columbine survivor stories: *Killer Cults* Stephen Singular, 2021-06-29 What's scarier than a

murderer? Someone with the charisma to compel others to kill for them . . . or to kill themselves. Meet these cult leaders—and get an inside look at their beliefs and how they controlled others. Some cults, led by leaders like Charlie Manson, Jim Jones, and David Koresh, are notorious. But others are less well known, such as Shoko Asahara and his doomsday cult, Aum Shinrikyo, who orchestrated the sarin gas attack on the Tokyo subway. Or Joseph Di Mambro and Luc Jouret, who founded the Order of the Solar Temple, a doomsday cult that led to the death of 51 members by murder or suicide. Then there is Marshall Applewhite, leader of Heaven's Gate, who, along with 38 followers, killed themselves in the belief that the Hale-Bopp comet signaled the arrival of a spaceship that would transport them to a higher plane of existence. What makes cult leaders so compelling is their often-unfathomable power over their adherents. Why do people kill others or themselves for a questionable set of beliefs? *Killer Cults* tells the stories behind both famous and unfamiliar cults, and the people behind them. Across a series of profiles, we learn the jaw-dropping truth behind some of the most mystifying and deadly cults, and their leaders, all of whom led their followers down a dark, murderous path.

columbine survivor stories: Columbine, 20 Years Later and Beyond Jaclyn Schildkraut, Glenn W. Muschert, 2019-01-17 This powerful retrospective analysis of the 1999 Columbine High School shooting aftermath considers society's response to the attack, long-term implications of the shooting, and the ways in which research and related policy must continue to move forward. An indispensable resource for anyone interested in learning about the long-term impact of the 1999 Columbine High School shooting, *Columbine, 20 Years Later and Beyond* provides a comprehensive look at how the event unfolded, what has changed since the attack, and how this information can be used to prevent future mass shootings. Authors Jaclyn Schildkraut and Glenn Muschert, both experts on mass shootings, share their broad understanding of this tragedy and its aftermath. *Columbine* became the measuring stick against which all other mass shootings would be compared, and this book details with great sensitivity the ensuing changes to school security, law enforcement's response to active shooter situations, threat assessment practices, legislative efforts, and media coverage of unfolding situations. With delicacy and tact, Schildkraut and Muschert help to answer the painful question raised by a stone on the wall of the Columbine Memorial: What have we learned?.

columbine survivor stories: Managing the Human Dimension of Disasters Kjell Brataas, 2021-03-30 *Managing the Human Dimension of Disasters* provides the most comprehensive and up-to-date analysis on how individuals cope with tragedy and loss. Kjell Brataas gives a voice to those who have suffered and have been affected by unimaginable trauma. Noted experts recount stories and share their knowledge of how they assisted victims following tragedies such as the Manchester Arena bombing, the 2004 Indian Ocean tsunami, terror attacks, several aircraft disasters and school shootings, the 9/11 attacks and the COVID-19 pandemic. The book focuses on those affected by a disaster, including the bereaved, survivors and first responders. Leaders of support groups formed after these tragedies, trauma therapists and psychologists from three continents offer their experiences dealing with victims and the aftermath of disaster. Chapters provide guidance on memorializing tragedies, site visits, donation management, media relations, social media, grief counseling and human resilience. Readers will be shown that psychological support is critical after a disaster and learn from those who deal with emergencies. Brataas' unmatched volume offers new understandings, recommendations, best practices and benchmarks on how best to assist victims in the aftermath of disaster. A valuable resource for students, researchers and practitioners.

columbine survivor stories: *The Martyrs of Columbine* J. Watson, 2003-05-02 On April 20, 1999, Eric Harris and Dylan Klebold killed twelve fellow students and one teacher at Columbine High School in Littleton, Colorado. Two of the victims of the Columbine massacre, Cassie Bernall and Rachel Scott, reportedly were asked by the gunmen if they believed in God. Both supposedly answered 'Yes' and were killed. Within days of their death, Cassie and Rachel were being hailed as modern-day martyrs and are seen by many American evangelicals as the sparks of a religious revival

among teenagers. Cassie and Rachel, as innocents martyred for faith, also became useful symbols for those seeking to advance a conservative political agenda and to lay the blame for Columbine at the feet of their liberal opponents. According to police investigators, however, Cassie and Rachel may never have been asked by their killers about God. They may have been simply victims of a senseless crime rather than martyrs to a cause. *The Martyrs of Columbine* provides a careful examination of the available evidence and attempts to discover what really occurred. Despite these questions the martyr-stories continued to be told and the religious and political use of Cassie and Rachel continues. The popular significance of the martyrs of Columbine persists, and may even be growing. How and why is this happening? *The Martyrs of Columbine* is a groundbreaking investigation of what this tragedy has come and will come to mean in American religion, politics, and culture.

