recognize African-American history—the spot under our country's rug where the terrorism and injustices of white supremacy are habitually swept. *Stony the Road* lifts the rug. —Nell Irvin Painter, *New York Times Book Review* A profound new rendering of the struggle by African-Americans for equality after the Civil War and the violent counter-revolution that resubjugated them, by the bestselling author of *The Black Church* and *The Black Box*. The abolition of slavery in the aftermath of the Civil War is a familiar story, as is the civil rights revolution that transformed the nation after World War II. But the century in between remains a mystery: if emancipation sparked a new birth of freedom in Lincoln's America, why was it necessary to march in Martin Luther King, Jr.'s America? In this new book, Henry Louis Gates, Jr., one of our leading chroniclers of the African-American experience, seeks to answer that question in a history that moves from the Reconstruction Era to the nadir of the African-American experience under Jim Crow, through to World War I and the Harlem Renaissance. Through his close reading of the visual culture of this tragic era, Gates reveals the many faces of Jim Crow and how, together, they reinforced a stark color line between white and black Americans. Bringing a lifetime of wisdom to bear as a scholar, filmmaker, and public intellectual, Gates uncovers the roots of structural racism in our own time, while showing how African Americans after slavery combatted it by articulating a vision of a New Negro to force the nation to recognize their humanity and unique contributions to America as it hurtled toward the modern age. The story Gates tells begins with great hope, with the Emancipation Proclamation, Union victory, and the liberation of nearly 4 million enslaved African-Americans. Until 1877, the federal government, goaded by the activism of Frederick Douglass and many others, tried

at various turns to sustain their new rights. But the terror unleashed by white paramilitary groups in the former Confederacy, combined with deteriorating economic conditions and a loss of Northern will, restored home rule to the South. The retreat from Reconstruction was followed by one of the most violent periods in our history, with thousands of black people murdered or lynched and many more afflicted by the degrading impositions of Jim Crow segregation. An essential tour through one of America's fundamental historical tragedies, *Stony the Road* is also a story of heroic resistance, as figures such as W. E. B. Du Bois and Ida B. Wells fought to create a counter-narrative, and culture, inside the lion's mouth. As sobering as this tale is, it also has within it the inspiration that comes with encountering the hopes our ancestors advanced against the longest odds.

african american literature anthology ebook: *Along the Streets of Bronzeville* Elizabeth Schroeder Schlabach, 2012-09-15 *Along the Streets of Bronzeville* examines the flowering of African American creativity, activism, and scholarship in the South Side Chicago district known as Bronzeville during the period between the Harlem Renaissance in the 1920s and the Black Arts Movement of the 1960s. Poverty stricken, segregated, and bursting at the seams with migrants, Bronzeville was the community that provided inspiration, training, and work for an entire generation of diversely talented African American authors and artists who came of age during the years between the two world wars. In this significant recovery project, Elizabeth Schroeder Schlabach investigates the institutions and streetscapes of Black Chicago that fueled an entire literary and artistic movement. She argues that African American authors and artists--such as Gwendolyn Brooks, Richard Wright, Langston Hughes, painter Archibald Motley, and many others--viewed and presented black reality from a specific geographic vantage point: the view along the streets of Bronzeville. Schlabach explores how the particular rhythms and scenes of daily life in Bronzeville locations, such as the State Street Stroll district or the bustling intersection of 47th Street and South Parkway, figured into the creative works and experiences of the artists and writers of the Black Chicago Renaissance. She also covers in detail the South Side Community Art Center and the South Side Writers' Group, two institutions of art and literature that engendered a unique aesthetic consciousness and political ideology for which the Black Chicago Renaissance would garner much fame. Life in Bronzeville also involved economic hardship and social injustice, themes that resonated throughout the flourishing arts scene. Schlabach explores Bronzeville's harsh living conditions, exemplified in the cramped one-bedroom kitchenette apartments that housed many of the migrants drawn to the city's promises of opportunity and freedom. Many struggled with the precariousness of urban life, and Schlabach shows how the once vibrant neighborhood eventually succumbed to the pressures of segregation and economic disparity. Providing a virtual tour South Side African American urban life at street level, *Along the Streets of Bronzeville* charts the complex interplay and intersection of race, geography, and cultural criticism during the Black Chicago Renaissance's rise and fall.

