christine weston chandler: Betrayal Dr. Carolyn LaDelle Bennett, 2020-04-13 Betrayal goes to the heart of US officials' (and their partners') self-serving injury to the health and welfare of the United States and the world. US public officials' abandonment of public health for private wealth leaves the world and nation reeling from one USA-made (deliberate) crisis—of violence and disease, hunger and homelessness, deterioration and diminishment of quality conditions in workplaces and public education—to another. Their all-round acts of “legalized” corruption, their international crimes with impunity, and their deregulation-driven denial of essential needs such as clean water and air, food and work safety, shelter, and life itself constitute ultimate and everlasting betrayal. The nonfiction account in the areas of US politics, domestic affairs and foreign relations, leadership, law and democracy, and war and peace cites examples of callous, crisis-driven betrayal.

christine weston chandler: Gaming the Dynamics of Online Harassment Kevin Veale,

2020-11-12 This book argues that online harassment communities function as Alternate Reality Games (ARGs) where the collective goal is to ruin peoples' lives. Framing these communities like ARGs highlights ways to limit their impact in the future, partly through offering people better ways to control their own safety online. The comparison also underlines the complicity of social networks in online harassment, since the communities use their designs as tools. Social networks know this, and need to work on minimizing the problem, or acknowledge that they are profiting through promoting abuse.

christine weston chandler: *The Reckoning* Kara Dansky, 2023-11-14 "This is a very good book and I swear I'm not just saying that because I'm quoted in it." — J.K. Rowling In *The Reckoning*, Kara Dansky, a radical feminist and lifelong Democrat, exposes the invasion by men into female-only spaces, the harming of children, and the silencing, punishment, cancellation and even violence against women who speak out. Meanwhile, the Democratic Party, which claims to represent the interests of women, ignores the problem, while its allies in the organized Left and mainstream media paint all opposition to the "trans" agenda as "right wing." But radical feminists are not "right wing." They are leftists who know that sex is real and are not afraid to demand women's hard-won rights to safe spaces and privacy. The Democrat-Left wing establishment knows all the ways in which "gender identity" harms women and girls—and plenty of boys. Yet they are sacrificing women and children to a vicious profit-driven industry that allows men to invade women's spaces and sports, denies that sex is real, and slices up children's bodies. Now the Democrats are facing a reckoning. Detransitioners are starting to speak out, clinicians are blowing the whistle, and women and girls, including many lesbians, have had it. Even now, the tide of common sense and decency is starting to turn in other countries that have banned harmful medical and surgical procedures for underage children and a handful of Democrats are bucking the trend at the state level. Elected Democrats will later claim they didn't know, that they couldn't have known, that the science has changed. But they knew. They have known all along. This book provides the evidence.

christine weston chandler: *Stream Big* Nathan Grayson, 2025-02-18 Told through the diverse and fascinating careers of nine streamers, this is the definitive story of Twitch and how the livestream platform revolutionized technology, entertainment, business, and pop culture. With 2.5 million viewers at any given moment, the streaming platform Twitch is in the lead and often well beyond mainstream networks like CNN and Fox during primetime. On Twitch, the Amazon-owned tech behemoth, the biggest personalities, like Kai Cenat, Félix "xQc" Lengyel, and Hasan "HasanAbi" Piker, can earn millions per year by firing up their internet connection and going live. Veteran technology and gaming journalist Nathan Grayson takes us inside the triumphs and tribulations of Twitch with exclusive access to its biggest content creators who helped make the platform into a billion-dollar global business. From Twitch's early days of rapid growth to acquisition by Amazon to the defection of creators and rival platforms, Grayson makes the radical argument that many social technology companies are far more dependent on their creators than the creators are on their platforms. Rivetingly told through nine exceptional Twitch creators whose on-screen personalities helped the company grow into a powerhouse, this is the explosive story of when entertainment meets the internet in the era of social and video content domination.

