christian teachings pdf: Religion in Secular Education Cathy Byrne, 2014-01-09 Cathy Byrne presents the secular principle as a guiding compass for religion in government schools in plural democracies. Using in-depth case studies, historical and contextual research from Australia, and comparisons with other developed nations, Religion in Secular Education provides a comprehensive, at times confronting, analysis of the ideologies, policies, pedagogies, and practices for state-school religion. In the context of rising demands for students to develop intercultural competence and interreligious literacy, and alongside increasing Christian evangelism in the public arena, this book highlights risks and implications as education develops religious identity – in individual children and in nation states. Byrne proposes a best practice framework for nations attempting to navigate towards socially inclusive outcomes and critical thinking in religions education policy.

christian teachings pdf: Entwicklung und Evaluation eines Lernangebots im Lehramtsstudium Chemie zur Förderung von Vernetzungen innerhalb des fachbezogenen

Professionswissens Jenny Lorentzen , 2020-05-30 Sowohl die institutionelle Segmentierung der gymnasialen Lehrkräftebildung in Deutschland in einzelne Phasen als auch die institutionelle und inhaltliche Trennung sowie die fehlende Vernetzung der fachwissenschaftlichen, fachdidaktischen und bildungswissenschaftlichen Studienanteile begünstigen, dass Lehramtsstudierende häufig Schwierigkeiten haben, die Berufsrelevanz von insbesondere fachwissenschaftlichen Studieninhalten wahrzunehmen. Daraus können sich ungünstige Ausgangsbedingungen für die Lernmotivation und den Studienerfolg ergeben, die in einem mangelhaften Aufbau des Professionswissens der angehenden Lehrkräfte resultieren können. Zur Erhöhung der wahrgenommenen Berufsrelevanz fachwissenschaftlicher Studieninhalte werden Ansätze, die auf eine frühzeitige Vernetzung des Professionswissens fokussieren, als mögliche Lösungen diskutiert. Daher war es das zentrale Ziel dieser Arbeit, ein Lernangebot für das Lehramtsstudium Chemie zu entwickeln und zu evaluieren, welches die Vernetzungen sowohl innerhalb der fachwissenschaftlichen Inhalte als auch zwischen den fachwissenschaftlichen und fachdidaktischen Inhalten durch berufsbezogene Anwendungssituationen fördert. Das Lernangebot wurde in einem experimentellen Ansatz als Interventionsstudie (N=55) im Prä-Post-Testdesign mit Kontrollgruppe evaluiert. Es zeigte sich, dass die wahrgenommene Berufsrelevanz der behandelten Fachinhalte durch das Lernangebot gesteigert werden konnte.

christian teachings pdf: Theological Education and Christian Scholarship for Human Flourishing Celucien L. Joseph, 2022-09-14 This book explores the interconnection of theological education and Christian scholarship, cultural and theological hermeneutics, pedagogy and community knowledge, democracy and citizenship. Yet, the three major disciplines or discourses covered in this work include multicultural education, theology, and hermeneutics through the lens of human flourishing and the concept of the good life. From this angle, this project is written from three different methods and approaches that intersect with each other: a theology of contextualization, a hermeneutics of interculturality, and a pedagogy of cultural literacy and transformative community knowledge. The book advances the idea that theological education should be the starting point to foster candid conversations about the importance of democracy and human rights, civic engagement and the political life, inclusion and diversity, and pluralism and difference in our multicultural society. The book uses the tools of multicultural education and cultural knowledge to enhance democracy and promote fundamental human virtues that would sustain the good life and human flourishing in the world--in the Aristotelian sense and in the Socratic idea of local and world citizenship. Finally, this text offers an alternative vision to contemporary theological education, to deconstruct the white, male, and Eurocentric narratives of theological education and Christian scholarship.

christian teachings pdf: Discovery Teaching Like Jesus Kathy Hoppe, Jeff Hoppe, 2020-04-29 Discovery Teaching Like Jesus critiques the current assumptions, models, and delivery methods of adult religious education. Based on a constructivist theory, it examines the unique ways in which Jesus proclaimed his message to followers and then applies that to current teaching practices in religious settings. It focuses on adult learning theory (andragogy) and transformative learning while applying the discovery teaching methods in adult spiritual formation classes and groups. The authors identify four ways that Jesus implements constructivist methods: he creates teachable moments, he employs powerful narratives, he sparks curiosity, and he makes his listeners think. Using these techniques as a framework, the authors demonstrate how to use these in adult religious education settings. In the final section, the authors offer suggestions for excellence in teaching through recruiting, training, and supporting reflective teachers. Included in this final section are ways that adult facilitators can use self-reflection and examination to enhance their teaching ability.