columbine survivor stories: From Victim to Victor: A Survivor's True Story of Her Experiences with School Bullying. How She Overcame, Won Back Her Confidence and Found Peace and Happiness Cherie White, 2017-03-17 Cherie White shares her own story of what were the worst six years of her life, during which she was relentlessly bullied after moving to a small Tennessee town. She describes the heartache, loneliness and despair she felt as a victim of school bullying and how her cries for help went ignored. She is brutally honest about how she viewed her bullies and the bystanders who watched but did nothing to help. She is also candid about how she too became a bully and the torment she inflicted on her own victims, whom she herself viewed as inferior, as a means to preserve what little self-esteem she had left and feel better about herself. Finally, she tells of how she was able to escape her tormentors by changing schools, make several new friends out of her new classmates, and go from victim to victor! *From Victim to Victor* is a story of survival, trial, heartache, self-discovery, reflection, growth and the eventual escape and triumph.

columbine survivor stories: Activist: A Story of the Marjory Stoneman Douglas Shooting Lauren Elizabeth Hogg, 2022-08-16 On February 14, 2018, Valentine's Day, Lauren Elizabeth Hogg lost her two close friends in the now notorious school shooting at Marjory Stoneman Douglas High School in Parkland, Florida. In all, seventeen people were gunned down by the shooter, a student at the school. Survivors of that tragic day vowed to rise up and fight for their right, and the right of kids everywhere, to safety in their schools. Through her grief, Lauren found her calling, joining in the protests of #NeverAgain and the March for Our Lives. She and her brother, and so many other Parkland students, refused to allow the memory of their fallen classmates to be forgotten. Empowered with a unique voice, Lauren Elizabeth Hogg is truly an activist for our times.

columbine survivor stories: The New Book of Christian Martyrs Johnnie Moore, Jerry Pattengale, 2023-03 An inspiring keepsake that honors the heroic sacrifice of today's martyrs for the Christian faith--and shows how their actions mirror the courage of a long line of brave Christians. In the twenty-first century, we are witnessing an escalation in Christian persecution like we have rarely seen since the first century. Many people don't realize that today thousands of Christians are dying cruel deaths throughout much of the world. There were, in fact, more martyrs in the last century than in all the previous Christian centuries combined. Millions have given their lives since the fall of Rome, and today tens of thousands die annually for their faith in Jesus. Most of these modern stories are not legendary; in fact, many are unknown. *The New Book of Christian Martyrs* commemorates those modern-day heroes. In this update to *Foxe's Book of Martyrs*, Johnnie Moore and Jerry Pattengale highlight key martyrs of past centuries and feature stories of contemporary martyrs around the world. Through tears, Johnnie and Jerry offer this compendium of heroes from the first century to the twenty-first century, from Europe to Africa and from Asia to the Americas, to inspire Christians around the globe. Today, we live in solidarity with them and in the next life, we will rejoice by their side. We will never forget their sacrifice for the truth.

columbine survivor stories: Research Anthology on School Shootings, Peer Victimization, and Solutions for Building Safer Educational Institutions Management Association, Information Resources, 2020-09-10 Though decades ago school shootings were rare events, today they are becoming normalized. Active shooter drills have become more commonplace

