**educational assessment tools printable: Embracing All Learners: Pedagogies, Policies, and Practices for Inclusive Education in India** Ms. Ruchi Sachan, Dr. Divya Sharma, Dr. Jaya SinghL, Dr. Gopa Sharma, PREFACE Education, in its truest form, is the great equalizer a force that has the potential to dismantle barriers, transcend differences, and open pathways to opportunity for all. In India, with its extraordinary cultural, linguistic, and socio-economic diversity, the vision of “education for all” is not merely an aspirational statement but an urgent mandate that requires deliberate action, structural reform, and a shared commitment to equity. This book, *Embracing All Learners: Pedagogies, Policies, and Practices for Inclusive Education in India*, emerges from the belief that inclusion is not an optional add-on to the education system; it is the foundation on which a truly democratic and humane society must stand. Over the last two decades, global frameworks such as the United Nations Convention on the Rights of Persons with Disabilities (UNCRPD) and national legislations like the Rights of Persons with Disabilities Act (RPWD) have redefined inclusion as a fundamental right rather than a charitable gesture. India’s policy landscape, enriched by the Right to Education Act (2009/2012) and the National Education Policy (2020), has increasingly emphasized the dismantling of systemic barriers and the creation of accessible, participatory learning spaces. However, the path from policy to practice remains uneven, challenged by gaps in awareness, training, resources, and infrastructure. This book aims to bridge these gaps by offering a comprehensive, context-sensitive exploration of inclusion in education. It moves beyond theory to present practical, adaptable strategies for creating classrooms where every child regardless of disability, gender, caste, language, or socio-economic background can thrive.