african american literature anthology ebook: Writing America Shelley Fisher Fishkin, 2015-11-11 Winner of the John S. Tuckey 2017 Lifetime Achievement Award for Mark Twain Scholarship from The Center for Mark Twain Studies American novelist E.L. Doctorow once observed that literature "endows places with meaning." Yet, as this wide-ranging new book vividly illustrates, understanding the places that shaped American writers' lives and their art can provide deep insight into what makes their literature truly meaningful. Published on the eve of the 50th anniversary of the Historic Preservation Act, *Writing America* is a unique, passionate, and eclectic series of meditations on literature and history, covering over 150 important National Register historic sites, all pivotal to the stories that make up America, from chapels to battlefields; from plantations to immigration stations; and from theaters to internment camps. The book considers not only the traditional sites for literary tourism, such as Mark Twain's sumptuous Connecticut home and the peaceful woods surrounding Walden Pond, but also locations that highlight the diversity of American literature, from the New York tenements that spawned Abraham Cahan's fiction to the Texas pump house that irrigated the fields in which the farm workers central to Gloria Anzaldúa's poetry picked produce. Rather than just providing a cursory overview of these authors' achievements, acclaimed literary scholar and cultural historian Shelley Fisher Fishkin offers a deep and personal reflection on how key sites bore witness to the struggles of American writers and inspired their dreams. She probes the global impact of American writers' innovative art and also examines the distinctive contributions to American culture by American writers who wrote in languages other than English, including Yiddish, Chinese, and Spanish. Only a scholar with as wide-ranging interests as Shelley Fisher Fishkin would dare to bring together in one book writers as diverse as Gloria Anzaldúa, Nicholas Black Elk, David Bradley, Abraham Cahan, S. Alice Callahan, Raymond Chandler, Frank Chin, Elizabeth Cook-Lynn, Countee Cullen, Frederick Douglass, Paul Laurence Dunbar, Jessie Fauset, William Faulkner, F. Scott Fitzgerald, Allen Ginsberg, Jovita González, Rolando Hinojosa, Langston Hughes, Zora Neale Hurston, Lawson Fusao Inada, James Weldon Johnson, Erica Jong, Maxine Hong Kingston, Irena Klepfisz, Nella Larsen, Emma Lazarus, Sinclair Lewis, Genny Lim, Claude McKay, Herman Melville, N. Scott Momaday, William Northup, John Okada, Miné Okubo, Simon Ortiz, Américo Paredes, John P. Parker, Ann Petry, Tomás Rivera, Wendy Rose, Morris Rosenfeld, John Steinbeck, Harriet Beecher Stowe, Henry David Thoreau, Mark

Twain, Yoshiko Uchida, Tino Villanueva, Nathanael West, Walt Whitman, Richard Wright, Hisaye Yamamoto, Anzia Yezierska, and Zitkala-Ša. Leading readers on an enticing journey across the borders of physical places and imaginative terrains, the book includes over 60 images, and extended excerpts from a variety of literary works. Each chapter ends with resources for further exploration. Writing America reveals the alchemy through which American writers have transformed the world around them into art, changing their world and ours in the process.

african american literature anthology ebook: Civil Rights and the Environment in African-American Literature, 1895-1941 John Claborn, 2017-11-02 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com. The beginning of the 20th century marked a new phase of the battle for civil rights in America. But many of the era's most important African-American writers were also acutely aware of the importance of environmental justice to the struggle. Civil Rights and the Environment in African-American Literature is the first book to explore the centrality of environmental problems to writing from the civil rights movement in the early decades of the century. Bringing ecocritical perspectives to bear on the work of such important writers as Booker T. Washington, W.E.B. Du Bois, the writers of the Harlem Renaissance and Depression-era African-American writing, the book brings to light a vital new perspective on ecocriticism and modern American literary history.

african american literature anthology ebook: Digital Griots Adam J. Banks, 2011-03-16 Scholar Adam J. Banks offers a mixtape of African American digital rhetoric in his innovative study *Digital Griots: African American Rhetoric in a Multimedia Age*. Presenting the DJ as a quintessential example of the digital griot-high-tech storyteller-this book shows how African American storytelling traditions and their digital manifestations can help scholars and teachers shape composition studies, thoroughly linking oral, print, and digital production in ways that centralize African American discursive practices as part of a multicultural set of ideas and pedagogical commitments. DJs are models of rhetorical excellence; canon makers; time binders who link past, present, and future in the groove and mix; and intellectuals continuously interpreting the history and current realities of their communities in real time. Banks uses the DJ's practices of the mix, remix, and mixtape as tropes for reimagining writing instruction and the study of rhetoric. He combines many of the debates and tensions that mark black rhetorical traditions and points to ways for scholars and students to embrace those tensions rather than minimize them. This commitment to both honoring traditions and embracing futuristic visions makes this text unique, as do the sites of study included in the examination: mixtape culture, black theology as an activist movement, everyday narratives, and discussions of community engagement. Banks makes explicit these connections, rarely found in African American rhetoric scholarship, to illustrate how competing ideologies, vernacular and academic writing, sacred and secular texts, and oral, print, and digital literacies all must be brought together in the study of African American rhetoric and in the teaching of culturally relevant writing. A remarkable addition to the study of African American rhetorical theory and composition studies, *Digital Griots: African American Rhetoric in a Multimedia Age* will compel scholars and students alike to think about what they know of African American rhetoric in fresh and useful ways.