as pressure is placed on schools and law enforcement to prevent the next attack. Yet others argue the traumatizing effects of such exercises on the students. Additionally, violence between students continues to remain problematic as bullying pervades children's lives both at school and at home, leading to negative mental health impacts and, in extreme cases, suicide. Establishing safer school policies, promoting violence prevention programs, building healthier classroom environments, and providing better staff training are all vital for protecting students physically and mentally. The Research Anthology on School Shootings, Peer Victimization, and Solutions for Building Safer Educational Institutions examines the current sources of violence within educational systems, and it offers solutions on how to provide a safer space for both students and educators alike. Broken into four sections, the book examines the causes and impacts that peer victimization has on students and how this can lead to further violence and investigates strategies for detecting the warning signs. The book provides solutions that range from policies and programs that can be established to strategies for teaching nonviolence and promoting coexistence in the classroom. Highlighting a range of topics such as violence prevention, school climate, and bullying, this publication is an ideal reference source for school administrators, law enforcement, teachers, government and state officials, school boards, academicians, researchers, and upper-level students who are intent on stopping the persisting and unfortunate problem that is school violence.

columbine survivor stories: *Prepare and Defend* Robert L. Snow, 2020-05-08 *Prepare and Defend: Keep Yourself and Others Safe from Mass Murder Attacks* gives readers the insider knowledge unavailable anywhere else that could ultimately save their lives. Mass murders, though they may seem to be a recent phenomenon, actually have a long history in America. Snow gives a short history of mass murders in the United States, showing while mass murders may be more common today; they were hardly unheard of in the past. Almost weekly, it seems the national news media reports another mass murder: a school shooting, a massacre at a country music concert, a rampage at a nursing home. Why is this happening; who carries out these mass murders; how can we survive if caught up in one; and what can be done by our nation to stop them? In *Prepare and Defend: Keep Yourself and Others Safe from Mass Murder Attacks* Robert L. Snow answers these tough questions by examining the psychological make-up of mass murderers, allowing the readers to see into the many motivations behind these crimes. He also discusses the various strategies that communities can use to lessen the chances of such events occurring, and what the United States needs to do to prevent these tragedies from continuing. An important aspect of *Prepare and Defend* is showing readers how to spot a likely mass murder before it happens, and how, if caught up in one, to survive it with the right tactics. Because of the increase in the number of mass murders during the past few decades, police departments everywhere have become equipped and trained on how to respond to them. Readers need to know this information as well so that they can be rescued quickly and safely if ever in the face of this kind of situation. Depending on what kind of mass murder event occurs, there are a number of strategies that can significantly lessen a person's chances of becoming a victim. With the benefit of many years as a police officer, as well as response training for mass murder episode, Snow shows readers important strategies and how to use them.

columbine survivor stories: *Mass Shootings* Jaclyn Schildkraut, H. Jaymi Elsass, 2016-02-22 This book provides readers and researchers with a critical examination of mass shootings as told by the media, offering research-based, factual answers to oft-asked questions and investigating common myths about these tragic events. When a mass shooting happens, the news media is flooded with headlines and breaking information about the shooters, victims, and acts themselves. What is notably absent in the news reporting are any concrete details that serve to inform news consumers how prevalent these mass shootings really are (or are not, when considering crime statistics as a whole), what legitimate causes for concern are, and how likely an individual is to be involved in such an incident. Instead, these events often are used as catalysts for conversations about larger issues such as gun control and mental health care reform. What critical points are we missing when the media focuses on only what people want to hear? This book explores the media attention to mass shootings and helps readers understand the problem of mass shootings and public gun violence from

its inception to its existence in contemporary society. It discusses how the issue is defined, its history, and its prevalence in both the United States and other countries, and provides an exploration of the responses to these events and strategies for the prevention of future violence. The book focuses on the myths purported about these unfortunate events, their victims, and their perpetrators through typical U.S. media coverage as well as evidence-based facts to contradict such narratives. The book's authors pay primary attention to contemporary shootings in the United States but also discuss early events dating back to the 1700s and those occurring internationally. The accessible writing enables readers of varying grade levels, including laypersons, to gain a more in-depth—and accurate—understanding of the context of mass shootings in the United States. As a result, readers will be better able to contribute to meaningful discussions related to mass shooting events and the resulting responses and policies.

