catholic ceremonies text online: Religion Online August E. Grant, Amanda F. C. Sturgill, Chiung Hwang Chen, Daniel A. Stout, 2019-03-07 Religion Online provides new insights about religiosity in a contemporary context, offering a comprehensive look at the intersection of digital media, faith communities, and practices of all sorts. Recent research on Apple users, video games, virtual worlds, artificial intelligence, digital music, and sports as religion supports the idea that media and religion, once considered separate entities, are in many cases the same thing. New media and religious practice can no longer be detached; this two-volume set discusses how religionists are embracing the Internet amidst cultural shifts of secularization, autonomous religious worship, millennials' affinity for new media, and the rise of fundamentalism in the global south. While other works describe case studies, this book explains how new media are interwoven into the very fabric of religious belief, behavior, and community. Chapters break down the past, present, and projected future of the use of digital media in relation to faith traditions of many varieties, extending from mainline Christianity to new religious movements. The book also examines the impacts of digital media on beliefs and practices around the world. In exploring these subjects, it calls on the study of culture, namely anthropology, to conceptualize a technological period as significant as the industrial revolution.

catholic ceremonies text online: *Rituals and Music in Europe* Daniel Burgos, 2024-06-14 This book explores modern European religious and non-religious rituals and their main features by focusing on music as a key element required for the full expression of beliefs. It specifically examines the relationship between religious, non-religious, pagan, cultural, celebratory, and traditional rituals. In doing so, this text focuses on the extent to which the rituals overlap, replace, or feed religious or pseudo-religious beliefs to create alternative beliefs (individual or collective) that systematically ignore any religion. The book further analyses the relationship between daily habits, holidays, sports, politics, culture, and other pagan rituals as forms that represent social feelings by identifying, enjoying, or impersonating emotions; and transversally, it explores how music facilitates and fosters those emotions. The volume also investigates how rituals coexist and mutually influence each other through a representation of religious and non-religious rituals, and how music plays a central role in that phenomenology. The author argues that music is a key part of various types of rituals (e.g. rites of passage), and that music supports and enriches the meaning of the ritual, to ultimately strengthen the bond of communication with the individual and the group. This monograph appeals to students and researchers working in religious studies and in music theory.

catholic ceremonies text online: *Malaysian Christians Online* Meng Yoe Tan, 2020-02-26 Many facets of social life are now intrinsically linked to the Internet through increasing dependence of user-centric platforms like blogs, social-networking websites, online forums, and open source websites. The Malaysian Church is not exempt from having to negotiate with an increasingly tech-savvy and networked community of believers. Based primarily on Internet ethnography and interviews with Christian bloggers and church pastors, this book looks at how the Internet is a component of "everyday religion" in the lives of Malaysian Christians at individual, institutional, and national levels. It examines the ways in which online Christian expressions are increasingly integrated into the everyday religious routines of Christians for the development of their personal identities and inter-religious interactions. This book also shows how the spiritual authority of church pastors can be both challenged and reinforced through the creative use of online tools. It addresses some of the creative ways in which Christians utilise the Internet to engage with national socio-political issues within the context of restrictive and controlled mainstream media, as well as the ongoing discourse with Islam in the country. Through a selection of case studies, this book shows that while the Internet may be "free", the users of the Internet are not necessarily so. While the Internet has provided Malaysian Christians with new tools to experience their faith in new ways, several aspects of "old" offline socio-cultural habits persist online. These, in turn, lead to a robust and growing environment of Internet Christianity in Malaysia. This timely book will be of interest to scholars in religious studies, media and communications, and cultural studies in Southeast Asia.

catholic ceremonies text online: Ritual and Social Dynamics in Christian and Islamic Preaching Ruth Conrad, Roland Hardenberg, Hanna Miethner, Max Stille, 2023-12-14 Christian and Islamic sermons from past and present, and their preachers, are analyzed to reveal the socio-cultural dynamics of religious speeches. Part I focuses on the explicit contribution of sermons in socio-cultural transformation processes. It shows how sermons connect with holy texts, religious norms of the specific group, and social-cultural contexts. Part II analyzes the dynamic tension between normativity and popularity. Rather than juxtaposing normative stances and the popularity of sermons, it shows how that normativity can itself contribute to popularity and the quest of popularity carries its own normative stances. Part III explores the ritual embeddedness of religious speech in the sermon in relation to social dynamics, normativity, and popularity, and shows how speech and rituals have a reciprocal relationship.

catholic ceremonies text online: The Bible in Worship Victoria Raymer , 2018-02-27 Biblical proclamation is central to Christian worship. The Bible witnesses to the foundational experiences of the Church. Its proclamation invites worshippers into encounter with Christ, the living Word. The Bible in Worship seeks to make visible how the Bible is encountered in the worship of mainstream Western churches. Focusing in turn on the Roman Catholic, Reformed and Anglican traditions, Victoria Raymer offers a detailed and lively consideration of the contemporary practices of proclamation in each, considers their respective patterns of reading the Bible as part of public worship, and reflects on the place the Bible takes in daily prayer. Raymer also draws our attention towards the role the psalms play in contemporary formal liturgy, and offers a chapter on how the Bible is weaved into less formal forms of worship, including contemporary sung worship. Offering a truly holistic study of the scripture in worship, the book will resource readers to reflect on how proclamation invites response in understanding and resolve, and to consider how it might do so more effectively.

