educational policy textbook download: *Education Policy and Power-Sharing in Post-Conflict Societies* Giuditta Fontana, 2016-08-24 This book explores the nexus between education and politics

in Lebanon, Northern Ireland, and Macedonia, drawing from an extensive body of original evidence and literature on power-sharing and post-conflict education in these post-conflict societies, as well as the repercussions that emerged from the end of civil war. This book demonstrates that education policy affects the resilience of political settlements by helping reproduce and reinforce the mutually exclusive religious, ethnic, and national communities that participated in conflict and now share political power. Using curricula for subjects—such as history, citizenship education, and languages—and structures like the existence of state-funded separate or common schools, Fontana shows that power-sharing constrains the scope for specific education reforms and offers some suggestions for effective ones to aid political stability and reconciliation after civil wars.

educational policy textbook download: Higher Education Policy in the Philippines and ASEAN Integration Kolawole Samuel Adeyemo, 2019-09-16 Globalisation has brought a number of regional cooperation, collaboration, partnership and networking initiatives among different countries. The regionalisation of higher education or its initiators have used different terms to define their objectives. For Asian higher education, this relationship has extended beyond the broader idea of higher education cooperation for instance, to include different networks and agreements within region and outside region on matters related to research, student mobility and quality assurance among Asian countries and between Asia and other countries that share a similar vision on education. This book examines and analyses the status of education policy in the Philippines and, more particularly, focuses on the issue of the integration of higher education in the Association of Southeast Asian Nations (ASEAN). It further examines ASEAN integration policies and what the Philippines could do to underpin these policies. The objective is to better understand the problems of global policy in the context of regionalisation, harmonisation and integration from both an ASEAN and a Philippine perspective. Prospective mechanisms of ASEAN for upgrading the quality of education provision through student mobility, staff exchange, regional accreditation and articulation are succinctly argued in this book. Methodologically, various research designs and methods, including a literature review, as well as an empirical data and secondary data analysis were used. ASEAN leaders, higher education researchers and policymakers may find the results discussed in this book useful.
