aaron judge bipartisan opinions: *God's Law and Order* Aaron Griffith, 2020-11-10 Winner of a Christianity Today Book Award An incisive look at how evangelical Christians shaped—and were shaped by—the American criminal justice system. America incarcerates on a massive scale. Despite recent reforms, the United States locks up large numbers of people—disproportionately poor and nonwhite—for long periods and offers little opportunity for restoration. Aaron Griffith reveals a key component in the origins of American mass incarceration: evangelical Christianity. Evangelicals in the postwar era made crime concern a major religious issue and found new platforms for shaping public life through punitive politics. Religious leaders like Billy Graham and David Wilkerson mobilized fears of lawbreaking and concern for offenders to sharpen appeals for Christian conversion, setting the stage for evangelicals who began advocating tough-on-crime politics in the 1960s. Building on religious campaigns for public safety earlier in the twentieth century, some preachers and politicians pushed for “law and order,” urging support for harsh sentences and expanded policing. Other evangelicals saw crime as a missionary opportunity, launching innovative ministries that reshaped the practice of religion in prisons. From the 1980s on, evangelicals were instrumental in popularizing criminal justice reform, making it a central cause in the compassionate conservative movement. At every stage in their work, evangelicals framed their efforts as colorblind, which only masked racial inequality in incarceration and delayed real change. Today evangelicals play an ambiguous role in reform, pressing for reduced imprisonment while backing law-and-order politicians. *God's Law and Order* shows that we cannot understand the criminal justice system without accounting for evangelicalism's impact on its historical development.

aaron judge bipartisan opinions: *Divided We Fall* Alice M. Rivlin, Sheri Rivlin, Allan Rivlin, 2022-10-04 Partisan warfare and gridlock in Washington threaten to squander America's opportunity to show the world that democracy can solve serious economic problems and ensure widely shared prosperity. Instead of working together to meet the challenges ahead—an aging work force, exploding inequality, climate change, rising debt—our elected leaders are sabotaging our economic future by blaming and demonizing each other in hopes of winning big in the next election. They are weakening America's capacity for world leadership and the case for democracy here and abroad. Alice M. Rivlin, with decades of experience in economic policy making, argues that proven economic policies could lead to sustainable American prosperity and opportunity for all, but crafting them requires the tough, time-consuming work of consensus building and bipartisan negotiation. In a divided country with shifting majorities, major policies must have bipartisan buy-in and broad public support. Otherwise we will have either destabilizing swings in policy or total gridlock in the face of challenges looming at us. Rivlin believes that Americans can and must save our hyper-partisan politicians from themselves. She makes the case that on many practical economic issues the public is far less divided than partisan politicians and sensationalist media would have us believe. She draws attention to numerous hopeful efforts to bridge partisan and ideological divides in Washington, in state capitols and city governments, and communities around the country, and advocates a major national effort to enable citizens and future leaders to learn and practice the art of listening to each other and working together to find common ground. This book is a practical guide for Americans across the political spectrum who are agonizing over partisan warfare, incivility, and policy gridlock and looking for ways they can help to get our democratic policy process back on a constructive track before it is too late.
