caribbean literature ebook: Caribbean Literature in Transition, 1800-1920: Volume 1

Evelyn O'Callaghan, Tim Watson, 2021-01-14 This volume examines what Caribbean literature looked like before 1920 by surveying the print culture of the period. The emphasis is on narrative, including an enormous range of genres, in varying venues, and in multiple languages of the Caribbean. Essays examine lesser-known authors and writing previously marginalized as nonliterary: popular writing in newspapers and pamphlets; fiction and poetry such as romances, sentimental novels, and ballads; non-elite memoirs and letters, such as the narratives of the enslaved or the working classes, especially women. Many contributions are comparative, multilingual, and regional. Some infer the cultural presence of subaltern groups within the texts of the dominant classes. Almost all of the chapters move easily between time periods, linking texts, writers, and literary movements in ways that expand traditional notions of literary influence and canon formation. Using literary, cultural, and historical analyses, this book provides a complete re-examination of early Caribbean literature.

caribbean literature ebook: [Caribbean Literature in Transition, 1970-2020: Volume 3](#) Ronald Cummings, Alison Donnell, 2021-01-14 The period from the 1970s to the present day has produced an extraordinarily rich and diverse body of Caribbean writing that has been widely acclaimed. *Caribbean Literature in Transition, 1970-2020* traces the region's contemporary writings across the established genres of prose, poetry, fiction and drama into emerging areas of creative non-fiction, memoir and speculative fiction with a particular attention on challenging the narrow canon of Anglophone male writers. It maps shifts and continuities between late twentieth century and early twenty-first century Caribbean literature in terms of innovations in literary form and style, the changing role and place of the writer, and shifts in our understandings of what constitutes the political terrain of the literary and its sites of struggle. Whilst reaching across language divides and multiple diasporas, it shows how contemporary Caribbean Literature has focused its attentions on social complexity and ongoing marginalizations in its continued preoccupations with identity, belonging and freedoms.

caribbean literature ebook: [The Routledge Introduction to English Canadian Literature and Digital Humanities](#) Paul Barrett, Sarah Roger, 2025-06-30 *The Routledge Introduction to English Canadian Literature and Digital Humanities* is a guide to the concepts and theories at the intersection of Canadian literary studies and digital humanities (DH). Equal parts theoretical and practical, it focuses on debates that overlap the two domains. This book historicizes the connections between the two by surveying the history of DH in Canada, the tradition of Canadian writers engaging with technology, and DH analyses of Canadian literature. It also situates both CanLit and DH with respect to contemporary concerns about alterity, and it demonstrates how digital technologies allow writers and scholars to intervene in them. This book complements its theoretical discussions with a practical introduction to DH methods. Using Canadian literary texts and examples from projects at the intersection of CanLit and DH, it introduces key DH approaches to novice readers. Topics covered include data collection, data management, and textual analysis, as well as essential DH tools and the Python programming language. A concluding case study guides readers interested in applying the ideas presented throughout.

caribbean literature ebook: [The Digital Black Atlantic](#) Roopika Risam, Kelly Baker Josephs, 2021-03-16 Exploring the intersections of digital humanities and African diaspora studies How can scholars use digital tools to better understand the African diaspora across time, space, and disciplines? And how can African diaspora studies inform the practices of digital humanities? These questions are at the heart of this timely collection of essays about the relationship between digital humanities and Black Atlantic studies, offering critical insights into race, migration, media, and scholarly knowledge production. *The Digital Black Atlantic* spans the African diaspora's range—from Africa to North America, Europe, and the Caribbean—while its essayists span academic fields—from history and literary studies to musicology, game studies, and library and information studies. This transnational and interdisciplinary breadth is complemented by essays that focus on specific sites and digital humanities projects throughout the Black Atlantic. Covering key debates, *The Digital Black Atlantic* asks theoretical and practical questions about the ways that researchers and teachers of the African diaspora negotiate digital methods to explore a broad range of cultural forms including social media, open access libraries, digital music production, and video games. The volume

further highlights contributions of African diaspora studies to digital humanities, such as politics and representation, power and authorship, the ephemerality of memory, and the vestiges of colonialist ideologies. Grounded in contemporary theory and praxis, *The Digital Black Atlantic* puts the digital humanities into conversation with African diaspora studies in crucial ways that advance both.

caribbean literature ebook: Literary Research and Postcolonial Literatures in English H.

Faye Christenberry, Angela Courtney, Liorah Golomb, Melissa S. Van Vuuren, 2012-08-08

Postcolonial literatures can be defined as the body of creative work written by authors whose lands were formerly subjugated to colonial rule. In previous volumes of this series, the research literature of former British colonies Australia, Canada, Ireland, and New Zealand have been addressed. This volume offers guidance for those researching the postcolonial literature of the former British colonies in Africa, the Caribbean, and South Asia. Among the forty nations represented in this volume are South Africa, India, Pakistan, Ghana, Jamaica, Swaziland, Belize, and Namibia. With the exception of South Africa (which formed the Union of South Africa in 1910), this guide picks up its coverage in 1947, when both India and Pakistan gained their independence. The literature created by writers from these nations represents the diverse experiences in the postcolonial condition and are the subject of this book. The volume provides best-practice suggestions for the research process and discusses how to take advantage of primary text resources in a variety of formats, both digital and paper based: bibliographies, indexes, research guides, archives, special collections, and microforms.

