download ember city pdf: Innovative Solutions for Creating Sustainable Cities Sylvie Albert, 2019-08-30 How do we prepare for and manage the challenges and the transformations that are increasingly confronting cities? Solutions are necessary for the impacts expected from the global population movement toward urban centres; the evolution of technologies and its influence on the economy; the evolving socio-cultural fabric of our cities and what it means for citizen engagement and happiness; and for the increasing need to protect and better manage the environment. The series of essays presented here will help governments, organizations, and concerned citizens think differently about ways we can improve the places we call home. It will stimulate local stakeholders to move away from silo-thinking and work collaboratively toward innovative solutions to make cities more liveable and sustainable. The volume brings together international experts on development, innovation, education, health, digitalization, and planning to provide stimulating new ideas and successful examples of tools and systems being used worldwide to improve the future of cities.

download ember city pdf: The Transformation of Human Rights Fact-finding Philip Alston, Sarah Knuckey, 2016 Fact-finding is at the heart of human rights advocacy, and is often at the center of international controversies about alleged government abuses. In recent years, human rights fact-finding has greatly proliferated and become more sophisticated and complex, while also being subjected to stronger scrutiny from governments. Nevertheless, despite the prominence of fact-finding, it remains strikingly under-studied and under-theorized. Too little has been done to bring forth the assumptions, methodologies, and techniques of this rapidly developing field, or to open human rights fact-finding to critical and constructive scrutiny. The Transformation of Human Rights Fact-Finding offers a multidisciplinary approach to the study of fact-finding with rigorous and critical analysis of the field of practice, while providing a range of accounts of what actually happens. It deepens the study and practice of human rights investigations, and fosters fact-finding as a discretely studied topic, while mapping crucial transformations in the field. The contributions to this book are the result of a major international conference organized by New York University Law School's Center for Human Rights and Global Justice. Engaging the expertise and experience of the editors and contributing authors, it offers a broad approach encompassing contemporary issues and analysis across the human rights spectrum in law, international relations, and critical theory. This book addresses the major areas of human rights fact-finding such as victim and witness issues; fact-finding for advocacy, enforcement, and litigation; the role of interdisciplinary expertise and methodologies; crowd sourcing, social media, and big data; and international guidelines for fact-finding.

download ember city pdf: Crossing Borders II Amaia Pérez Orozco, Denise Paiewonsky, Mar García Domínguez, 2010 This publication is the result of theoretical reflections and empirical studies carried out by the United Nations International Research and Training Institute for the Advancement of Women (UN-INSTRAW). It explores what other issues, beyond remittances alone, constitute strategic topics for deeper analysis. The broader aim is to create - from a gender perspective - a positive synergy between migration and development. This publication is evidence of the need to consider and debate new paradigms in order to identify public policies and programmes which make gender equality central to development, and which recognize women as leaders in different spheres of action.

download ember city pdf: Terrorism and Counterterrorism Brigitte L. Nacos, 2023-05-16 Focusing on the continued terrorist threat by jihadist groups, such as Al Qaeda and ISIS, and homegrown violent far-right and far-left extremists in the West, Terrorism and Counterterrorism investigates this form of political violence in a historical and contemporary context. In this comprehensive and highly readable text, renowned expert Brigitte Nacos clearly defines terrorism's diverse causes, actors, and strategies; outlines anti- and counterterrorist responses; and highlights terrorism's relationship with the public and media. Terrorism and Counterterrorism introduces

students to the field's main debates and helps them critically assess our understanding of, and our strategies for, addressing this complex and enduring issue. New to the Seventh Edition: The new chapter 3 reviews the history of terrorism—both domestic and international, whereas the new chapter 4 analyses the terrorist landscape in the third decade of the 21st century—including the transnational links between violent far-right and far-left violent extremists. The discussion of religious terrorism in chapter 5 ends with an added section about QAnon as religiopolitical cult. An extended section in chapter 7 is devoted to the increasingly militant roles of females in violent far-right extremism. The revised chapter 10 starts with the withdrawal of U.S.-led troops from Afghanistan and an account of total costs spent on the post-9/11 war against terrorism before discussing the counterterrorism strategies of presidents G.W. Bush, Obama, Trump, and Biden. The failures and successes of the U.S. intelligence community in efforts to prevent terrorism at home with relevant data and case studies are new features in chapter 12.

download ember city pdf: **The Pineapple from Domestication to Commodification**

Victoria Avery, Melissa Calaresu, 2025-10-15 The pineapple's 'discovery' by European colonisers in the late fifteenth century and its remarkable global trajectory – from an early modern object of rarity, desire, and horticultural innovation to a cheap, canned consumable and fair-trade logo today – is a story of modern globalisation. *The Pineapple from Domestication to Commodification* is a wide-ranging, interdisciplinary volume intended to provoke timely debate and generate radical rethinking of an overly familiar fruit with associations from luxury to kitsch. It deliberately problematizes the pineapple by investigating understudied tensions between its representational power and the historical and political contexts of its worldwide production and consumption. This connects the global and local at the heart of contemporary debates about the nature and origins of our food. It will have cross-disciplinary appeal for scholars of politics, economics, history, plant sciences, food, and material culture as well as for broader audiences interested in food, gardening, the environment, and visual arts.

But it's winter now, and the harsh realities of their new world have begun to set in. When Doon finds a book that hints at an important, long-lost device, it doesn't take much for him to convince Lina to join him for one last adventure in the place they used to call home. After all, the book is eerily similar to the instructions that led them out of the darkness -- how could they not at least try to unpack its secrets? But will this mysterious technology be enough to help their people? And what -- and who -- will they find when they return?
