conversations in american literature pdf: Americanness Simon J. Bronner, 2021-08-11 *Americanness: Inquiries into the Thought and Culture of the United States* analyzes several core themes that connect Americans because of, and despite, their pronounced diversity. The book investigates shared ideas and ideals, such as individualism, mobility, materialism, and future-orientation, that drive an overarching American worldview. Simon J. Bronner begins with ideas of space and time as they formed and changed through the history of the United States, before moving to the emergence of modern American culture. He examines reasons America is characterized as having a victory culture that extends to the American legal, military, and business complexes. This victory culture is further analyzed by looking at the country's relationship with the game of football—a sport that thrives in America but has not caught on in other countries. Finally, the volume probes American consumerism driven by a desire for individual prosperity in a supposedly egalitarian society. Using interdisciplinary approaches drawn from psychology, sociology, ethnology, and history, Bronner seeks explanations for people invoking, and evoking, ideas that they perceive as American. This book would be an invaluable addition to courses on American history, sociology, cultural studies, and American studies.

2014-11-21 Because Charles Wright occupies a large space in contemporary American poetry, it is only natural that his readers over the years have wanted to engage him in conversation and discover more about his career and inspirations. In this collection of richly detailed interviews conducted between 1979 and 2006, Wright eloquently discusses a range of topics, including the beginning of his poetic career in Italy, his experiences at the University of Iowa, the American and European influences on his work, contemporary poets he admires, his place in Southern literature, the art of translating poetry, and such formal matters as his lineation and rhythmic phrasing, his use of syllabics, and the development of his characteristic style. An extensive bibliography of writings by and about Wright supplements the interviews.

conversations in american literature pdf: A Broadening Conversation Melody Layton McMahon, David R. Stewart, 2006-05-26 As the American Theological Library Association (ATLA) celebrates the important milestone of its 60th anniversary this year, the editors have brought together in a single-volume anthology some of the best contributions to this field. Essays and papers from the past sixty years are grouped into six topical chapters (theological librarianship's characteristics, dimensions, educational role, settings, development within ATLA's sixty years, and most noteworthy changes), each of which is introduced by a present-day theological librarian. This collection is likely to be valuable in many ways: as a compendium of wisdom and best practices over several generations, as a means of securing a grasp of how ATLA's importance and influence as an association has grown over time, and even for the way it brings back to light the life and work of so many fine librarians, Raymond Morris (Yale Divinity Library) and Julia Pettee (Union Theological Seminary) among them. Even more important, *A Broadening Conversation* affirms vividly that (instead of the ethos of tradition and continuity that one might suppose) a mix of trusted routines with perpetual change is what has always been on the menu for theological librarians in their daily work. This is at the heart of what continues to make theological librarianship such a challenging and rewarding vocation.

conversations in american literature pdf: Conversations of Democracy Stephen E. Frantzich, 2015-12-03 Democratic politics involves a series of multi-directional conversations. conversations in american literature pdf: Gespräche in der Impfsprechstunde Juliane Schopf, 2024-12-02 Die Kommunikation in Impfgesprächen ist nicht erst seit der COVID-19-Pandemie von enormer gesellschaftlicher Relevanz sowie von großem politischen und medialen Interesse: Wie lassen sich Impfskeptiker*innen überzeugen? conversations in american literature pdf: Thornton Wilder, Classical Reception, and American Literature Stephen J. Rojcewicz, Jr., 2021-11-25 This book delineates how Thornton Wilder (1897–1975), a learned playwright and novelist, embeds himself within the classical tradition, integrating Greek and Roman motifs with a wide range of sources to produce heart-breaking

masterpieces such as *Our Town* and comedy sensations such as Dolly Levi. Through this study of archival sources and close reading, readers will understand Wilder's avant-garde staging and innovative time sequences not as a break with the past, but as a response to the classics. The author traces the genesis of unforgettable characters like Dolly Levi in *The Matchmaker*, Emily Webb in *Our Town*, and George Antrobus in *The Skin of Our Teeth*. Vergil's expression, Here are the tears of the world, and human matters touch the heart haunts Wilder's oeuvre. Understanding Vergil's phrase as tears for the beauty of the world, Wilder utilizes scenes depicting the beauty of the world and the sorrow when individuals recognize this too late. Wilder exhorts us to observe lovingly, alert to the wonder of the everyday. This work will appeal to actors and directors, professors and students in classics and in American literature, those fascinated by modern drama and performance studies, and non-specialists, theatre-goers, and readers in the general public.

