Creating Your Own Daily News Quiz

Draft clear, concise questions that accurately reflect recent events and provide multiple answer choices. Incorporate explanations for each answer to enhance learning.

Use quiz-making tools or platforms that allow you to update content daily and track user performance. Consider adding features like timers, leaderboards, and badges to motivate participants. Regularly review and refresh quiz content to maintain accuracy and relevance.

daily news quiz: Newsgames Ian Bogost, Simon Ferrari, Bobby Schweizer, 2012-09-21 How videogames offer a new way to do journalism. Journalism has embraced digital media in its struggle to survive. But most online journalism just translates existing practices to the Web: stories are written and edited as they are for print; video and audio features are produced as they would be for television and radio. The authors of Newsgames propose a new way of doing good journalism: videogames. Videogames are native to computers rather than a digitized form of prior media. Games simulate how things work by constructing interactive models; journalism as game involves more than just revisiting old forms of news production. Wired magazine's game Cutthroat Capitalism, for example, explains the economics of Somali piracy by putting the player in command of a pirate ship, offering choices for hostage negotiation strategies. Videogames do not offer a panacea for the ills of contemporary news organizations. But if the industry embraces them as a viable method of doing journalism—not just an occasional treat for online readers—newsgames can make a valuable

contribution.

daily news quiz: Pennies from an Angel Tamara Pelosi, 2008-11 For the first time, I reveal the horrendous events that began on October 21, 2001 when my husband, Dan Pelosi, became the primary suspect in the murder of Theodore Ammon. Three years later he was found guilty and sentenced to twenty-five years to live. When the bludgeoned naked body of the wealthy financier was found in his East Hampton country estate, my life and the lives of my children were never the same again. The death of the New York millionaire instantly became a sensational news item that led to hundreds of stories printed in every Long Island newspaper as well as lengthy articles in Time Magazine, The Star and other tabloids. The East Hampton murder didn't stop the printed word, national television jumped in with specials on Paula Zahn Live, Primetime, Dateline, 48 Hours, Court TV and a Lifetime TV movie called Murder in the Hamptons. Depressed, humiliated and filled with shame, I prayed to God for help. He sent me an Angel. When I felt confused and alone, pennies miraculously appeared that gave me the faith to forge ahead. Surprisingly, from a place of disgrace and shame, and the help of an Angel, I found the strength to hold my head up high. It has taken me over five years to find the courage to tell what it was like living on the sideline of a sensational murder, and more importantly, to expose the insanity of a twenty-year dysfunctional marriage.

daily news quiz: *A Path Forward for NAFTA* C. Fred Bergsten, Monica de Bolle, 2017-07-31 The North American Free Trade Agreement (NAFTA) ranks at the top of anyone's list of the most controversial trade deals of all time. Reviled by critics as unfair and as a job destroyer, praised by its defenders as having a documented record of success in spurring economic growth, NAFTA reduced tariff barriers to zero for the United States, Mexico, and Canada and led to a tripling of trade among these three countries over the last 23 years. The Peterson Institute for International Economics (PIIE) has abundantly detailed the many gains and acknowledged costs of NAFTA in numerous publications. Now that President Donald Trump has launched a renegotiation of NAFTA—having at least for the moment abandoned his 2016 campaign pledge to cancel the pact outright—the fundamental question is: Can such a renegotiation produce a positive result? A broad range of experts who have contributed to this PIIE Briefing say "yes." The new negotiations can succeed only if they focus on how the agreement can be updated and upgraded, however. NAFTA can be modernized only if President Trump's zero-sum "America First" agenda is replaced by one that seeks to benefit all three countries and improve their competitiveness in an increasingly competitive global economy. Prioritizing American interests is of course essential in any US trade negotiation. But an obsessive concern about bilateral trade balances and narrow special interests in the United States, as opposed to broader national and regional interests, would not only deadlock the negotiations but

also likely lead to inferior outcomes for all three countries, or even a breakdown in the talks and an abrogation of the agreement. And walking away from NAFTA altogether would be disastrous for consumers, producers, and retailers in the United States. As argued in several chapters of this Briefing, abandoning NAFTA would degrade regional competitiveness and terminate jobs across North America, undoing the integration achieved since the agreement's inception.