african american literature anthology ebook: Student Guide to Research in the Digital Age Leslie Stebbins, 2005-12-30 One of the most perplexing aspects of research today is what to do when there's too much information on a topic. What then of the librarian, charged with teaching new generations to appreciate the search for intellectual wheat, especially when the chaff has greater appeal? The key, suggests Leslie Stebbins, is to impress upon students the importance of good filtering instincts and careful management of search results. At the same time, it is equally essential to impress upon them the particular challenges and controversies that accompany research in a digital environment. Chapter one provides a step-by-step introduction to both research and critical evaluation that can be followed for any assignment. Chapters two through seven focus on specific types of information resources: when to use them, where to find them, and how to evaluate them. Chapter eight offers guidance on how to develop a note-taking system, cite sources, avoid

plagiarism, and organize references. Students and librarians alike will benefit from Stebbin's suggestions, strategies and straightforward examples.

african american literature anthology ebook: Mestiz@ Scripts, Digital Migrations, and the Territories of Writing D. Baca, 2008-05-26 Conventional scholarship on written communication positions the Western alphabet as a precondition for literacy. Thus, pictographic, non-verbal writing practices of Mesoamerica remain obscured by representations of lettered speech. This book examines how contemporary Mestiz@ scripts challenge alphabetic dominance, thereby undermining the colonized territories of writing. Strategic weavings of Aztec and European inscription systems not only promote historically-grounded accounts of how recorded information is expressed across cultures, but also speak to emerging studies on visual/multimodal education. Baca-Espinosa argues that Mestiz@ literacies advance new ways of reading and writing, applicable to diverse classrooms of the twenty-first century.

african american literature anthology ebook: The Routledge Companion to Humanism and Literature Michael Bryson, 2022-03-30 The Routledge Companion to Humanism and Literature provides readers with a comprehensive reassessment of the value of humanism in an intellectual landscape. Offering contributions by leading international scholars, this volume seeks to define literature as a core expressive form and an essential constitutive element of newly reformulated understandings of humanism. While the value of humanism has recently been dominated by anti-humanist and post-humanist perspectives which focused on the flaws and exclusions of previous definitions of humanism, this volume examines the human problems, dilemmas, fears, and aspirations expressed in literature, as a fundamentally humanist art form and activity. Divided into three overarching categories, this companion will explore the histories, developments, debates, and contestations of humanism in literature, and deliver fresh definitions of the new humanism for the humanities. This focus aims to transcend the boundaries of a world in which human life is all too often defined in terms of restrictions—political, economic, theological, intellectual—and lived in terms of obedience, conformity, isolation, and fear. The Routledge Companion to Humanism and Literature will provide invaluable support to humanities students and scholars alike seeking to navigate the relevance and resilience of humanism across world cultures and literatures.

african american literature anthology ebook: The Digital Black Atlantic Roopika Risam, Kelly Baker Josephs, 2021-03-16 Exploring the intersections of digital humanities and African diaspora studies How can scholars use digital tools to better understand the African diaspora across time, space, and disciplines? And how can African diaspora studies inform the practices of digital humanities? These questions are at the heart of this timely collection of essays about the relationship between digital humanities and Black Atlantic studies, offering critical insights into race, migration, media, and scholarly knowledge production. The Digital Black Atlantic spans the African diaspora's range—from Africa to North America, Europe, and the Caribbean—while its essayists span academic fields—from history and literary studies to musicology, game studies, and library and information studies. This transnational and interdisciplinary breadth is complemented by essays that focus on specific sites and digital humanities projects throughout the Black Atlantic. Covering key debates, The Digital Black Atlantic asks theoretical and practical questions about the ways that researchers and teachers of the African diaspora negotiate digital methods to explore a broad range of cultural forms including social media, open access libraries, digital music production, and video games. The volume further highlights contributions of African diaspora studies to digital humanities, such as politics and representation, power and authorship, the ephemerality of memory, and the vestiges of colonialist ideologies. Grounded in contemporary theory and praxis, The Digital Black Atlantic puts the digital humanities into conversation with African diaspora studies in crucial ways that advance both.