christian teachings pdf: Innovating Christian Education Research Johannes M. Luetz, Beth Green, 2021-01-04 This book reformulates Christian education as an interdisciplinary and interdenominational vocation for professionals and practitioners. christian teachings pdf: Teaching Virtue Marius Felderhof, Penny Thompson, 2014-11-20 In much of the world, religious traditions are seriously valued but, in the context of religious plurality, this sets educationalists an enormous challenge. This book provides a way forward in exploring religious life whilst showing how bridges might be built between diverse religious traditions. Teaching Virtue puts engagement with religious life - and virtue ethics - at the heart of religious education, encouraging 'learning from' religion rather than 'learning about' religion. The authors focus on eight key virtues, examining these for what they can offer of religious value to pupils and teachers. Individual chapters put the discussion into context by offering a vision of what religious education in the future could look like; the need for responsible religious education; a historical review of moral education and an introduction to virtue ethics. Lesson plans and examples demonstrate how the virtues may be approached in the classroom, making it an invaluable guide for all involved in teaching religious education.

christian teachings pdf: *Religious Education in a Global-Local World* Jenny Berglund, Yafa Shanneik, Brian Bocking, 2016-07-15 This book examines Religious Education (RE) in over ten countries, including Australia, Indonesia, Mali, Russia, UK, Ireland, USA, and Canada. Investigating RE from a global and multi-interdisciplinary perspective, it presents research on the diverse past, present, and possible future forms of RE. In doing so, it enhances public and professional understanding of the complex issues and debates surrounding RE in the wider world. The volume emphasizes a student-centred approach, viewing any kind of 'RE', or its absence, as a formative lived experience for pupils. It stresses a bottom-up, sociological and ethnographic/anthropological research-based approach to the study of RE, rather than the 'top down' approaches which often start from prescriptive legal, ideological or religious standpoints. The twelve chapters in this volume regard RE as an entity that has multiple and contested meanings and interpretations that are constantly negotiated. For some, 'RE' means religious nurturing, either tailored to parental views or meant to inculcate a uniform religiosity. For others, RE means learning about the many religious and non-religious world-views and secular ethics that exist, not promoting one religion or another. Some seek to avoid the ambiguous term 'religious education', replacing it with terms such as 'education about religions and beliefs' or 'the religious dimension of intercultural education'.

christian teachings pdf: *Crisis, Controversy and the Future of Religious Education* L. Philip Barnes, 2019-12-05 *Crisis, Controversy and the Future of Religious Education* sets out to provide a much-needed critical examination of recent writings that consider and respond to the crisis in religious education and more widely to a crisis in non-confessional forms of religious education, wherever practised. The book is critical, wide-ranging and provocative, giving attention to a range of responses, some limited to the particular situation of religious education in England and some of wider application, for example, that of the role and significance of human rights and that of the relevance of religious studies and theology to religious education. It engages with a variety of positions and with recent influential reports that make recommendations on the future direction of religious education. Constructively, it defends both confessional and non-confessional religious education and endorses the existing right of parental withdrawal. Controversially, it concludes that the case for including non-religious worldviews in religious education, and for the

introduction of a statutory, 'objective' national religious education curriculum for all schools, are both unconvincing on educational, philosophical and evidential grounds. Timely and captivating, this book is a must-read for religious and theological educators, RE advisers, classroom teachers, student teachers and those interested in the field of religious education.

Liam Gearon pays close attention to debates around religion in liberal democratic societies, looking at topics such as citizenship, human rights, and identity.

christian teachings pdf: English Teaching and Evangelical Mission Bill Johnston, 2017-01-25 Debates about the place of mission work in English Language Teaching continue to rage, and yet full-length studies of what really happens at the intersection of ELT and evangelical Christianity are rare. In this book, Johnston conducts a detailed ethnography of an evangelical language school in Poland, looking at its Bible-based curriculum, and analyzing interaction in classes for adults. He also explores the idea of 'relationship' in the context of the school and its mission activity, and more broadly the cultural encounter between North American evangelicalism and Polish Catholicism. The book comprises an in-depth examination of a key issue facing TEFL in the 21st century, and will be of interest to all practitioners and scholars in the field, whatever their position on this topic.
