

enslavement narratives archive

enslavement narratives archive serves as a vital repository for historical documents, personal accounts, and testimonies related to the lived experiences of enslaved individuals. This article explores the significance of enslavement narratives archives, their role in preserving cultural memory, and how they contribute to scholarly research, education, and public awareness. Readers will learn about the origins and development of these archives, their structure, and the impact of digitization. We will also examine the ethical considerations involved in curating such sensitive materials and offer guidance on accessing and utilizing these resources for research and teaching. By providing a comprehensive overview, this article aims to highlight the enduring importance of enslavement narratives archives in understanding history and shaping contemporary discussions about slavery and social justice.

Understanding Enslavement Narratives Archives

Enslavement narratives archives are specialized collections that document the personal stories and experiences of enslaved individuals throughout history. These archives preserve firsthand accounts, oral histories, letters, autobiographies, and other primary sources that illuminate the realities of slavery in various regions and eras. The purpose of enslavement narratives archives is to safeguard these invaluable testimonies for future generations, ensuring that the voices of those who endured slavery are not lost to time. By centralizing and organizing these materials, archives make it easier for scholars, educators, and the public to engage with complex histories and gain deeper insights into the cultural, social, and political impacts of enslavement.

Historical Significance and Origins

The Emergence of Enslavement Narratives

Enslavement narratives first gained prominence in the eighteenth and nineteenth centuries, as formerly enslaved individuals began to share their stories through published memoirs, interviews, and abolitionist literature. These early narratives played a crucial role in shaping public perceptions of slavery and fueling anti-slavery movements. The creation of formal enslavement narratives archives emerged as historians and institutions recognized the importance of systematically collecting and preserving these documents. Today, these archives provide a foundation for understanding the personal and collective experiences of enslaved populations.

Major Historical Collections

Several major collections have contributed to the growth of enslavement narratives archives. Notable examples include government-sponsored projects, university repositories, and independent organizations dedicated to gathering oral histories and written testimonies. Many archives have expanded their scope to include global perspectives, acknowledging the widespread impact of slavery across continents and cultures.

- Federal Writers' Project interviews with formerly enslaved individuals
- University-sponsored digitization initiatives
- International collections from Africa, the Caribbean, and Latin America
- Nonprofit organizations preserving oral histories

Key Components of Enslavement Narratives Archives

Types of Materials Collected

Enslavement narratives archives encompass a diverse array of materials. These can include handwritten letters, diaries, recorded oral histories, published autobiographies, photographs, and official documents. Each type of material offers unique insights into the daily lives, struggles, and resilience of enslaved individuals. Archivists work diligently to catalog and preserve these artifacts, ensuring their authenticity and historical value.

Organization and Structure

The organization of enslavement narratives archives typically involves categorizing materials by geographic region, time period, or thematic focus. Detailed metadata and indexing systems allow for efficient search and retrieval, facilitating research and educational use. Many archives employ expert curators and historians to maintain the integrity and accuracy of the collections.

Digitization and Accessibility

Benefits of Digital Archives

Digitization has revolutionized the accessibility of enslavement narratives archives. By converting physical documents and recordings into digital formats, archives can reach a global audience and safeguard materials against deterioration. Digital archives often feature searchable databases, interactive exhibits, and multimedia resources, making it easier for researchers and educators to explore and analyze the narratives.

Challenges in Digitization

While digitization offers numerous advantages, it also presents challenges. Ensuring the accuracy of digital reproductions, protecting sensitive information, and maintaining data security are ongoing concerns. Archivists must balance broad access with the ethical responsibility to respect the privacy and dignity of those whose stories are preserved.

1. Improved accessibility for scholars and the public
2. Long-term preservation of fragile materials
3. Enhanced searchability and data organization
4. Opportunities for interactive learning and outreach

Ethical Considerations in Archiving Enslavement Narratives

Respecting the Voices of the Enslaved

Ethical stewardship is paramount when curating enslavement narratives archives. Archivists must approach these materials with sensitivity, recognizing the trauma and suffering experienced by those whose stories are documented. Consent, representation, and contextualization are key principles guiding the responsible preservation and presentation of enslavement narratives.

