**contemporary romance ebook:** *Imagining Gender in Biographical Fiction* Julia Novak, Caitríona Ní Dhúill, 2022-12-15 This volume addresses the current boom in biographical fictions

across the globe, examining the ways in which gendered lives of the past become re-imagined as gendered narratives in fiction. Building on this research, this book is the first to address questions of gender in a sustained and systematic manner that is also sensitive to cultural and historical differences in both raw material and fictional reworking. It develops a critical lens through which to approach biofictions as 'fictions of gender', drawing on theories of biofiction and historical fiction, life-writing studies, feminist criticism, queer feminist readings, postcolonial studies, feminist art history, and trans studies. Attentive to various approaches to fictionalisation that reclaim, appropriate or re-invent their 'raw material', the volume assesses the critical, revisionist and deconstructive potential of biographical fictions while acknowledging the effects of cliché, gender norms and established narratives in many of the texts under investigation. **contemporary romance ebook:** *Digital Social Reading* Federico Pianzola, 2025-01-21 How digital social reading apps are powerfully changing—and nurturing—the way we read. Conventional wisdom would have us believe that digital technology is a threat to reading, but in *Digital Social Reading*, Federico Pianzola argues that reading socially through digital media can help people grow a passion for reading and, in some cases, even enhance text comprehension. Digital social reading (DSR) is a term that encompasses a wide variety of practices related to the activity of reading and using digital technologies and platforms (websites, social media, mobile apps) to share thoughts and impressions about books with others. This book is the first systematization of DSR practices, drawing on case studies from Wattpad, AO3, and Goodreads on a worldwide scale. Using a combination of qualitative and computational methods, Pianzola offers fresh insight into the reading experience on the scale of big data. He discusses the impact of digital technology on reading skills and shows that a change of methodological perspective is necessary to understand the positive potential of DSR for promoting reading more broadly. He argues that it is not just the medium that changes but also the context and the attitudes of readers. He also asserts that grassroots media and open, bottom-up communities are crucial to the success of many reading practices today, especially with young audiences.
