church blessing texts online: The Lord Bless You (Touchstone Texts) Stephen B. Chapman,

2025-08-26 The Priestly Blessing in Numbers 6, The Lord bless you, is one of the most familiar and widely used liturgical texts in Christianity. Although often recited, it is not usually a subject of in-depth study. In this addition to the Touchstone Texts series, highly regarded Old Testament scholar Stephen Chapman provides a detailed, engagingly written exposition of the Priestly Blessing as well as a broader exploration of blessing in the Old Testament. He explores the historical and liturgical use of the Priestly Blessing in the Jewish and Christian traditions and discusses key issues related to the practice of blessing within contemporary Christianity. His interpretation of the Priestly Blessing highlights the importance of the divine name and the way the blessing offers a vision of religious faith as name bearing. Chapman's volume will be a helpful resource for pastors and seminarians and an important reminder to all Christians of the centrality of blessing to the life of faith. The Touchstone Texts series addresses key Bible passages, making high-quality biblical scholarship accessible to the church. The series editor is Stephen B. Chapman.

church blessing texts online: @ Worship Teresa Berger, 2017-07-14 A host of both very old and entirely new liturgical practices have arisen in digital mediation, from the live-streaming of worship services and pray-as-you-go apps, to digital prayer chapels, virtual choirs and online pilgrimages. Cyberspace now even hosts communities of faith that exist entirely online. These digitally mediated liturgical practices raise challenging questions: Are worshippers in an online chapel really a community at prayer? Do avatars that receive digital bread and wine receive communion? @ Worship proposes a nuanced response to these sometimes contentious issues, rooted in familiarity with, and sustained attention to, actual online practices. Four major thematic lines of inquiry form the structure of the book. After an introductory chapter the following chapters look at digital presence, virtual bodies, and online participation; ecclesial communities in cyberspace; digital materiality, visuality, and soundscapes; and finally the issues of sacramental mediation online. A concluding chapter brings together the insights from the previous chapters and maps a way forward for reflections on digitally mediated liturgical practices. @ Worship is the first monograph dedicated to exploring online liturgical practices that have emerged since the introduction of Web 2.0. Bringing together the scholarly tools and insights of liturgical studies, constructive theology and digital media theories, it is vital reading for scholars of Theology and Religion with as well as Sociology and Digital Culture more generally.

church blessing texts online: Cyber Worship in Multifaith Perspectives Mohamed Taher, 2006-08-17 Cyber Worship in Multifaith Perspectives, as is implied by its name, explores worship (i.e., Prayer, Praise, Scripture, Sacrament, Rituals, Confessions, Eucharist, Rites, Pilgrimages, Reflection, Contemplation, etc.) on the Internet. It is not an everything you need to know guide about the subjects of faith and belief, religions-online, religions on the Net, or religions in cyberspace. Rather, it is a book about religious and spiritual experience under the rubric, cyber worship, which is the variety of ways religious devotion is performed and carried out on the Internet. The term 'Cyber Worship' is a catchall phrase, which includes variants such as online worship, virtual worship, electronic prayer, cyber puja, cyber synagogue, and so on. Dr. Mohamed Taher has thus assembled a quick reference for two groups: those communities that are involved in Cyber Worship and business Webs that collaborate in sustaining wired environments. As such, this book provides an interesting and current perspective on a practice that will continue to grow in the future.

