contemporary drama service pdf: Post-heritage Perspectives on British Period Drama Television Will Abbiss, 2023-06-09 Drawing upon the existing scholarship of period drama and emerging research into new media ecologies, instigated by television streaming services such as Netflix, this book establishes a critical framework for understanding the representation of nationhood and cultural identity in television drama. By formalising the term 'post-heritage' the book proposes a methodology which recognises the interplay of traditional and innovative elements within period drama productions. The book applies this critical perspective to popular British period drama productions from the 2010s, with examples including *The Crown*, the 'society dramas' of *Upstairs Downstairs* and *Downton Abbey*, Steven Knight's Dickens adaptations, and Stephen Poliakoff's recent oeuvre, to demonstrate the benefits of evaluating period drama as part of twenty-first century television's developments. It challenges the assumptions around characteristics and ideological purpose that period drama discourse often contends with, and offers new perspectives on understanding the past through televisual representations. This book will be important reading for students and scholars of television studies, film studies and cultural studies.

contemporary drama service pdf: Beyond Innocence Adele Senior, 2024-09-22 On a global platform we are witnessing the increased visibility of the people we call children and teenagers as political activists. Meanwhile, across the contemporary performance landscape, children are participating as performers and collaborators in ways that resonate with this figure of the child activist. *Beyond Innocence: Children in Performance* proposes that performance has the ability to offer alternatives to hegemonic perceptions of the child as innocent, in need of protection, and apolitical. Through an in-depth analysis of selected performances shown in the UK within the past decade, alongside newly gathered documentation on children's participation in professional performance in their own words, this book considers how performance might offer more capacious representations of and encounters with children beyond the nostalgic and protective adult gaze elicited within mainstream contexts. Motivated by recent collaborations with children on stage that reimagine the figure of the child, the book offers a new approach to both reading age in performance and also doing research with children rather than on or about them. By redressing the current imbalance between the way that we read children and adults' bodies in performance and taking seriously children's cultures and experiences, *Beyond Innocence* asks what strategies contemporary performance has to offer both children and adults in order to foster shared spaces for social and political change. As such, the book develops an approach to analysing performance that not only recognises children as makers of meaning but also as historically, politically, and culturally situated subjects and bodies with lived experiences that far exceed the familiar narratives of innocence and inexperience that children often have to bear.

contemporary drama service pdf: Performance, Medicine and the Human Alex Mermikides, 2020-02-20 Performance and medicine are now converging in unprecedented ways. London's theatres reveal an appetite for medical themes – John Boyega is subjected to medical experiments in Jack Thorne's *Woycek*, while Royal National Theatre produces a novel musical about cancer. At the same time, performance-makers seek to improve our health, using dance to increase mobility for those living with Parkinson's disease or performance magic as physiotherapy for children with paraplegia. *Performance, Medicine and the Human* surveys this emerging field, providing case studies based on the author's own experience of devising medical performances in collaboration with cancer patients, biomedical scientists and healthcare educators. Examining contemporary medical performance reveals an ancient preoccupation, evident in the practices of both theatre and healing, with the human. Like medicine, theatre puts the human on display in order to understand and, perhaps, alleviate the suffering inherent to the human condition. Medical practice constitutes a sort of theatre in which doctors, nurses and patients perform their

humaneness and humanity. This insight has much to offer at a time when established notions of the human are being radically rethought, partly in response to emerging biomedical knowledge. Performance, Medicine and the Human argues that contemporary medical performance can shed new light on what it means to be human – and what we mean by the human, the humane, humanism and the humanities – at a time when these notions are being fundamentally rethought. Its insights are relevant to scholars in performance studies, the medical humanities, healthcare education and beyond.

contemporary drama service pdf: Consuming Scenography Nebojša Tabacki, 2020-06-25
Longlisted for the PQ Best Publication Award in Performance Design & Scenography 2023
Consuming Scenography offers an insight into contemporary scenographic practice beyond the theatre. It explores the ways in which scenography is used to create a global cultural impact and accelerate profits in the site-specific context of themed shopping malls. It analyses the effect of the architectural, aesthetic, spatial, material and sensory aspects of design through their performative encounters with consumers in order to offer a better understanding of performance design. In the first part the author explores the spatial seduction of an enclosed market space and traces the origins of scenographic temporality in permanent architectonic spaces for trade and commerce, from ancient Greek and Roman roofed markets and Oriental bazaars to 19th-century arcades and department stores to modern-day shopping malls. The second section addresses the site-specific theatricality of the shopping mall, considering the use of performative aspects of scenography in the creation of corporate identity. It engages with production and consumption of experience in themed shopping malls, using historical, aesthetical, social and political lenses. In the final section, the author intertwines fluidity of market changes with flexibility of scenographic matter, drawing attention to both contradictions and prospects that merging of scenography and architecture can bring along. Considering a variety of case studies of themed shopping malls, including the Ibn Battuta Mall in Dubai, Terminal 21 in Bangkok, the Villaggio in Doha and Montecasino in Johannesburg, as well as further examples from Europe, USA and Asia – this book provides a wide-ranging critical examination of the ways in which scenographic thinking and practices are exploited in wider cultural contexts for impact, branding, and higher profits.

