church lesson plans pdf: A West African Model to Address Human Trafficking Paul V.I. Sidlawinde Karenga, 2022-02-02 This book describes the nature of trafficking in persons in West Africa, focusing on labor and sexual exploitation in the region, and recommends tailor-made solutions established by the Catholic Church in light of governmental authorities' failure to effectively combat this scourge of humanity. While states' efforts to fulfill their international obligations in developing anti-trafficking legislations are recognized, their failure to carry out prosecutions of offenders and ensure protection of the victims reveals that law alone is not a sufficient instrument for realizing human rights and improving people's lives. Faced with the sobering background of less than successful efforts by governmental entities to end the trade in humans, this research study recommends adopting essential elements of Catholic social teaching, which rests on the inherent dignity of human beings allowing the development of political, socio-cultural, and religious reforms that will increase the effectiveness of existing legislation designed to combat trafficking. This faith-based approach highlights the role that religion may play in fulfilling the discretionary provisions of the Palermo Protocol by promoting the welfare and protecting the life and dignity of the victims. Additionally, religion is composed of sound moral ethics that determine people's behavior to refrain from the sinful conduct of trafficking. It also creates a sense of ethical responsibility that promotes supply chain transparency and ethical purchasing as well as advocating social reforms and anti-trafficking legislations initiatives. In fact, the author's approach, may be a model for other regions in the world and will be of interest to scholars, law and policy makers, human rights advocates and law enforcement agents working in the field of trafficking in persons.

church lesson plans pdf: The Friendship Project Michele Faehnle, Emily Jaminet, 2017-09-22 Michele Faehnle and Emily Jaminet are busy wives, mothers, and volunteers. They are also friends, Catholic speakers, and the dedicated coauthors of *Divine Mercy for Moms*, which continues to inspire women to come together to pray, study, and live in friendship around the Divine Mercy devotion. In the midst of their active lives, Faehnle and Jaminet found themselves missing their old friends and searching for new ones. They also realized that they needed to continually work to develop deep, meaningful relationships that would allow them to be themselves, to care for others and be cared for, and to deepen their Catholic faith. In *The Friendship Project*, Faehnle and Jaminet explore the cardinal and theological virtues with an eye toward friendship. Focusing on faith, hope, love, prudence, gratitude, loyalty, generosity, and prayerfulness, they help us answer questions such as, "What does it mean to be women of hope, and how does that change our lives and make us more compassionate friends during difficult times?" and "How does prayerfulness teach us how to listen to and talk with both God and our friends, which helps us reach out to those we love?" Faehnle and Jaminet answer these questions and more by employing Church teaching and telling us stories of their own friendships and those from the lives of saints and biblical women—including the Blessed Virgin Mary and St. Elizabeth, St. Thérèse of Lisieux and her sister Servant of God Léonie, and Sts. Perpetua and Felicity. Not only will you be drawn closer to friends both new and old but you'll also be reminded how these friendships—and the virtues you practice to nurture them—draw you closer to God. Prayers, discussion questions, and a study guide make this a perfect resource for women's groups

church lesson plans pdf: Why Can't Church Be More Like an AA Meeting?

Stephen R. Haynes, 2021-10-26 Do Christians need recovery? Or is recovery something needed by the church itself? Addiction—whether to a substance or to a behavior—is a problem within faith communities, just like it is everywhere else. But because churches are rarely experienced as safe places for dealing with addiction, co-addiction, or the legacy of family dysfunction, Christians tend to seek recovery from these conditions in Twelve-Step fellowships. Once they become accustomed to the ethos of vulnerability, acceptance, and healing that these fellowships provide, however, they are often left feeling that the church has failed them, with many asking: why can't church be more like an AA meeting? Inspired by his own quest to find in church the sort of mutual support and healing he

discovered in Twelve-Step fellowships, Stephen Haynes explores the history of Alcoholics Anonymous and its relationship to American Christianity. He shows that, while AA eventually separated from the Christian parachurch movement out of which it emerged, it retained aspects of Christian experience that the church itself has largely lost: comfort with brokenness and vulnerability, an emphasis on honesty and transparency, and suspicion toward claims to piety and respectability. Haynes encourages Christians to reclaim these distinctive elements of the Twelve-Step movement in the process of “recovering church.” He argues that this process must begin with he calls “Step 0,” which, as he knows from personal experience, can be the hardest step: the admission that, despite appearances, we are not fine.

church lesson plans pdf: *Challenges to European Welfare Systems* Klaus Schubert, Paloma de Villota, Johanna Kuhlmann, 2016-02-08 This book provides the first comprehensive analyses of the challenges all European welfare systems have been facing since 2007, combining in-depth country-based studies and comparative chapters. It focuses on: 1) the economic and financial crisis, 2) demographic change, and 3) the balance between avoiding risks and opening up opportunities in social policy. The results show that European welfare systems tend to face the same challenges in different ways and that also their responses to those challenges differ considerably. Although the EU also plays a part in shaping national welfare systems, it becomes evident that European welfare systems are by no means converging: in terms of social policy, national diversity within Europe is still a major factor that will shape future developments in European welfare systems.

church lesson plans pdf: *The Disfiguration of Nature* James G. Krueger, 2018-10-18 Good stewardship of nature and the earth—those foundations upon which life depends—is our most pressing challenge, requiring a monumental and relentlessly single-minded unity of purpose. Yet in America, the cause of conservation suffers while the political Left and Right conduct an endless tug of war. The result is stalemate and inaction. James Krueger shows how this state of affairs stems from a widespread—and unnecessary—confusion in thinking about conservation. He explores the movement’s beginnings and its profound and enduring connection with such traditional pro-life and pro-family values of stability, self-discipline, morality, and community, which could again be called upon to undergird a robust conservationist ethic. At the same time, Krueger embarks on a provocative questioning of values dear to the liberal Left—having to do with gender, family, economics, and individual rights—to ask whether these are not, at their core, violently opposed to the very nature liberal-minded people claim to champion and protect. *The Disfiguration of Nature* invites us to disconnect from our destructive illusions about both nature and ourselves in favor of a humble yet constructive—and eventually powerful—understanding, the kind that can create a desperately needed common ground in service of our shared American landscape and the promise of sound human culture upon it.