conversations in american literature pdf: *The Routledge Companion to Masculinity in American Literature and Culture* Lydia R. Cooper, 2021-12-26 Recently, the U.S. has seen a rise in misogynistic and race-based violence perpetrated by men expressing a sense of grievance, from incels to alt-right activists. Grounding sociological, historical, political, and economic analyses of masculinity through the lens of cultural narratives in many forms and expressions, *The Routledge Companion to Masculinity in American Literature and Culture* suggests that how we examine the stories that shape us in turn shapes our understanding of our current reality and gives us language for imagining better futures. Masculinity is more than a description of traits associated with particular performances of gender. It is more than a study of gender and social power. It is an examination of the ways in which gender affects our capacity to engage ethically with each other in complex human societies. This volume offers essays from a range of established, global experts in American masculinity as well as new and upcoming scholars in order to explore not just what masculinity once meant, has come to mean, and may mean in the future in the U.S.; it also articulates what is at stake with our conceptions of masculinity.

DeLoach, Michele Fenton, 2024-12-15 Winner of the BCALA 2025 Literary Award for Outstanding Contribution to Publishing As Dr. Josey and Ms. DeLoach wrote in their Introduction to the second edition of *The Handbook of Black Librarianship*: "In designing the second edition of *The Handbook of Black Librarianship*, the editors felt that this work should be a reference tool related to the various aspects of African Americans in librarianship and their work in libraries." That first edition covered issues faced by black library professionals in the various fields of librarianship; organizations formed; black library collections and books; resources and other areas of progress. The second edition, published twenty-three years later, highlighted more current events in Black librarianship: early and contemporary library organizations, vital issues, African American resources, discussions on and about librarianship, a focus on health librarianship, and information resources and education. It has now been another twenty-two years since the last edition and time to reflect on "various aspects of African Americans" in our profession as well as the advancements over the past two and a half decades and to review those issues African Americans still face and how modern technological advancements have impacted our profession and the lives of Black librarians. This third edition's coverage includes: *Pioneers and Landmark Episodes*; *A Chronology of Events in Black Librarianship*; *African American Forerunners in Librarianship*; *Modern Day Black Library Organizations*; *Vital Issues in Black Librarianship*; *Library Service to Our Communities*; *Library Technology and Black Librarianship*; *Pearls from Our Retirees*; *Issues in Diversity, Inclusion and Multiculturalism*; *African Library Resources and Education*; *Banned Books*; and *Significant Books and Periodicals for Black Collections*

conversations in american literature pdf: Racism and Xenophobia in Early

Twentieth-Century American Fiction Wisam Abughosh Chaleila, 2020-12-29 The Melting Pot, The Land of The Free, The Land of Opportunity. These tropes or nicknames apparently reflect the freedom and open-armed welcome that the United States of America offers. However, the chronicles of history do not complement that image. These historical happenings have not often been brought into the focus of Modernist literary criticism, though their existence in the record is clear. This book aims to discuss these chronicles, displaying in great detail the underpinnings and subtle references of racism and xenophobia embedded so deeply in both fictional and real personas, whether they are characters, writers, legislators, or the common people. In the main chapters, literary works are dissected so as to underline the intolerance hidden behind words of righteousness and blind trust, as if such is the norm. Though history is taught, it is not so thoroughly examined. To our misfortune, we naively think that bigoted ideas are not a thing we could become afflicted with. They are antiques from the past – yet they possessed many hundreds of people and they surround us still. Since we've experienced very little change, it seems discipline is necessary to truly attempt to be rid of these ideas.

conversations in american literature pdf: Memory and the Built Environment in

20th-Century American Literature Alice Levick, 2021-05-20 From the paving of the Los Angeles River in 1938 and the creation of the G.I. Bill in 1944, to the construction of the Interstate Highway System during the late 1950s and the brownstoning movement of the 1970s, throughout the mid-20th-century the United States saw a wave of changes that had an enduring impact on the development of urban spaces. Focusing on the relationship between processes of demolition and restoration as they have shaped the modern built environment, and the processes by which memory is constructed, hidden, or remade in the literary text, this book explores the ways in which history becomes entangled with the urban space in which it plays out. Alice Levick takes stock of this history, both in the form of its externalised, concretised manifestation and its more symbolic representation, as depicted in the mid-20th-century work of a selection of American writers. Calling upon access to archival material and interviews with New York academics, authors, local historians and urban planners, this book locates Freud's 'Uncanny' in the cracks between the absent and present, invisible and visible, memory and history as they are presented in city narratives, demonstrating both the passage of time and the imposition of 20th-century modernism. With reference to the works of D. J. Waldie, Joan Didion, Hisaye Yamamoto, Raymond Chandler, Marshall Berman, Gil Cuadros, Paule Marshall, L. J. Davis, and Paula Fox, *Memory and the Built Environment in 20th-Century American Literature* unpacks how time becomes visible in Los Angeles, Sacramento, Lakewood, and New York in the decades just before and after the Second World War, questioning how these spaces provide access to the past, in both narrative and spatial forms, and how, at times, this access is blocked.

