derrick whitehead book: *History of the Book in Australia Volume 3* Craig Munro, 2006-07 This new volume in UQP's History of the Book in Australia series explores Australian book production and consumption from 1946 to the present day. In the immediate postwar era, most books were imported into a colonial market dominated by British publishers. Paper Empires traces this fascinating and volatile half-century, using wide-ranging research, oral history and memoir to explore the worlds of book publishing, selling and reading. After 1945, Australian publishing went from a handful of fledgling businesses to the billion dollar industry of today with thousands of new titles each year and a vast array of imported books. Publishing's postwar expansion began with the baby boom and the increased demand for school texts, with independent houses blossoming during the 1960s and 70s followed by the current era dominated by global conglomerates. All aspects of print culture are explored, from authorship and editing to bookselling, libraries and reading habits, in the context of today's rapidly changing publishing landscape with its many technological challenges. A wide range of expert contributors, including book-trade practitioners, have produced this lively and indispensable account of our vital cultural industry.

It investigates changing notions of Australian girlhood across the period, and explores the ways that parents, teachers, educators, journalists and politicians attempted to mitigate concerns about girls' development through the promotion of 'healthy' literature. The book also addresses the influence of British publishers to Australian girl-readers and the growing importance of Australian publishers throughout the period. It considers the rise of Australian literary nationalism in the global context, and the increasing prominence of Australian literature in the period after the Second World War. It also shows how access to reading material improved for girls over the first half of the last century.

derrick whitehead book: *Sensibility and Sense* Arnold Berleant, 2011-11-28 Aesthetic sensibility rests on perceptual experience and characterizes not only our experience of the arts but our experience of the world. Sensibility and Sense offers a philosophically comprehensive account of humans' social and cultural embeddedness encountered, recognized, and fulfilled as an aesthetic mode of experience. Extending the range of aesthetic experience from the stone of the earth's surface to the celestial sphere, the book focuses on the aesthetic as a dimension of social experience. The guiding idea of pervasive interconnectedness, both social and environmental, leads to an

aesthetic critique of the urban environment, the environment of daily life, and of terrorism, and has profound implications for grounding social and political values. The aesthetic emerges as a powerful critical tool for appraising urban culture and political practice.

derrick whitehead book: Journey To Cooper's Creek Hermann Beckler, 2013-04-01

First-hand accounts of the myth-laden Burke and Wills expedition are remarkably few, in contrast to the reams of subsequent commentary and conjecture. Wills's journal and statements by others in the party were published at the time, but little more. Hermann Beckler, botanical collector and doctor to the expedition, wrote the only other substantial account, in his native German. The manuscript remained with his family for nearly a century. It is now published for the first time. This highly readable account, with drawings and maps, offers insights into the causes of the expedition's failure—an ill-chosen leader and route, and inappropriate and excessive supplies. In increasingly desperate conditions Beckler collected and identified the native flora, and recorded vivid and positive descriptions of the landscape and the Aboriginal people. His acute observations indicate what might have been achieved had the expedition pursued its scientific brief.

derrick whitehead book: Derek Jarman's Visionary Arts Michael Charlesworth, 2024-05-16

Derek Jarman's place in the history of film is assured by virtue of his vibrant, defiant films that experiment with the very process of film-making and create new forms. His paintings, their excitements and their profundity, are less well known. Michael Charlesworth sheds light on the varied ramifications of Jarman's artistic practice from his years at Prospect Cottage, Dungeness, and provides the first book-length study of his interest in depth psychology. He draws on Jarman's paintings, especially his landscapes from the 1960s and 70s, his multiple series such as 'black' and 'broken glass', GBH, Queer and Evil Queen, and his last Ecstatic Landscapes (1991-3). He also showcases Jarman's excellence as a writer with respect to his memoir, *Kicking the Pricks*. In a novel approach to Jarman's cinema, selecting films such as *Journey to Avebury* (1973), *Caravaggio* (1986), *The Garden* (1990) and *Blue* (1993), Charlesworth emphasizes themes and artistry rather than narrative. Exploring the ways in which Jungian and post-Jungian psychology were absorbed into Jarman's varied works, *Derek Jarman's Visionary Arts* provides a fresh perspective on his painting, film and writing. It celebrates him as one of the major British artists of the late 20th century, engaging with current debates about queer sexualities, environmentalism and climate catastrophe.

derrick whitehead book: Remembering Migration Kate Darian-Smith, Paula Hamilton, 2019-08-10 This book provides the first comprehensive study of diverse migrant memories and what they mean for Australia in the twenty-first century. Drawing on rich case studies, it captures the changing political and cultural dimensions of migration memories as they are negotiated and commemorated by individuals, communities and the nation. *Remembering Migration* is divided into two sections, the first on oral histories and the second examining the complexity of migrant heritage, and the sources and genres of memory writing. The focused and thematic analysis in the book explores how these histories are re-remembered in private and public spaces, including museum exhibitions, heritage sites and the media. Written by leading and emerging scholars, the collected essays explore how memories of global migration across generations contribute to the ever-changing social and cultural fabric of Australia and its place in the world.

In Depth Psychology this is an unconscious as well as alchemical reaction that is understood as part of psychic projective phenomena of affinity, where a constellated chemistry between two individuals is ignited. This phenomenon was understood by Jung mythically as the unio Mystica, or the union of opposites. This presentation will share how Jung illustrated this psychological understanding of the transference phenomena in alchemical symbolism and illustrations taken from the 16th-century alchemical text, Rosarium Philosophorum. He utilized these illustrations to show the connections that exist between the transformative process shared by alchemy and an analogous transformative process that he discovered in the psychic growth of an individual.

derrick whitehead book: Horizons of Difference Ruthanne Crapo Kim, Yvette Russell, Brenda Sharp, 2022-07-01 Horizons of Difference offers twelve original essays inspired by Luce Irigaray's complex, nuanced critique of Western philosophy, culture, and metaphysics, and her call to rethink our relationship to ourselves and the world through sexuate difference. Contributors engage urgent topics in a range of fields, including trans feminist theory, feminist legal theory, film studies, critical race theory, social-political theory, philosophy of religion, environmental ethics, philosophical aesthetics, and critical pedagogy. In so doing, they aim to push the scope of Irigaray's work beyond its horizon. Horizons of Difference seeks conversations that Irigaray herself has yet to fully consider and explores areas that stretch the limits of the notion of sexuate difference itself. Sexuate difference is a unifying mode of thought, bringing disparate disciplines and groups together. Yet it also resists unification in demanding that we continually rethink the basic coordinates of

space, place, and identity. Ultimately, Horizons of Difference insists that the fragmented, wounded subjectivities within the dominant regime of masculine sameness can inform how we negotiate space, find place, and transform identity.