At the end of this book, you will find a glossary of terms that will help you and your team familiarize yourselves with the type of technological vocabulary frequently used in live streaming. For many pastors, learning this type of information is like learning a new language. If you are interested in learning about church media and live streaming this book will be a walk in the park. Feel free to download the audio version of this book and literally take a walk in the park as you listen. Finally, this book was written to inspire readers to use modern tools to tell their organizations unique story about their faith. At the end of the day, live streaming is a storytelling tool helping organizations reach those who may need guidance, education, or simply a nudge in the right direction. Social media has become a medium for empowering individuals to like and share the things they believe in. We live in a world that is more connected than ever before. Understanding that everyone on earth is connected in some way, within six degrees of separation, will be an important stepping stone in our thinking about social media. Your church now has the power to reach people in large connected networks which include groups of family members and friends. These are the people that are most important and most influential in lives of your church’s current members and their extended online network. One of the main reasons why western religion has succeeded so greatly to this day is because it has always taken advantage of emerging technologies... The medium isn’t the message; it’s the medium that you use to communicate the message. In the 1500s, we saw the printing press emerge, and bibles were being printed for the first time in history. We saw an explosion of what was being made available in written form, with new translations that were suddenly available all over the world... Over the past one hundred years, we have churches moving on to the radio with the early evangelical churches that have now moved into TV and televangelism... and now today we are moving into a new form of communication, where you can distribute your message on digital platforms using social media. The churches that are the most successful and most resonate with people are the ones delivering their message in the places that people are listening. Those who are producing content in a form that is consumable and makes sense in the day and age that we live in, we be to prosper from the fruits of new communication pathways.

church blessing texts online: Belovedness James Franklin, Becky Zartman, 2020-06-17 This thought-provoking book for college students and those who minister with them deals with issues of faith, identity, sex, success, failure, and more, through the concept of belovedness. Every college student's story is different, but they all have the same questions in common. Who am I? How do I make good choices? What does it mean to be successful? How do I navigate changing relationships with my family, my peers, my significant other? And how do I do all of this faithfully? This book approaches these topics through a fundamental inquiry: "What if I really, truly believed that I was beloved beyond all measure, and how would that influence what I do?" Along with the editors, eight campus ministers from across several denominations contributed to this volume to help students navigate questions of life and faith in the world of high-pressure college campuses. Telling it like it is with wit and wisdom drawn from scripture, tradition, and life experience, this book offers profound and practical reminders of what it is to be beloved.

church blessing texts online: Immigrant Neighbors among Us M. Daniel Carroll R., Leopoldo A. Sánchez, 2015-09-11 How do different Christian denominations in the United States approach immigration issues? In *Immigrant Neighbors among Us*, U.S. Hispanic scholars creatively mine the resources of their theological traditions to reflect on one of the most controversial issues of our day. Representative theologians from Roman Catholic, Lutheran, Reformed, Methodist/Wesleyan, Pentecostal, and Independent Evangelical church families show how biblical narratives, historical events, systematic frameworks, ethical principles, and models of ministry shape their traditions' perspectives on immigrant neighbors, law, and reform. Each chapter provides questions for dialogue.

church blessing texts online: A Scriptural Theology of Eucharistic Blessings Susan I. Bubbers, 2013-09-12 This study examines the scriptural justification for believers to expect the Eucharist to be a place where God will come and bless them with freedom and formation. Bubbers' focus is not on liturgy, but rather on the biblical message of the benefits of participation in the Eucharist. Why keep this Feast? Why is Eucharist important? Bubbers' interpretive approach is a synthesis of historical-literary aspects of Biblical Theology and canonical-creedal aspects of the Theological Reading of Scripture, taking into account the biblical-historical place of Eucharist, as well as its ongoing presence within the Church. Bubbers begins by displaying the Last Supper as a Passover meal which bridges between Old Testament motifs and the New Testament Feast. She then shows that the Exodus context reveals a paradigm which links blessing with remembrance, and suggests that the remembrance motif describes these blessings. Finally, Bubbers gathers a catalogue of specific blessings, summarized by freedom and formation. Her conclusion is that the Feast is a divinely designed paradigm for worship, which is accompanied by a promise of transformational encounters.