columbine survivor stories: School Shootings Nils Böckler, Thorsten Seeger, Peter Sitzler, Wilhelm Heitmeyer, 2012-12-13 School shootings are a topic of research in a variety of different disciplines—from psychology, to sociology to criminology, pedagogy, and public health—each with their own set of theories. Many of these theories are logically interconnected, while some differ widely and seem incompatible with each other, leading to divergent results about potential means of prevention. In this innovative work, leading researchers on the topic of school shootings introduce their findings and theoretical concepts in one combined systematic volume. The contributions to this work highlight both the complementary findings from different fields, as well as cases where they diverge or contradict each other. The work is divided into four main sections: an overview of current theoretical approaches and empirical models; application of these theories to international cases, including Columbine (USA), Emsdetten (Germany), and Tuusula (Finland); a critique of the influence of the media, both in the portrayals of past events and its effect on future events; and finally an overview of existing models for prevention and intervention, and measures of their success. The result is a comprehensive source for current research on school shootings, and will provide a direction for future research.

columbine survivor stories: The Ages of the X-Men Joseph J. Darowski, 2014-06-24 The X-Men comic book franchise is one of the most popular of all time and one of the most intriguing for critical analysis. With storylines that often contain overt social messages within its mutant metaphor, X-Men is often credited with having more depth than the average superhero property. In this collection, each essay examines a specific era of the X-Men franchise in relationship to contemporary social concerns. The essays are arranged chronologically, from an analysis of popular science at the time of the first X-Men comic book in 1963 to an interpretation of a storyline in light of rhetoric of President Obama's first presidential campaign. Topics ranging from Communism to celebrity culture to school violence are addressed by scholars who provide new insights into one of America's most significant popular culture products.

columbine survivor stories: Crimes and Trials of the Century Frankie Y. Bailey, Steven Chermak Ph.D., 2007-10-30 What do O. J. Simpson, the Lindbergh baby, and Gary Gilmore have in common? They were all the focus of famous crimes and/or trials in the United States. In this two-volume set, historical and contemporary cases that not only shocked the nation but that also became a part of the popular and legal culture of the United States are discussed in vivid, and sometimes shocking, detail. Each chapter focuses on a different crime or trial and explores the ways in which each became famous in its own time. The fascinating cast of characters, the outrageous crimes, the involvement of the media, the actions of the police, and the trials that often surprised combine to offer here one of the most comprehensive sets of books available on the subject of famous U.S. crimes and trials. The public seems fascinated by crime. News and popular media sources provide a steady diet of stories, footage, and photographs about the misfortunes of others in order to satisfy this appetite. Murder, rape, terrorism, gang-related activities, and other violent crimes are staples. Various crime events are presented in the news every day, but most of what is covered is quickly forgotten. In contrast, some crimes left a lasting impression on the American psyche. Some examples include the assassination of President John F. Kennedy, the bombing of the

Murrah building in Oklahoma City, and the September 11th attacks. These events, and other significant cases, are immediately or on reflection talked about as crimes of the century. They earn this title not only because they generate enormous publicity, but because of their impact on American culture: they help define historical eras, influence public opinion about crime, change legal process, and focus concern about important social issues. They seep into many other shared aspects of social life: public conversation, fiction and nonfiction, songs, poems, films, and folk tales. This set focuses on the many crimes of the century of the last 100 years. In vivid detail, each crime is laid out, the investigation is discussed, the media reaction is described, the trial (if there was one) is narrated, the resolution is explored, and the significance of the case in terms of its social, political, popular, and legal relevance is examined. Illustrations and sidebars are scattered throughout to enliven the text; print and electronic resources for further reading and research are offered for those wishing to dig deeper. Cases include the Scopes Monkey trial, Ted Bundy, Timothy McVeigh, O.J. Simpson, Leopold and Loeb, Fatty Arbuckle, Al Capone, JonBenet Ramsey, the Lacy Peterson murder, Abu Ghraib, Columbine and more.

columbine survivor stories: The Handbook of International Crisis and Risk Communication Research Andreas Schwarz, Matthew W. Seeger, Sora Kim, 2025-04-22 Global Insights on Navigating Today's Complex Crises Now in its second edition, *The Handbook of International Crisis and Risk Communication Research* offers a timely and comprehensive exploration of the methods, challenges, and innovations in managing present-day global crises and risks. Bringing together expert insights from across the fields of communication, public relations, and social sciences, this interdisciplinary volume examines crisis and risk communication through an international lens. Each chapter presents unique cultural, theoretical, and methodological perspectives for managing risk, mitigating crises, and fostering resilience. Amid growing transnational issues such as public health emergencies, climate-induced disasters, and political upheavals, the Handbook emphasizes the role of communication in crisis awareness, recovery, and renewal. Contributions by leading scholars and practitioners investigate vital issues such as the impact of misinformation, digital technologies, and media dynamics in shaping public perception and policy response. This revised and expanded edition also reflects recent global threats, including climate change, the COVID-19 pandemic, the war in Ukraine, and other cross-border crises. Equipping readers with the knowledge and frameworks necessary to navigate an increasingly complex and interconnected world, *The Handbook of International Crisis and Risk Communication Research* is perfect for advanced graduate courses and PhD programs in crisis and risk communication, as well as crisis managers, public relations consultants, communication officers, and scholars in risk management and communication.

