colombian literature online: Internet Literature in China Michel Hockx, 2015-02-10 Since the 1990s, Chinese literary enthusiasts have explored new spaces for creative expression online, giving rise to a modern genre that has transformed Chinese culture and society. Ranging from the self-consciously avant-garde to the pornographic, web-based writing has introduced innovative forms, themes, and practices into Chinese literature and its aesthetic traditions. Conducting the first comprehensive survey in English of this phenomenon, Michel Hockx describes in detail the types of Chinese literature taking shape right now online and their novel aesthetic, political, and ideological challenges. Offering a unique portal into postsocialist Chinese culture, he presents a complex portrait of internet culture and control in China that avoids one-dimensional representations of oppression. The Chinese government still strictly regulates the publishing world, yet it is growing increasingly tolerant of internet literature and its publishing practices while still drawing a clear yet

ever-shifting ideological bottom line. Hockx interviews online authors, publishers, and censors, capturing the convergence of mass media, creativity, censorship, and free speech that is upending traditional hierarchies and conventions within China—and across Asia.

colombian literature online: *Managing the Columbia River* National Research Council, Division on Earth and Life Studies, Board on Environmental Studies and Toxicology, Water Science and Technology Board, Committee on Water Resources Management, Instream Flows, and Salmon Survival in the Columbia River Basin, 2004-08-27 Flows of the Columbia River, although modified substantially during the twentieth century, still vary considerably between seasons and between years. Lowest flows tend to occur during summer months when demand for irrigation water is at its highest and when water temperatures are greatest. These periods of low flows, high demand, and high temperature are critical periods for juvenile salmon migrating downstream through the Columbia River hydropower system. Although impacts on salmon of any individual water withdrawal may be small, the cumulative effects of numerous withdrawals will affect Columbia River flows and would pose increased risks to salmon survival. The body of scientific knowledge explaining salmon migratory behavior and physiology is substantial, but imperfect, and decision makers should acknowledge this and be willing to take action in the face of uncertainties. In order to provide a more comprehensive water permitting process, the State of Washington, Canada, other basin states, and tribal groups should establish a basin-wide forum to consider future water withdrawal

application permits. If the State of Washington issues additional permits for water withdrawals from the Columbia River, those permits should contain provisions that allow withdrawals to be curtailed during critical high-demand periods.

colombian literature online: The Columbia Literary History of the United States Emory Elliott, 1988-02-15 For the first time in four decades, there exists an authoritative and up-to-date survey of the literature of the United States, from prehistoric cave narratives to the radical movements of the sixties and the experimentation of the eighties. This comprehensive volume—one of the century's most important books in American studies—extensively treats Hawthorne, Melville, Dickinson, Hemingway, and other long-cherished writers, while also giving considerable attention to recently discovered writers such as Kate Chopin and to literary movements and forms of writing not studied amply in the past. Informed by the most current critical and theoretical ideas, it sets forth a generation's interpretation of the rise of American civilization and culture. The Columbia Literary History of the United States contains essays by today's foremost scholars and critics, overseen by a board of distinguished editors headed by Emory Elliott of Princeton University. These contributors reexamine in contemporary terms traditional subjects such as the importance of Puritanism, Romanticism, and frontier humor in American life and writing, but they also fully explore themes and materials that have only begun to receive deserved attention in the last two decades. Among these are the role of women as writers, readers, and literary subjects and the impact of writers from minority groups, both inside and outside the literary establishment.

colombian literature online: The Eruption of Nevado Del Ruiz Volcano Colombia, South America, November 13, 1985 National Research Council, Division on Engineering and Physical Sciences, Commission on Engineering and Technical Systems, Division of Natural Hazard Mitigation, Committee on Natural Disasters, 1991-02-01 On November 13, 1985, catastrophic mudflows swept down the slopes of the erupting Nevado del Ruiz volcano, destroying structures in their paths. Various estimates of deaths ranged as high as 24,000 residents. Though the nature and extent of risk posed by the mudflows to local communities were well documented before the event and extensive efforts had been made to communicate this information to those at risk, the affected communities were caught largely unaware. This volume analyzes the disaster's many aspects: the extent, constitution, and behavior of the mudflows; the nature of damage to structures; the status of the area's disaster warning system; and the extent of the area's disaster preparedness, emergency response actions, and disaster relief efforts—both at the time of the disaster and in the first few months following the event.

colombian literature online: The Columbia Sourcebook of Literary Taiwan Sung-sheng Yvonne Chang, Michelle Yeh, Ming-ju Fan, 2014-09-02 This sourcebook contains more than 160 documents and writings that reflect the development of Taiwanese literature from the early modern period to the twenty-first century. Selections include seminal essays in literary debates, polemics, and other landmark events; interviews, diaries, and letters by major authors; critical and retrospective essays by influential writers, editors, and scholars; transcripts of historical speeches and conferences; literary-society manifestos and inaugural journal prefaces; and governmental policy pronouncements that have significantly influenced Taiwanese literature. These texts illuminate Asia's experience with modernization, colonialism, and postcolonialism; the character of Taiwan's Cold War and post-Cold War cultural production; gender and environmental issues; indigenous movements; and the changes and challenges of the digital revolution. Taiwan's complex history with Dutch, Spanish, and Japanese colonization; strategic geopolitical position vis-à-vis China, Japan, and the United States; and status as a hub for the East-bound circulation of technological and popular-culture trends make the nation an excellent case study for a richer understanding of East Asian and modern global relations.

colombian literature online: **The Columbia Guide to East African Literature in English Since 1945** Simon Gikandi, Evan Mwangi, 2007 The Columbia Guide to East African Literature in English Since 1945 challenges the conventional belief that the English-language literary traditions of East Africa are restricted to the former British colonies of Kenya, Uganda, and Tanzania. Instead, these traditions stretch far into such neighboring countries as Somalia and Ethiopia. Simon Gikandi and Evan Mwangi assemble a truly inclusive list of major writers and trends. They begin with a chronology of key historical events and an overview of the emergence and transformation of literary culture in the region. Then they provide an alphabetical list of major writers and brief descriptions of their concerns and achievements. Some of the writers discussed include the Kenyan novelists Grace Ogot and Ngugi wa Thiong'o, Ugandan poet and essayist Taban Lo Liyong, Ethiopian playwright and poet Tsegaye Gabre-Medhin, Tanzanian novelist and diplomat Peter Palangyo, Ethiopian novelist Berhane Mariam Sahle-Sellassie, and the novelist M. G. Vassanji, who portrays the Indian diaspora in Africa, Europe, and North America. Separate entries within this list describe thematic concerns, such as colonialism, decolonization, the black aesthetic, and the language question; the growth of genres like autobiography and popular literature; important movements like cultural nationalism and feminism; and the impact of major forces such as AIDS/HIV, Christian missions, and urbanization. Comprehensive and richly detailed, this guide offers a fresh perspective on the role of East Africa in the development of African and world literature in English and a new understanding of the historical, cultural, and geopolitical boundaries of the region.