church blessing texts online: Handbuch Soziale Praktiken und Digitale Alltagswelten Heidrun Friese, Marcus Nolden, Gala Rebane, Miriam Schreiter, 2020-03-02 Mit der Entwicklung des Web 2.0. sind digitale Medien und Netzwerke zum Teil unseres Alltags geworden. Von Facebook und Twitter zu YouTube und Blogspot: Soziale, kulturelle, religiöse, ökonomische und politische Räume entwickeln sich mittlerweile auch im weltumspannenden Netz, erlauben die Verständigung über die gegenwärtige Situation und lassen die einstige Unterscheidung zwischen ‚online und offline-Welten‘, dem ‚virtuellen‘ und dem ‚realen, physischen‘ Raum obsolet werden. Diese digitalen Räume werden inzwischen nicht mehr als abgegrenzt betrachtet, sondern vielmehr als Kontinuum sozialer Felder verstanden, die von unterschiedlichen Praktiken und transnationaler Kommunikation gekennzeichnet sind.

church blessing texts online: Text Message Ian Stackhouse, Oliver D. Crisp, 2014-03-10 Preaching has fallen on hard times with many questioning its relevance and even its validity as a New Testament practice. This symposium of specially commissioned essays draws together an international team of thirteen scholars and pastors to address the importance of textual preaching in the history and life of the early church, the historic church, and the contemporary church. Contributions include essays on Old Testament preaching, preaching in Hebrews, gender-sensitive

preaching, preaching in the theology of Jonathan Edwards, Charles Spurgeon, Dietrich Bonhoeffer, and in Eastern Orthodoxy. It also includes essays on a range of homiletical challenges that textual preaching raises for the contemporary preacher, including genre, preaching without notes, inhabiting the text, and preaching without platitudes. A final reflection by Dave Hansen on the state of textual preaching rounds out the collection. The preaching of the gospel stands at the heart of Christian praxis. These essays make a vital contribution to the recovery of the importance of preaching, focused on the text of Scripture. Written with an eye to the pastor and practitioner as well as those in the pews and in the classroom, this is a book that should appeal to a wide range of readers.

church blessing texts online: *The Text in Play* Mike Higton, Rachel Muers, 2012-11-02 In *The Text in Play*, Mike Higton and Rachel Muers conduct a series of experiments in the reading of Scripture. They experiment in the first place with a form of Christian theological exegesis of the Bible that they call serious play--a form of reading beyond the literal sense that is nevertheless serious about the ethical, historical, and textual responsibilities of the reader. They experiment in the second place with the practice called Scriptural Reasoning--in which Jews, Christians, and Muslims read and argue over their respective Scriptures together--and argue that the practice makes deep sense for seriously playful Christian readers. This constitutes the most detailed and developed account of Scriptural Reasoning yet published.

church blessing texts online: *Religion Online* August E. Grant, Amanda F. C. Sturgill, Chiung Hwang Chen, Daniel A. Stout, 2019-03-07 *Religion Online* provides new insights about religiosity in a contemporary context, offering a comprehensive look at the intersection of digital media, faith communities, and practices of all sorts. Recent research on Apple users, video games, virtual worlds, artificial intelligence, digital music, and sports as religion supports the idea that media and religion, once considered separate entities, are in many cases the same thing. New media and religious practice can no longer be detached; this two-volume set discusses how religionists are embracing the Internet amidst cultural shifts of secularization, autonomous religious worship, millennials' affinity for new media, and the rise of fundamentalism in the global south. While other works describe case studies, this book explains how new media are interwoven into the very fabric of religious belief, behavior, and community. Chapters break down the past, present, and projected future of the use of digital media in relation to faith traditions of many varieties, extending from mainline Christianity to new religious movements. The book also examines the impacts of digital media on beliefs and practices around the world. In exploring these subjects, it calls on the study of culture, namely anthropology, to conceptualize a technological period as significant as the industrial revolution.

church blessing texts online: *Law, Religion and Human Flourishing in Africa* M. Christian Green, 2019-05-19 A shared interest of law and religion is the advancement of human flourishing, yet there is no common understanding of what it means for humans to flourish and the means by which to attain a flourishing life. The concept of human flourishing is especially important for Africa, where community and national development compete with forces of conflict and scarce resources. In the broadest sense, the concept of human flourishing focuses our attention on having a comprehensively good or worthwhile life, but various religious and legal traditions suggest different norms for measuring the quality of life and designing the institutional structures that could best facilitate and preserve it.
