**extremism transformation ebook: *Social Roots of Violent Extremism*** Liana Maria Daher, Francesco Antonelli, Valeria Rosato, 2025-08-02 This volume examines the environments that enable radicalization and extremism today, drawing from extensive European research, based on the Horizon 2020 project PARTICIPATION. In these environments, individuals - often from disadvantaged or immigrant backgrounds - rebuild their identities through extremism, finding a sense of belonging in radical, and sometimes violent ideas that are easily accessible online. The book further sheds light on this paradox of modern extremism: while extremists embrace technological tools like digital platforms, they reject core modern values such as personal freedom and cultural diversity. This volume argues for innovative approaches to radicalization, emphasizing prevention through the creation of inclusive social environments and critical dialogue on the role of digital technology in radical movements.