catholic ceremonies text online: *Handbook of Global Contemporary Christianity* , 2016-04-26
The Handbook of Global Contemporary Christianity: Movements, Institutions & Allegiance traces how the largest religion in the world continues to be expressed in energetic global dynamic forms. In contemporary times Christianity is increasingly exposed to divisions, not only through its traditional channels – Roman Catholic, Protestant and the Orthodoxy – nor conservative and liberal streams, but numerous nuanced articulations. This is reflected in the roles of clergy and lay people, in organisational dynamics, sources of allegiance and articulations of the faith, movements of renewal and revivalism, syncretic modes, and broader relationships with wider cultural trajectories and changing social circumstances. Collectively the contributors to this volume offer a comprehensive exploration of these themes. The volume is a companion to the Handbook of Global Contemporary Christianity.

Publisher Description

catholic ceremonies text online: *The Oxford Handbook of Ritual Language* David Tavárez, 2024-11-04
This volume brings together representative case studies and surveys that explore research into ritual language, covering theoretical and methodological approaches that reflect traditional inquiries and more recent studies. This recent literature contends that ritual language hinges on the construction of authoritative ontological models about the cosmos and its inhabitants. Ritual speech also orchestrates performances that articulate representations of collective identities, and rests on the diversity of hierarchical forms of authoritative knowledge, displayed in both oblique and direct terms. Moreover, performances, texts, and narratives associated with ritual practices are closely entwined with historical accounts that navigate current memories, recast in a diversity of ways, about ancestral beings and distant or recent pasts, or delimit a terrain in which dialectical relationships with colonial hegemony and Christian indoctrination emerge to transform the social order. Ritual narrative often offers in its structure and delivery momentous representation of the social order, social institutions, social difference, and collective identities, and may also be constituted by claims about relations among species, non-human actors, and material culture. The Oxford Handbook of Ritual Language addresses foundational questions regarding the scope, structuring, use, and consequences of ritual language. The chapters examine the relationship between speakers' consciousness and verbal ritual performances, and between ritual language, hegemony, collective authority, and the social world. As the study of ritual speech hinges on extensive analyses of linguistic choices and styles, the contributors draw on data from a wide range of language groups and societies in the Americas, the Middle East, the Pacific, South Asia, and the Indian Ocean.

catholic ceremonies text online: Christ Versus. Satan in Our Daily Lives Robert Spitzer, 2020-10-27 Spiritual writer, theologian, and philosopher Jesuit Fr. Robert Spitzer tackles the topic of recognizing and overcoming spiritual evil. His focus is the human heart. His goal: our moral and spiritual transformation, which leads to true peace and genuine happiness. The book is divided into two main parts: the realities of God's goodness and of spiritual evil, and recognizing and overcoming diabolical tactics, which range from temptation and deception to the Deadly Sins. Father Spitzer shows readers how to experience God's peace even during times of suffering and persecution. He examines the basics of the spiritual life and Christian mysticism, including the contemplative dimension. He explains the purgative, illuminative, and unitive aspects of spirituality, as well as the Lord's consolation and the passive Dark Night of the Spirit. Father Spitzer provides the biblical and theological background of Jesus' victory over Satan. The author also explores the reality of the Devil, including extraordinary manifestations of diabolic activity such as possession. He recalls the true story of the famous possession case on which the novel and film *The Exorcist* were based. In the final sections of the book the author explains: how diabolical spiritual forces operate how temptation works, and what to do to defeat it the deadly sins and how to overcome them

catholic ceremonies text online: Language in the Liturgy Barry Spurr, 2025-01-01

Language in the Liturgy is an historically-based, linguistically-focused account of the development of liturgical language in English in the Anglican and Roman Catholic Churches over the past half-century. It analyses issues of style and expression in a wide range of texts, setting this analysis within larger contexts of ecclesiastical and societal change since the 1970s. The Book of Common Prayer is taken as the benchmark of classical liturgical composition in English, not only because it was the first liturgy to be composed in the language, but also because of the universally acknowledged beauty of it. Professor Spurr makes a detailed comparative and analytical linguistic study of the Prayer Book and the liturgies composed in English in the modern idiom. He argues for a 'renewal of the renewal' by the restoration of an appropriate solemnity and sacredness of linguistic expression, as exemplified in the traditional Prayer Book rites. The book also includes chapters on the role of music and of silence in worship. This stimulating study will be of interest to all concerned about the future direction of liturgies in English in the Anglican and Roman Catholic Churches.