contemporary drama service pdf: The Moral Distress Syndrome Affecting Physicians Eldo Frezza, MD, MBA, FACS, 2020-09-24
The rise of suicide and burnout among physicians has brought a new disease to the healthcare provider, which we previously thought only affected the soldier: moral distress syndrome, second only to moral injury. In this book we introduce the concept of moral distress syndrome, which includes any or all of the following: depression, PTSD, risk of suicide, divorce, emotional detachment, and the inability to build healthy relationships and empathy. While veterans can report to veteran hospitals for treatment, the physician cannot find treatment or support without fear of losing their license, their hospital privileges, and their job. Therefore, they are stuck dealing with the issue themselves, along with their family or their circle of friends. To raise decisive awareness of the problems related to moral distress, we wrote this book. This book is designed around physicians talking to other physicians about their moral distresses in a safe space. It brings all the aspects of the moral distress syndrome in a format familiar to the physician: grand rounds with a magistral lecture, where the audience asks the question and directly participates on the subject. The reader will feel like part of the audience and may want to ask their own questions as the book progresses. The format of the book is divided into three parts. In the first part, the research, data, and a crude number of problems are given: moral distress syndrome, PTSD, burnout, suicide, divorce rates, emotional detachment, legal distress syndrome, physicians leaving medicine, and the feeling of being a hamster in a wheel. In the second part, we embellish on real life experiences of physicians to highlight the pain and depth of the moral distress they feel. We share stories around the character—their family, love life, divorce, etc.—to show the individual person

behind the doctor. In the third part, we focus on society and physician suffering and the birth of moral distress. This part focuses on the physician's empathy as a way to point out his problems, weaknesses, and issues, and find possible solutions for him and other physicians facing the same issues. At the end of the third part, we discuss how it is the responsibility of physicians, patients, and society as a whole to heal in the face of moral injury, as recommended by the American Medical Association. We finish with the search for good friends and safe spaces, the cornerstones for the healing process. Structure of the Chapters. To make it easier to follow the material, at the beginning of each chapter we outline the points discussed, as a speaker outlines the material, summarizing it in the first slide of each topic. We hope that this way the readers can focus on the issues quickly throughout the book. This book is formatted as a business novel and therefore the characters and situations are drawn from liberally. As well as reading like a novel, the reader can read each chapter separately and still understand the points.

contemporary drama service pdf: Creating Space for Shakespeare Rowan Mackenzie, 2023-02-09 Applied Shakespeare is attracting growing interest from practitioners and academics alike, all keen to understand the ways in which performing his works can offer opportunities for reflection, transformation, dialogue regarding social justice, and challenging of perceived limitations. This book adds a new dimension to the field by taking an interdisciplinary approach to topics which have traditionally been studied individually, examining the communication opportunities Shakespeare's work can offer for a range of marginalized people. It draws on a diverse range of projects from across the globe, many of which the author has facilitated or been directly involved with, including those with incarcerated people, people with mental health issues, learning disabilities and who have experienced homelessness. As this book evidences, Shakespeare can be used to alter the spatial constraints of people who feel imprisoned, whether literally or metaphorically, enabling them to speak and to be heard in ways which may previously have been elusive or unattainable. The book examines the use of trauma-informed principles to explore the ways in which consistency, longevity, trust and collaboration enable the development of resilience, positive autonomy and communication skills. It explores this phenomenon of creating space for people to find their own way of expressing themselves in a way that mainstream society can understand, whilst also challenging society to 'see better' and to hear better. This is not a process of social homogenisation but of encouraging positive interactions and removing the stigma of marginalization.

contemporary drama service pdf: *Documentary Theatre and Performance* Andy Lavender, 2024-07-25 What distinguishes documentary theatre from other forms of drama? How has it integrated different media across the years, and to what effect? What is its relationship to truth and reality, and defining moments of civic unrest and political change? In this short, authoritative book, Andy Lavender surveys a century of documentary theatre and performance and analyses key productions. Arranged in 3 sections that take a broadly chronological approach, the volume considers the nature of documenting, forms of intervention through theatre, the presentation of lived experience, and issues of truth, reality and representation. The book includes a variety of case studies, beginning with Piscator's *In Spite of Everything!* (1925) and tracing the work that followed in Europe and America, including the tribunal and testimony plays of the 1990s and 2000s. It examines the relationship of 3 key productions to moments of civic and political crisis: *Fires in the Mirror: Crown Heights Brooklyn and Other Identities* (1992), *Twilight: Los Angeles, 1992* (1993) and *The Colour of Justice: The Stephen Lawrence Enquiry* (1999). Finally, it looks at the impact of digital technologies, social media and hybrid artforms in the 21st century, to explore the engagement of documentary performance with mediations and experiences of cultural change and shifting identities across a range of case studies.