Addressing Issues of Privacy and Consent

Many enslavement narratives were recorded under difficult circumstances, often without the full consent or understanding of the individuals involved. Archivists strive to honor the wishes of descendants and communities, ensuring that materials are used appropriately and respectfully. Balancing the need for historical transparency with privacy concerns is a central challenge in this

field.

Research and Educational Applications

Using Archives for Scholarly Research

Enslavement narratives archives serve as indispensable resources for historians, sociologists, educators, and students. They provide primary source evidence for studies on slavery, race relations, social justice, and cultural identity. Researchers utilize these archives to uncover new perspectives, challenge misconceptions, and contribute to ongoing debates about the legacy of slavery.

Incorporating Narratives into Curriculum

Educators increasingly integrate enslavement narratives into classrooms, using them to foster empathy, critical thinking, and historical understanding. Lesson plans, projects, and interactive activities based on archival materials help students engage with complex topics and develop a nuanced appreciation for the human impact of slavery.

- Primary source analysis exercises
- Multimedia presentations and discussions
- Community-based research projects
- Collaborations with local archives and museums

Preserving Cultural Memory and Promoting Awareness

Impact on Public Understanding

The preservation of enslavement narratives archives plays a crucial role in shaping public awareness of slavery's enduring impact. By making these stories accessible, archives foster dialogue and understanding among diverse communities. They serve as powerful reminders of resilience and contribute to efforts to address historical injustices.

Community Engagement and Outreach

Many enslavement narratives archives engage in outreach activities, partnering with schools, museums, and cultural organizations to share these important stories. Public exhibitions, lectures, and online platforms expand the reach of archival materials, encouraging reflection and action on contemporary issues related to race, equality, and social justice.

Trending Questions and Answers about Enslavement Narratives Archive

Q: What is the purpose of an enslavement narratives archive?

A: The purpose of an enslavement narratives archive is to collect, preserve, and make accessible the personal testimonies and historical documents of enslaved individuals, ensuring their stories inform future generations and scholarly research.

Q: How do enslavement narratives archives contribute to education?

A: These archives provide primary sources for educators and students, supporting curriculum development and fostering deeper understanding of slavery, its effects, and the human experiences associated with it.

Q: What types of materials are found in enslavement narratives archives?

A: Materials typically include oral histories, written memoirs, letters, diaries, photographs, and official documents that detail the experiences of enslaved individuals.

Q: Why is digitization important for enslavement narratives archives?

A: Digitization enhances accessibility, preserves fragile materials, improves searchability, and allows a wider audience to engage with these important historical resources.

Q: How do archivists address ethical issues in curating enslavement narratives?

A: Archivists prioritize respectful representation, privacy, and contextualization, often consulting with descendants and communities to ensure ethical stewardship of these sensitive materials.

Q: Can the public access enslavement narratives archives?

A: Many archives are open to the public, either in physical locations or through online databases, allowing individuals to explore and learn from these collections.

Q: What role do enslavement narratives play in social justice initiatives?

A: These narratives help inform discussions about historical injustices, support advocacy efforts, and encourage reflection on contemporary issues related to race and equality.

Q: Are enslavement narratives archives only focused on the United States?

A: No, many archives include materials from Africa, the Caribbean, Latin America, and other regions affected by slavery, offering a global perspective on the institution and its legacy.

Q: How are enslavement narratives used in scholarly research?

A: Scholars use these archives to analyze historical trends, examine cultural and social impacts, and develop new interpretations of slavery and its aftermath.

Q: What are some challenges in maintaining enslavement narratives archives?

A: Challenges include ensuring authenticity, protecting privacy, securing funding, managing digitization processes, and navigating ethical considerations related to sensitive content.

enslavement narratives archive: Enslaved Archives Maria R. Montalvo, 2024-07-16 Explores the relationship between the production of enslaved property and the production of the past in the antebellum United States. It is extraordinarily difficult for historians to reconstruct the lives of individual enslaved people. Records—where they exist—are often fragmentary, biased, or untrue. In *Enslaved Archives*, Maria R. Montalvo investigates the legal records, including contracts and court records, that American antebellum enslavers produced and preserved to illuminate enslavers' capitalistic motivations for shaping the histories of enslaved people. The documentary archive was not simply a by-product of the business of slavery, but also a necessary tool that enslavers used to exploit the people they enslaved. Building on Montalvo's analysis of more than 18,000 sets of court records, *Enslaved Archives* is a close study of what we can and cannot learn about enslaved individuals from the written record. By examining five lawsuits in Louisiana, Montalvo deconstructs enslavers' cases—the legal arguments and rhetorical strategies they used to produce information and shape perceptions of enslaved people. Commodifying enslaved people was not simply a matter of