christine weston chandler: *DreamWorks Animation* Sam Summers, 2020-06-30 DreamWorks is one of the biggest names in modern computer-animation: a studio whose commercial success and impact on the medium rivals that of Pixar, and yet has received far less critical attention. The book will historicise DreamWorks' contribution to feature animation, while presenting a critical history of the form in the new millennium. It will look beyond the films' visual aesthetics to assess DreamWorks' influence on the narrative and tonal qualities which have come to define contemporary animated features, including their use of comedy, genre, music, stars, and intertextuality. It makes original interventions in the fields of film and animation studies by discussing each of these techniques in a uniquely animated context, with case studies from *Shrek*, *Antz*, *Kung Fu Panda*, *Madagascar*, *Shrek*, *Trolls* and many others. It also looks at the unusual online afterlife of these films, and the ways in which they have been reappropriated and

remixed by subversive online communities.

christine weston chandler: Event Horizon Bonni Rambatan, 2022-01-28 In an age where Silicon Valley dictates what it means to innovate a painless future, knowledge and enjoyment are fertile breeding grounds of political contestation. But it's not exactly democracy. We are controlled through platforms that turn us into data for the profit of billionaires. Control has become so playful that we carry it in our pockets, as we continue to crave likes and followers. What is to be done? Should the Left continue to cling to the promise of a political Event, patiently waiting for a revolutionary rupture where new possibilities emerge? Is there a way to delineate its horizons amidst the chaos? Through a psychoanalytic interrogation of the intersections of online culture, sexuality, and politics, Bonni Rambatan and Jacob Johanssen explore such horizons at the limits of capitalism. Event Horizon examines how capitalist ideology functions in our current moment, and, more importantly, how it breaks down. With the increasing urgency of formulating a proper Leftist response to the rapidly growing violence that seriously threatens the lives of marginalised communities, this book could not be more timely.

christine weston chandler: Tell about Night Flowers Julia Eichelberger, 2015-07-08 Tell about Night Flowers presents previously unpublished letters by Eudora Welty, selected and annotated by scholar Julia Eichelberger. Welty published many of her best-known works in the 1940s: A Curtain of Green, The Wide Net, The Robber Bridegroom, Delta Wedding, and The Golden Apples. During this period, she also wrote hundreds of letters to two friends who shared her love of gardening. One friend, Diarmuid Russell, was her literary agent in New York; the other, John Robinson, was a high school classmate and an aspiring writer who served in the Army in WWII, and long the focus of Welty's affection. Welty's lyrical, witty, and poignant discussions of gardening and nature are delightful in themselves; they are also figurative expressions of Welty's views of her

writing and her friendships. Taken together with thirty-five illustrations, they form a poetic narrative of their own, chronicling artistic and psychic developments that were underway before Welty was fully conscious of them. By 1949 her art, like her friendships, had evolved in ways that she would never have predicted in 1940. Tell about Night Flowers not only lets readers glimpse Welty in her garden; it also reveals a brilliant and generous mind responding to the public events, people, art, and natural landscapes Welty encountered at home and on her travels during the 1940s. This book enhances our understanding of the life, landscape, and art of a major American writer.

christine weston chandler: *The Poorhouses of Massachusetts* Heli Meltsner, 2014-01-10 Ever since the English settled in America, extreme poverty and the inability of individuals to support themselves and their families have been persistent problems. In the early nineteenth century, many communities established almshouses, or poorhouses, in a valiant but ultimately failed attempt to assist the destitute, including the sick, elderly, unemployed, mentally ill and orphaned, as well as unwed mothers, petty criminals and alcoholics. This work details the rise and decline of poorhouses in Massachusetts, painting a portrait of life inside these institutions and revealing a history of constant political and social turmoil over issues that dominate the conversation about welfare recipients even today. The first study to address the role of architecture in shaping as well as reflecting the treatment of paupers, it also provides photographs and histories of dozens of former poorhouses across the state, many of which still stand.
