ascent to felicity pdf: Drive Jonathan Rigsby, 2024-05-14 One father, 3 years, and thousands of rides Poverty, By America meets Maid in this dad's darkly humorous yet humanizing story of working long hours and late nights behind the wheel as a rideshare driver Jonathan Rigsby spends his days as a crime intelligence analyst and his nights as an Uber driver. Reeling from his divorce and struggling to pay rent while caring for his autistic son, Rigsby became a rideshare driver, joining the millions of people with a side hustle just to make ends meet. With a compelling blend of honesty and sardonic wit, Rigsby invites readers into his car to reveal the harsh reality of gig work for so many: grueling hours, living paycheck to paycheck, and hoping to avoid disaster long enough to prepare for the next bill. Along the way, he showcases the humor and humanity in the private moments of vulnerability that happen when people are left alone with a stranger—from the amusing tales of drunk college students to a passenger getting sick on the dashboard, a mother expressing distress about her son's addiction, and a violent encounter on the job. Unflinching and raw, Drive exposes an ugly truth that hides in the gaudy background of the American dream: you can do everything right and still fail. Buckle up.

ascent to felicity pdf: The Routledge Companion to Humanism and Literature Michael Bryson, 2022-03-30 The Routledge Companion to Humanism and Literature provides readers with a comprehensive reassessment of the value of humanism in an intellectual landscape. Offering contributions by leading international scholars, this volume seeks to define literature as a core

expressive form and an essential constitutive element of newly reformulated understandings of humanism. While the value of humanism has recently been dominated by anti-humanist and post-humanist perspectives which focused on the flaws and exclusions of previous definitions of humanism, this volume examines the human problems, dilemmas, fears, and aspirations expressed in literature, as a fundamentally humanist art form and activity. Divided into three overarching categories, this companion will explore the histories, developments, debates, and contestations of humanism in literature, and deliver fresh definitions of the new humanism for the humanities. This focus aims to transcend the boundaries of a world in which human life is all too often defined in terms of restrictions—political, economic, theological, intellectual—and lived in terms of obedience, conformity, isolation, and fear. The Routledge Companion to Humanism and Literature will provide invaluable support to humanities students and scholars alike seeking to navigate the relevance and resilience of humanism across world cultures and literatures.

ascent to felicity pdf: *Women's Music for the Screen* Felicity Wilcox, 2021-08-26 *Women's Music for the Screen: Diverse Narratives in Sound* shines a long-overdue light on the works and lives of female-identifying screen composers. Bringing together composer profiles, exclusive interview excerpts, and industry case studies, this volume showcases their achievements and reflects on the systemic gender biases women have faced in an industry that has long excluded them. Across 16 essays, an international array of contributors present a wealth of research data, biographical content, and musical analysis of film, television, and video game scores to understand how the industry excludes women, the consequences of these deficits, and why such inequities persist – and to document women's rich contributions to screen music in diverse styles and genres. The chapters amplify the voices of women composers including Bebe Barron, Delia Derbyshire, Wendy Carlos, Anne Dudley, Rachel Portman, Hildur Guðnadóttir, Mica Levi, Winifred Phillips, and more. From the mid-twentieth century to the present, and from classic Hollywood scores to pioneering electronic music, these are the stories and achievements of the women who have managed to forge successful careers in a male-dominated arena. Suitable for researchers, educators, and students alike, *Women's Music for the Screen* urges the screen music industry to consider these sounds and stories in a way it hasn't before: as voices that more accurately reflect the world we all share.