columbine survivor stories: Roots John C. Cavadini, Donald Wallenfang, 2022-07-21 Youth evangelization is one of the most challenging tasks of the church today, and this book faces that challenge head-on. *Roots: Catholic Youth Evangelization in a Post-Pandemic World* features essays written by leading scholars in the fields of philosophy, theology, psychology, sociology, pastoral ministry, medieval studies, and ecology. In this timely volume, scholars tackle tough issues presented by contemporary culture while engaging the ripe fruits of the 2019 apostolic exhortation of Pope Francis, *Christus vivit*. Readers will be treated to a variety of themes, including beauty, belonging, hope, political theology, cultural analysis, vocational discernment, ecclesial strategies, and the history of Catholic youth ministry in the United States. By approaching the general topic of Catholic youth evangelization from diverse angles, the precise nature and demands of ministry with young people in a postmodern context are illuminated. This volume promises to provide ample insights for church leaders active in the field of pastoral care of youth from an interdisciplinary perspective. Readers can be assured that they never will think the same about youth evangelization after encountering the rich contents of this book.

columbine survivor stories: The Wiley Blackwell Companion to Christian Martyrdom Paul Middleton, 2020-01-27 A unique, wide-ranging volume exploring the historical, religious, cultural, political, and social aspects of Christian martyrdom Although a well-studied and researched topic in early Christianity, martyrdom had become a relatively neglected subject of scholarship by

the latter half of the 20th century. However, in the years following the attack on the Twin Towers on September 11, 2001, the study of martyrdom has experienced a remarkable resurgence. Heightened cultural, religious, and political debates about Islamic martyrdom have, in a large part, prompted increased interest in the role of martyrdom in the Christian tradition. The Wiley Blackwell Companion to Christian Martyrdom is a comprehensive examination of the phenomenon from its beginnings to its role in the present day. This timely volume presents essays written by 30 prominent scholars that explore the fundamental concepts, key questions, and contemporary debates surrounding martyrdom in Christianity. Broad in scope, this volume explores topics ranging from the origins, influences, and theology of martyrdom in the early church, with particular emphasis placed on the Martyr Acts, to contemporary issues of gender, identity construction, and the place of martyrdom in the modern church. Essays address the role of martyrdom after the establishment of Christendom, especially its crucial contribution during and after the Reformation period in the development of Christian and European national-building, as well as its role in forming Christian identities in Asia, Africa, and the Americas. This important contribution to Christian scholarship: Offers the first comprehensive reference work to examine the topic of martyrdom throughout Christian history Includes an exploration of martyrdom and its links to traditions in Judaism and Islam Covers extensive geographical zones, time periods, and perspectives Provides topical commentary on Islamic martyrdom and its parallels to the Christian church Discusses hotly debated topics such as the extent of the Roman persecution of early Christians The Wiley Blackwell Companion to Christian Martyrdom is an invaluable resource for scholars and students of religious studies, theology, and Christian history, as well as readers with interest in the topic of Christian martyrdom.

columbine survivor stories: Surviving Suicide Loss Rita A. Schulte, LPC, 2021-08-03 Nothing could hurt worse. But even in the darkness . . . there's hope. The pain of suicide loss is indescribable. It seems beyond survival. Yet with faith, perseverance, and the tools of brain science, there is a way through. It will take time. It will take struggle. But hope is real, for there are things you can do to make it to the other side. If you are struggling with suicide loss or you need to come alongside someone who is, Rita Schulte wants to help you move forward. As a suicide loss survivor herself, she understands the pain you're feeling because she has been there too. Rita, an experienced therapist and expert in traumatic loss, offers a science-based therapy model that also takes into account the role of human spirituality. Chapters in this book include: Making Sense of the Desire to Die The Mind-Body Connection Unfinished Business Making Peace with Ourselves Facing the Dark Side Children—Living Behind the Shadow The Time that Remains When it comes to suicide loss, you'll never have all the answers. But one thing is certain: there are real pathways to help you heal—body, mind, and spirit.

