business law textbook 17th edition: Commercial Law of the European Union Gabriël Moens, John Trone, 2010-04-23 ? The Hon. Michael Kirby AC CMG This splendid book performs the heroic task of introducing readers to the large canvas of the commercial law of the European Union (EU). The EU began as an economic community of six nations but has grown into 27 member states, sharing a significant political, social and legal cohesion and serving almost 500 million citizens. It generates approximately 30% of the nominal gross world product. The EU is a remarkable

achievement of trans-national co-operation, given the history (including recent history) of national, racial, ethnic and religious hatred and conflict preceding its creation. Although, as the book recounts, the institutions of the EU grew directly out of those of the European Economic Community, created in 1957 [1.20], the genesis of the EU can be traced to the sufferings of the Second World War and to the disclosure of the barbarous atrocities of the Holocaust. Out of the chaos and ruins of historical enmities and the shattered cities and peoples that survived those terrible events, arose an astonishing pan-European Movement.

The contributions of more than 30 experts reframe the discussion on gender, race, and ethnicity in the U.S. workforce, examining the complex identity concerns facing workers who fall within minority groups and recommending practical solutions for dealing with workplace inequities. Through focused essays, experts explore new perspectives to persistent challenges and discuss progress made in addressing unequal treatment based on race and gender in the past eight years. This detailed reference explores every aspect of the issue, including mentoring, family leaves, pay inequity, multiracial and transgender identities, community involvement, and illegal harassment. The first part of the book identifies employment discrimination based on multiracial identity, appearance, and transgender status. The second section unveils the psychology behind harassment on the job; the third section provides strategies for overcoming traditional obstacles for the disenfranchised. The final section discusses updates on laws dealing with the Family and Medical Leave Act. The book closes with success stories of women of color in U.S. leadership roles as well as others achieving success in their professions outside of the country. Accompanying tables, charts, and graphs illustrate the field's most poignant research, such as the relationship between organizational effectiveness and diversity and the characteristics of those taking family and medical leave.