Zaidi, A. Sean Pue, 2022-12-29 This book explores the use of digital humanities (DH) to understand, interpret, and annotate the poetics of Indian literary and cultural texts, which circulate in digital forms — in manuscripts — and as oral or musical performance. Drawing on the linguistic, cultural, historical, social, and geographic diversity of Indian texts and contexts, it foregrounds the use of digital technologies — including minimal computing, novel digital humanities research and teaching methodologies, critical archive generation and maintenance — for explicating poetics of Indian literatures and generating scholarly digital resources which will facilitate comparative readings. With contributions from DH scholars and practitioners from across India, the United States, the United Kingdom, and more, this book will be a key intervention for scholars and researchers of literature and literary theory, DH, media studies, and South Asian Studies.

caribbean literature ebook: African Literature in the Digital Age Shola Adenekan, 2021

The digital space provides a new avenue to move literature beyond the restrictions of book publishing on the continent. Arguing that writers are putting their work on cyberspace because communities are emerging from this space, and because increasing numbers of Africans use the internet as part of their day-to-day engagement with their societies and the world, Shola Adenekan explores this transformative development in Nigeria and Kenya, both significant countries in African literature and two of the continent's largest digital technology hubs. Queer Kenyans and Nigerians find new avenues for their work online where print publishers are refusing to publish short stories and poems on same-sex desire. Binyavanga Wainaina's rise to critical acclaim arguably started on the literary blog *Generator 21*. Chimamanda Ngozi Adichie's literary celebrity partly relies on her

prolific use of social media to tell the story of powerful Nigerian women. With further examples from the development of literature across the continent, this innovative book sheds new light on narratives about digital Africa. It will also be the first major work to provide a trajectory of class consciousness in Kenyan and Nigerian writing. Through this analysis, the book articulates the difference in attitudes towards queerness, sexuality, and hetero-normativity among successive generations of writers. SHOLA ADENEKAN is an Assistant Professor of Literary and Cultural Analysis at the University of Amsterdam, the Netherlands, and also the publisher of [Thenewblackmagazine.com](http://thenewblackmagazine.com). He was previously a Researcher and Tutor in African Literatures and Cultures at the University of Bremen, Germany, and a postdoctoral researcher at the University of Bayreuth, Germany.

caribbean literature ebook: Archiving Creole Voices Marl'ene Edwin, 2024-12-10 Archiving Creole Voices: Representations of Language and Culture begins with a re-reading of selected texts by female Caribbean writers, specifically, Joan Anim-Addo, Olive Senior and Merle Collins and proclaims that literary fiction can and does function as a 'creolised archive'. Marl'ene Edwin argues that historic marginalisation, which has barred Caribbean scholars from entering 'formal' archival spaces, has created an alternative discourse. Consequently, Caribbean writers have chosen the imagined landscapes of literature, a new archival space for the Caribbean, within which to document and preserve Caribbean cultural traditions. Fiction allows for the safeguarding of traditions, so how then should Caribbean literature be read? The combination of a physical and a virtual archive, questions the literary and linguistic interface that such a mingling entails in a preservation of Caribbean culture. Edwin argues for an appreciation of orality as performance as well as the reading of texts as 'creolised archive.'

caribbean literature ebook: Memory Studies in the Digital Age D Sudha Rani, Rachel Irdaya Raj, 2025-02-25 This interdisciplinary volume attempts to gauge the individual and social issues related to memory, with an understanding of memory studies as an independent body of scholarship. It draws on multiple fields of knowledge, like popular culture, history, literature, oral cultures, and storytelling, which facilitates a panoramic view of memory studies. This book investigates the intersection between memory studies, partition, oral literature, and digital technology. It is also informed by the consciousness of memory in the digital age, which plays an integral role in what is remembered/forgotten, the form in which such memories are stored, and how they might be retrieved in future. This book will be an invaluable resource for those involved in research from undergraduate to post-doctoral level. This includes sociologists, psychologists, historians, artists, academicians, as well as research scholars from other disciplines.

caribbean literature ebook: Transformative Digital Humanities Mary McAleer Balkun, Marta Mestrovic Deyrup, 2020-04-23 Transformative Digital Humanities takes a two-pronged approach to the digital humanities: it examines the distinct kinds of work currently being undertaken in the field, while also addressing current issues in the digital humanities, including sustainability, accessibility, interdisciplinarity, and funding. With contributions from humanities and LIS scholars based in China, Canada, England, Germany, Spain, and the United States, this collection of case studies provides a framework for readers to develop new projects as well as to see how existing projects might continue to develop over time. This volume also participates in the current digital humanities conversation by bringing forward emerging voices that offer new options for cooperation, by demonstrating how the digital humanities can become a tool for activism, and by

illustrating the potential of the digital humanities to reexamine and reconstitute existing canons. Transformative Digital Humanities considers what sorts of challenges still exist in the field and suggests how they might be addressed. As such, the book will be essential reading for academics and students engaged in the study of information science and digital humanities. It should also be of great interest to practitioners around the globe.
