cortazar short stories ebook: Readings in Syrian Prison Literature R. Shareah Taleghani, 2021-06-21 The simple act of inscription, both minute and epic, can be a powerful tool to bear witness and give voice to those who are oppressed, silenced, and forgotten. In the eras of Hafiz al-Asad and his son Bashar, Syrian political dissidents have written extensively about their experiences of detention, both while in prison and afterwards. This body of writing, largely untranslated into English, is essential to understanding the oppositional political culture among dissidents since the 1970s—a culture that laid the foundation for the 2011 Syrian Revolution. The emergence of prison literature as a specific genre helped articulate opposition to authoritarian states, including the Asad regime. However, the significance of Syrian prison literature goes beyond a form of witnessing, expressing creative opposition, and illuminating the larger cultural and historical backstory of the Syrian uprising. Prison literature, in all its diversity, challenges the narrative structures and conventional language of human rights. In doing so, prison literature has played an essential role in generating the “experimental shift” in Arabic literature since the 1960s. Taleghani’s groundbreaking work explores prison writing’s critical role in resistance movements in Syria, the evolution of Arabic literature, and the development of a global human rights.

Diehl, 2020-12-15 Since the nineteenth century, the Western realistic novel has persistently represented the addict as a morally toxic force bent on destroying the institutions, practices, and ideologies that historically have connoted reason, order, civilization. *Addiction, Representation* undertakes an investigation into an alternative literary tradition that unsettles this limited portrayal of the addict. The book analyzes the practices and politics of reading the experimental addiction novel, and outlines both a practice and an ethics of reading that advocates for a more compassionate response to both diegetic and extra-diegetic addicts—an approach that, at its core, is focused on understanding.

cortazar short stories ebook: Feminist Literary and Cultural Criticism Java Singh, 2022-06-19 Feminist Literary and Cultural Criticism explores inter-disciplinary connections across Cultural Anthropology, Geography, Psychology, and feminist literary criticism to develop a theoretical framework for spatial criticism. Using the spatial gynocritics framework developed in the book, it analyzes selected texts from five different genres—short-story, novel, film, cartoons, and OTT series, created by women. The creators discussed in the book constitute a transnational collectivity of women that shares common concerns about gender, environment, technology, and social hierarchies. They comprise a geographically and linguistically diverse group from India, Uruguay, Spain, Argentina, and the USA. The book offers immense potential for a comparative study on numerous aspects, among which the present work concentrates on the treatment of Space, demonstrating that spatial logic and grammar are essential elements of the feminist praxis. The book reveals the unexamined potential in the women creators' praxis of destabilizing, decentring, and destroying the ascribed centres around which social arrangements are structured. Moreover, the book offers valuable analytic tools that add to scholarship in literary theory, comparative cultural studies, comparative literature, gender studies, feminist criticism, and interdisciplinary humanities. It is an indispensable aid to students and faculty in these areas of study, enabling them to critique texts from a fresh perspective.

cortazar short stories ebook: Des/memorias Varios Autores, Silvia Spitta, Valeria Wagner, 2018-10-15 Los ensayos del volumen Des/memorias se interesan por las claves y procesos de pérdida y/o reanimación de la memoria. El término que da título al volumen no es solo -aunque también lo sea- un juego de palabras. Su primer significado -falta de memoria- remite al olvido voluntario o involuntario, material o virtual, que forma parte constitutiva de la memoria. Pensadas como espacios y procesos múltiples y conflictivos, las des/memorias invitan a ir más allá de esa clásica dicotomía memoria versus olvido, para retomar y atender la inextricable relación entre esos dos extremos. El prefijo des denota falta, privación, exterioridad (estar fuera de), pero también inversión, exceso e incluso afirmación, evocando así la complejidad del concepto y de sus posibles declinaciones. La reversibilidad del prefijo (des-montar, des-hacer) apunta a la memoria como un trabajo de reelaboración, reactualización y continua reconfiguración de imaginarios e historias, que en nuestras sociedades de fast-forward y fast-rewind se llevan a cabo difícilmente. Des/memorias se desplaza no solo hemisféricamente, conjugando el norte y el sur americanos, sino también sincrónica y diacrónicamente: desde el horror vacui barroco y los mitos coloniales del ingenio azucarero y su persistencia actual, hasta los más recientes ensayos de recuperación de la memoria post dictaduras del Cono Sur en la fotografía, el cine y la narrativa, pasando por performances de la memoria inscritos en la nostalgia culinaria del exilio o en la lectura lenta como arte rememorativo.