conversations in american literature pdf: Deaf and Hearing Siblings in Conversation Marla C. Berkowitz, Judith A. Deaf and hearing authors Berkowitz and Jonas conducted interviews with 22 adult siblings, using ASL and spoken English, to access their intimate thoughts. A major feature of the book is its analysis of how isolation impacts deaf-hearing sibling relationships. The book documents the 150 year history of societal attitudes embedded in sibling bonds and identifies how the siblings' lives were affected by the communication choices their parents made. The authors weave information throughout the text to reveal attitudes toward American Sign Language and the various roles deaf and hearing siblings take on as monitors, facilitators, signing-siblings and sibling-interpreters, all of which impact lifelong bonds.

conversations in american literature pdf: Libraries, Literacy, and African American Youth Sandra Hughes-Hassell, Pauletta Brown Bracy, Casey H. Rawson, 2016-10-31 This important book is a call to action for the library community to address the literacy and life outcome gaps impacting African American youth. It provides strategies that enable school and public librarians to transform their services, programs, and collections to be more responsive to the literacy strengths, experiences, and needs of African American youth. According to National Assessment of Educational Progress (NEAP), only 18 percent of African American fourth graders and 17 percent of African American eighth graders performed at or above proficiency in reading in 2013. This book draws on research from various academic fields to explore the issues surrounding African American literacy and to aid in developing culturally responsive school and library programs with the goal of helping to close the achievement gap and improve the quality of life for African American youth. The book merges the work of its three authors along with the findings of other researchers and practitioners,

highlighting exemplary programs, such as the award-winning Pearl Bailey Library Program, the Maker Jawn initiative at the Free Library of Philadelphia, and the Blue Ribbon Mentor Advocate writing institute in the Chapel Hill-Carrboro City Schools, among others. Readers will understand how these culturally responsive programs put theory and research-based best practices into local action and see how to adapt them to meet the needs of their communities.

conversations in american literature pdf: Unraveling the Gray Area Problem Luke Griffith, 2023-12-15 In Unraveling the Gray Area Problem, Luke Griffith examines the US role in why the Intermediate-Range Nuclear Forces (INF) Treaty took almost a decade to negotiate and then failed in just thirty years. The INF Treaty enhanced Western security by prohibiting US and Russian ground-based missiles with maximum ranges of 500 to 5,500 kilometers. Significantly, it eliminated hundreds of Soviet SS-20 missiles, which could annihilate targets throughout Eurasia in minutes. Through close scrutiny of US theater nuclear policy from 1977 to 1987, Griffith describes the Carter administration's masterminding of the dual-track decision of December 1979, the North Atlantic Treaty Organization (NATO) initiative that led to the INF Treaty. The Reagan administration, in turn, overcame bureaucratic infighting, Soviet intransigence, and political obstacles at home and abroad to achieve a satisfactory outcome in the INF negotiations. Disagreements between the US and Russia undermined the INF Treaty and led to its dissolution in 2019. Meanwhile, the US is developing a new generation of ground-based, INF-type missiles that will have an operational value on the battlefield. Griffith urges policymakers to consider the utility of INF-type missiles in new arms control negotiations. Understanding the scope and consistency of US arms control policy across the Carter and Reagan administrations offers important lessons for policymakers in the twenty-first century.

conversations in american literature pdf: Chronotopes of the Uncanny Petra Eckhard, 2014-03-15 Using the theoretical frameworks of Freud, Todorov, and Bakhtin, this book explores how American writers of the late 20th century have translated the psychoanalytical concept of »the uncanny« into their novelistic discourses. The two texts under scrutiny – Paul Auster's »City of Glass« and Toni Morrison's »Jazz« – show that the uncanny has developed into a crucial trope to delineate personal and collective fears that are often grounded on the postmodern disruption of spatio-temporal continuities and coherences.
