download ya thrillers: Writers' Handbook 2014 J. Paul Dyson, 2013-08-16 This indispensable guide for writers provides details of hundreds of literary agents, book publishers, and magazines; including contact details, types of material accepted, and how to approach them. Subject indexes for each area provide easy access to the markets you need, with specific lists for everything from romance publishers, to poetry magazines, to literary agents interested in thrillers. It also provides unparalleled access to international markets. The internet has made the publishing industry more global than ever, with markets increasingly accepting submissions by email (some no longer accept postal submissions at all). Other directories have failed to respond to this, continuing to focus on one single country, but this directory provides you with that all-important access to overseas opportunities that are now just an email away. And by focusing exclusively on what's important to writers - contact details for literary agents, publishers, and magazines - this directory is able to provide more listings at a lower price. There are no adverts, no advertorials, and no unnecessary articles or obscure listings padding out hundreds of pages. Two established alternative directories both run to over 800 pages, yet one has only 204 pages of publisher, agent, and magazine listings, and the other has only 10 pages devoted to literary agent listings. This book does better on both counts, and yet remains substantially cheaper than either alternative. The book also allows you to create a subscription to the firstwriter.com website for free until 2015. This means you can get free access to the firstwriter.com website, where you can find even more listings, and also benefit from other features such as advanced searches, daily email updates, feedback from users about the markets featured, saved searches, competitions listings, searchable personal notes, and more.