columbine survivor stories: Buffy Goes Dark Lynne Y. Edwards, Elizabeth L. Rambo, James B. South, 2014-01-10 Buffy the Vampire Slayer earned critical acclaim for its use of metaphor to explore the conflicts of growth, power, and transgression. Its groundbreaking stylistic and thematic devices, boldness and wit earned it an intensely devoted fan base--and as it approached its zenith, attention from media watchdog groups and the Federal Communications Commission. The grim and provocative evolution of the show over its final two seasons polarized its audience, while also breaking new ground for critical and philosophical analysis. The thirteen essays in this collection, divided into the perspectives of feminist, cultural, auteur and fan studies, explore the popular series' conclusion, providing a multifaceted examination of Buffy's most controversial two seasons.

columbine survivor stories: Partisan Journalism Jim A. Kuypers, 2013-11-21 In Partisan Journalism: A History of Media Bias in the United States Jim A. Kuypers guides readers on a journey through American journalistic history, focusing on the warring notions of objectivity and partisanship. Kuypers shows how the American journalistic tradition grew from partisan roots and, with only a brief period of objectivity in between, has returned to those roots today. The book begins with an overview of newspapers during Colonial times, explaining how those papers openly operated in an expressly partisan way; he then moves through the Jacksonian era's expansion of both the

press and its partisan nature. After detailing the role of the press during the War Between the States, Kuypers demonstrates that it was the telegraph, not professional sentiment, that kicked off the movement toward objective news reporting. The conflict between partisanship and professionalization/objectivity continued through the muckraking years and through World War II, with newspapers in the 1950s often being objective in their reporting even as their editorials leaned to the right. This changed rapidly in the 1960s when newspaper editorials shifted from right to left, and progressive advocacy began to slowly erode objective content. Kuypers follows this trend through the early 1980s, and then turns his attention to demonstrating how new communication technologies have changed the very nature of news writing and delivery. In the final chapters covering the Bush and Obama presidencies, he traces the growth of the progressive and partisan nature of the mainstream news, while at the same time explores the rapid rise of alternative news sources, some partisan, some objective, that are challenging the dominance of the mainstream press. This book steps beyond a simple charge-counter-charge of political bias in the news in that it offers an argument that the press in America, except for a brief period, was essentially partisan from its inception and has returned with a vengeance to its original roots. The final argument presented in the book is that this new development may actually be healthy for American Democracy.

columbine survivor stories: Love to Hate Jody Roy, 2002-08-27 Why? is the simple, impulsive question we ask when confronted by horrible acts of hatred and violence. Why do students shoot fellow students or employees their coworkers? Why do mothers drown their children or husbands stalk and kill their wives? Love to Hate challenges us to turn this question upon ourselves at a deeper level. Why, as a culture, are we so fascinated by these acts? Why do we bestow celebrity on the perpetrators, while allowing the victims to fade into a second death of obscurity? Are we, as Pope John Paul II famously accused, a culture of death? And if so, how can we break free of this unacknowledged aspect of the cycle of violence? Unlike those who point solely to media imagery, splintered families, or lax gun control laws in search of the roots of America's endemic violence, Jody M. Roy suggests that we all must be held responsible. She argues that we reveal our love affair with hatred and violence in the ways we think and speak in our daily lives and in our popular culture. The very words we use function as building blocks of callousness and contempt, betraying our immersion in subtexts of violence and hatred. These subtexts are further revealed in our complex attitudes toward street gangs, school shooters, serial killers, and hate groups and the paroxysms of violence they unleash. As spectators, driven by our impulse to watch, we become an integral part of the equation of violence. In the book's final section, Freeing Ourselves of Our Obsession with Hatred and Violence, Roy offers practical steps we can take—as parents, consumers, and voters—to free ourselves from linguistic and cultural complicity and to help create in America a culture of life.
