archer laughlin partnership: The Affective Profiles Model Danilo Garcia, 2023-04-17 This timely volume provides an up-to-date exploration of the affective profiles model, a person-centered means of understanding the affective system. It presents the etiology underpinning the affective system and compares the model with other existing personality models, such as the Big Five Model, and the Cloninger's Biopsychosocial Model. Most important, it examines the affective profiles model in relation to well-being, which includes life satisfaction, as well as psycho-logical health. archer laughlin partnership: Family Interventions in Domestic Violence John Hamel, Tonia Nicholls, 2006-09-26 In this exciting new book John Hamel, author of the ground-breaking *Gender-Inclusive Treatment of Intimate Partner Abuse*, and Tonia Nicholls go beyond the traditional intervention theories of domestic violence practiced today. Offering alternative, unbiased and sometimes controversial views, theories, and current research, they, along with renowned contributors in the field, provide new treatment options that encompass a wide range of gender dynamics. Here are just some of the key principles covered: Interventions Should Be Based on a Thorough Unbiased Assessment Victim/Perpetrator Distinctions are Overstated, and Much Partner Abuse is Mutual Regardless of Perpetrator Gender, Child Witnesses to Partner Abuse are Adversely Affected, and are at Risk for Perpetrating Partner Abuse as Adults This new gender-inclusive approach to assessment and intervention provides a significant departure from traditional paradigms of domestic violence, and offers a much-needed awareness to effectively prevent violence in our communities today and for future generations.

archer laughlin partnership: Women Who Perpetrate Relationship Violence Frederick Buttell, Michelle Mohr Carney, 2014-06-03 Find out what drives women to violence in their intimate relationships and how to prevent it *Women Who Perpetrate Relationship Violence* examines the causes and consequences of violence initiated by women against their partners. This unique book fills the void of available literature on domestically violent women, taking a frank look at the issues surrounding female batterers who are the primary aggressors in their intimate relationships. The counseling and psychological community has responded to the problem of domestic abuse and violence against women. But very little has been done to address the issues of domestic abuse and violence committed by women. *Women Who Perpetrate Relationship Violence* presents innovative original research that focuses specifically on women as offenders, rather than simply adapting programs created for male batterers to women. The book includes epidemiological studies, secondary analyses, personality profiles, and a study of women entering a 16-week, court-mandated, batterer intervention program (BIP). *Women Who Perpetrate Relationship Violence* examines: predictors of intimate violence, including antisocial criminal records, alcohol abuse, and personality disorders associations between interpersonal

dependency and violence elevated histrionic, narcissistic, and compulsive personality traits personality disorders lethal domestic assaults recidivism differences in demographic and psychological variables between women who complete treatment programs and those who drop out and much more Women Who Perpetrate Relationship Violence is an invaluable professional resource for psychologists, social workers, and counselors.