ascent to felicity pdf: *The Environmental Documentary* John A. Duvall, 2017-05-18 *The Environmental Documentary* provides the first extensive coverage of the most important environmental films of the decade, including their approach to their topics and their impacts on public opinion and political debate. While documentaries with themes of environmental activism date back at least to Pare Lorenz's films of the 1930's, no previous decade has produced the number and quality of films that engage environmental issues from an activist viewpoint. The convergence of high profile issues like climate change, fossil fuel depletion, animal abuse, and corporate malfeasance has combined with the miniaturization of high quality recording equipment and the expansion of documentary programming, to produce an unprecedented number of important and influential documentary productions. The text examines the processes of production and distribution that have produced this explosion in documentaries. The films range from a high-profile Hollywood production with theatrical distribution like *An Inconvenient Truth*, to shorter independently produced films like *The End of Suburbia* that have reached a small audience of activists through video distribution, interviews with many of the filmmakers, and word of mouth.

ascent to felicity pdf: *East Asian-German Cinema* Joanne Miyang Cho, 2021-09-29 This is the first edited volume dedicated to the study of East Asian-German cinema. Its coverage ranges from 1919 to the present, a period which has witnessed an unprecedented degree of global entanglement between Germany and East Asia. In analyzing this hybrid cinema, this volume employs a transnational approach, which highlights the nations' cinematic encounters and entanglements. It reveals both German perceptions of East Asia and East Asian perceptions of Germany, through analysis of works by both German directors and East Asian/East Asian-German directors. It is hoped that this volume will not only accelerate cross-cultural exchange, but also provide a wider perspective that helps film scholars to see the broader contexts in which these films are produced. It

introduces multiple compelling topics, not just immigration, multiculturalism, and exile, but also Japonisme, children's literature, musical modernity, media hybridity, gender representation, urban space, Cold War divisions, and national identity. It addresses several genres—feature films, essay films, and documentary films. Lastly, by embracing three East Asian cinemas in one volume, this volume serves as an excellent introduction for German cinema students and scholars. It will appeal to international and interdisciplinary audiences, as its contributors represent multiple disciplines and four world regions.

ascent to felicity pdf: The Great Exchange: Making the News in Early Modern Europe

Joad Raymond Wren, 2025-07-10 An epic history of the birth of news in Europe News moves. It is a battle, a scandal, a disaster. It is a letter, a newspaper, a proclamation. News is a material thing, but also something between us, something we take into us and feel. This book tells the story of news from the sunset of the Middle Ages to the rise of mass media in modern times. It begins in Renaissance Italy, with the envoys and merchants who drew in and disseminated news across Europe, establishing its channels and conventions. Following the beat of news around the continent, it uncovers a vast, invisible network traversing the boundaries of geography and politics, religion and language. Joad Raymond Wren allows the reader to see news – of the battle of Lepanto, the siege of Vienna – spreading around this network in real time. Dispelling the tenacious myth that news was until the printing press scarce and unreliable, and until the telegraph slow and provincial, he opens up windows onto a world buzzing with news from faraway. News brought the distant closer, and provided the means for Europe to know itself. The continent was, for a time, held together by that most essential of human acts: communication.

ascent to felicity pdf: The Europeanization of Turkey Ali Tekin, Aylin Güney, 2015-04-17

Given the recent inertia in EU-Turkey relations in the midst of regional economic and political upheavals, Europeanization of Turkey takes a step back from the latest headlines to provide a comprehensive stocktaking of EU-inspired reform efforts in Turkey with an eye to understanding how effective or ineffective EU conditionality has been in making Turkey's key political institutions, actors and culture more compatible with European norms. In addition to contributing to the theoretical literature on the differential effects of Europeanization on the domestic realm, this volume also expands the existing scope of research to include questions of how socialization through the accession process operates under high levels of uncertainty about the attainability of European Union membership. Applying a uniform analytical framework and the methodology of process tracing, the authors in this volume assess the nature and degree of change that has occurred in various dimensions of Turkish domestic polity and politics in the context of Turkey's post-1999 EU accession. Engaging with important practical issues such as whether potential membership in the EU has brought about positive change, in which areas this change is manifest, and how significant this change has been, this book is an essential resource for students, scholars and researchers seeking to understand contemporary relations between the EU and Turkey.
