counselor training manual free: Developing a Law Enforcement Stress Program for Officers and Their Families Peter Finn, Julie Esselman Tomz, 1997 Provides a comprehensive and up-to-date look at a number of law enforce. stress programs that have made serious efforts to help departments, individual officers, civilian employees, and officers' families cope with the stresses of a law enforce. career. The report is based on 100 interviews with mental health practitioners, police administrators, union and assoc. officials, and line officers and their family members. Provides pragmatic suggestions that can help every police or sheriff's dep't. reduce the debilitating stress that so many officers experience and thereby help these officers do the job they entered law enforcement to perform -- protect the public.

counselor training manual free: *Feminist Counselling and Domestic Violence in India* Padma Bhate-Deosthali, Sangeeta Rege, Padma Prakash, 2020-11-29 Mainstream counselling in domestic violence often fails to address critical issues, such as gender socialisation processes and the abuse of power that allows violence against women, and focuses primarily on the intra-psychic nature of individual women. In contrast, feminist counselling is an effective alternative model, owing to its ability to address the fundamental correlation of abuse with power. In going beyond the individual, it helps women locate the source of their distress in the larger social context of power and control, manifesting in intimate, interpersonal relationships, and enables them to resist systemic oppression. This volume offers one of the first systematic documentations of feminist psychosocial interventions in India. It situates the issue of domestic violence in the historical context of the women's movement, and examines institutional factors such as family and marriage that perpetuate abuse. Using extensive case studies, it discusses the methods, principles, techniques, skills and procedures followed by feminist organisations across the country, and their role in women's empowerment. The book will serve as a practical reference guide to practitioners such as social workers, counsellors and para-counsellors, health activists, grassroots workers, protection officers and service providers. It will also be useful to scholars and students of psychology, sociology, women's studies, law and public policy.
