art history textbook pdf: The New Politics of the Textbook Heather Hickman, Brad J. Porfilio, 2012-10-13 In an age of unprecedented corporate and political control over life inside of educational institutions, this book provides a needed intervention to investigate how the economic and political elite use traditional artifacts in K-16 schools to perpetuate their interests at the expense of minoritized social groups. The contributors provide a comprehensive examination of how textbooks, the most dominant cultural force in which corporations and political leaders impact the schooling curricula, shape students' thoughts and behavior, perpetuate power in dominant groups, and trivialize social groups who are oppressed on the structural axes of race, class, gender, sexuality, and (dis)ability. Several contributors also generate critical insight in how power shapes the production of textbooks and evaluate whether textbooks still perpetuate dominant Western narratives that normalize and privilege patriotism, militarism, consumerism, White supremacy, heterosexism, rugged individualism, technology, and a positivistic conception of the world. Finally, the book highlights several textbooks that challenge readers to rethink their stereotypical views of the Other, to reflect upon the constitutive forces causing oppression in schools and in the wider society, and to reflect upon how to challenge corporate and political dominance over knowledge production.

art history textbook pdf: Migrating Histories of Art Maria Teresa Costa, Hans Christian Hönes, 2018-12-03 Art historians have been facing the challenge – even from before the advent of globalization – of writing for an international audience and translating their own work into a foreign language – whether forced by exile, voluntary migration, or simply in order to reach wider audiences. Migrating Histories of Art aims to study the biographical and academic impact of these self-translations, and how the adoption and processing of foreign-language texts and their corresponding methodologies have been fundamental to the disciplinary discourse of art history.

While often creating distinctly multifaceted personal biographies and establishing an international disciplinary discourse, self-translation also fosters the creation of instances of linguistic and methodological hegemony.

art history textbook pdf: *A Textbook of Cultural Economics* Ruth Towse, 2010-01-07 What determines the price of a pop concert or an opera? Why does Hollywood dominate the film industry? Does illegal downloading damage the record industry? Does free entry to museums bring in more visitors? In *A Textbook of Cultural Economics*, one of the world's leading cultural economists shows how we can use the theories and methods of economics to answer these and a host of other questions concerning the arts (performing arts, visual arts and literature), heritage (museums and built heritage) and creative industries (the music, publishing and film industries, broadcasting). Using international examples and covering the most up-to-date research, the book does not assume a prior knowledge of economics. art history textbook pdf: *The Romanian Cinema of Nationalism* Onoriu Colăcel, 2018-10-10 Prior to the collapse of communism, Romanian historical movies were political, encouraging nationalistic feelings and devotion to the state. Vlad the Impaler and other such iconic figures emerged as heroes rather than loathsome bloodsuckers, celebrating a shared sense of belonging. The past decade has, however, presented Romanian films in which ordinary people are the stars--heroes, go-getters, swindlers and sore losers. The author explores a wide selection, old and new, of films set in the Romanian past.

art history textbook pdf: Akroter und Architektur Corinna Reinhardt, 2018-10-08 Die Ausstattung repräsentativer Tempel- und Schatzhausarchitektur mit Bauskulpturen ist ein Phänomen, das vom 6. bis zum 4. Jahrhundert v. Chr. in Griechenland vielfältig anzutreffen ist. Die Akrotere auf dem Dach waren durch ihre Position besonders auffällig im Erscheinungsbild eines Gebäudes und nahmen damit entscheidenden Einfluss auf seine Wahrnehmung im Kontext des Heiligtums. Die vorliegende Arbeit untersucht die ästhetische und bildliche Konzeption von figürlichen Akroterbildern sowie ihre Wirkung in engem Zusammenhang zu ihrem architektonischen und historischen Kontext. Im Mittelpunkt steht demnach die Frage danach, was diese Bilder für das Gebäude und seine Auftraggeber leisteten. Gleichzeitig werden als Grundlage für diese Fragen auch die Dächer in den Blick genommen, die etwa Auskunft darüber geben, wie Akrotere befestigt und wie sie genau positioniert wurden. Die verschiedenen Konzepte der Akroterbilder und die Umstände ihrer Verwendung geben Einblick in die Potenziale eines Bildfeldes in der griechischen Architektur,

das einerseits für die ästhetische Gestaltung und Charakterisierung des Gebäudes, andererseits auch für die Repräsentation der Auftraggeber einen entscheidenden Beitrag leistete.

art history textbook pdf: Scheitern als Performance Nicole Alber, 2021-06-09 Das Scheitern ist ein besonders sensibler Punkt im gesellschaftlichen Zusammenspiel. An der Schnittstelle von Kunst- und Sozialwissenschaft sucht Nicole Alber nach seinen Repräsentationen und Bedeutungen in der bildenden Kunst: Ausgewählte Werke der Videoperformance sollen Aufschluss über die politische Dimension von Motiven wie dem Fall oder dem Schiffbruch geben. Dabei wird deutlich: Bas Jan Ader, Cathy Sisler und Francis Alÿs setzen das Scheitern exzessiv, ironisch oder subversiv in Szene, um es radikal zu hinterfragen und inhaltlich neu zu besetzen. Sie ermutigen, das Scheitern anders zu denken, und eröffnen neue Handlungsräume.

Unter Bezugnahme auf Michel Foucaults Schriften untersucht sie die Zusammenhänge von Ornament, Ordnung und Macht.

The way this has occurred is documented and analysed here, both from an historical and critical perspective. Changing understandings of culture and the significance of Indigenous Culture to Australia receive special attention. There is then a final discussion about some issues that governments could address in the future, that might ensure a more sustainable Australian arts sector. This book will be of particular interest to scholars of contemporary arts, arts management, cultural history, public policy and cultural policy. It may also interest bureaucrats and politicians.