effectively exploiting their labor. Enslavers also needed to control information about those people. Enslavers' narratives—carefully manipulated, prone to omissions, and sometimes false—often survive as the only account of an enslaved individual's life. In working to historicize the people at the center of enslavers' manipulations, Montalvo outlines the possibilities and limits of the archive, providing a glimpse of the historical and contemporary consequences of commodification. Enslaved Archives makes a significant intervention in the history of enslaved people, legal history, and the history of slavery and capitalism by adding a qualitative dimension to the analysis of how enslavers created and maintained power.

enslavement narratives archive: Memory and the Archival Turn in Caribbean Literature and Culture Marta Fernández Campa, 2023-04-15 This book discusses an archival turn in the work of contemporary Caribbean writers and visual artists across linguistic locations and whose work engages critically with various historical narratives and colonial and postcolonial records. This refiguration opens a critical space and retells stories and histories previously occluded in/by those records, and in spaces of the public sphere. Through poetics and aesthetics of fragmentation largely influenced by music and popular culture, their work encourages contrapuntal ways of (re)thinking histories; ways that interrogate the influence of colonial narratives in processes of silencing but also centre the knowledge found in oral histories and other forms of artistic archives outside official repositories. Discussing literature and selected artwork by artists from Britain, Cuba, the Dominican Republic, Haiti, Puerto Rico, and Trinidad and Tobago, *Memory and the Archival Turn in Caribbean Literature and Culture* demonstrates the historiographical significance of artistic and cultural production.

enslavement narratives archive: An Archive of Taste Lauren F. Klein, 2020-05-12 A groundbreaking synthesis of food studies, archival theory, and early American literature *There is no eating in the archive*. This is not only a practical admonition to any would-be researcher but also a methodological challenge, in that there is no eating—or, at least, no food—preserved among the printed records of the early United States. Synthesizing a range of textual artifacts with accounts (both real and imagined) of foods harvested, dishes prepared, and meals consumed, *An Archive of Taste* reveals how a focus on eating allows us to rethink the nature and significance of aesthetics in early America, as well as of its archive. Lauren F. Klein considers eating and early American aesthetics together, reframing the philosophical work of food and its meaning for the people who prepare, serve, and consume it. She tells the story of how eating emerged as an aesthetic activity over the course of the eighteenth century and how it subsequently transformed into a means of expressing both allegiance and resistance to the dominant Enlightenment worldview. Klein offers richly layered accounts of the enslaved men and women who cooked the meals of the nation's founders and, in doing so, directly affected the development of our national culture—from Thomas Jefferson's emancipation agreement with his enslaved chef to Malinda Russell's *Domestic Cookbook*, the first African American-authored culinary text. The first book to examine the gustatory origins of aesthetic taste in early American literature, *An Archive of Taste* shows how thinking about eating can help to tell new stories about the range of people who worked to establish a cultural foundation for the United States.

enslavement narratives archive: The Oxford Handbook of the African American Slave Narrative John Ernest, 2014-02-28 Given the rise of new interdisciplinary and methodological approaches to African American and Black Atlantic studies, *The Oxford Handbook of the African American Slave Narrative* will offer a fresh, wide-ranging assessment of this major American literary genre. The volume will begin with articles that consider the fundamental concerns of gender, sexuality, community, and the Christian ethos of suffering and redemption that are central to any understanding of slave narratives. The chapters that follow will interrogate the various agendas behind the production of both pre- and post-Emancipation narratives and take up the various interpretive problems they pose. Strategic omissions and veiled gestures were often necessary in these life accounts as they revealed disturbing, too-painful truths, far beyond what white audiences were prepared to hear. While touching upon the familiar canonical autobiographies of Frederick

Douglass and Harriet Jacobs, the Handbook will pay more attention to the under-studied narratives of Josiah Henson, Sojourner Truth, William Grimes, Henry Box Brown, and other often-overlooked accounts. In addition to the literary autobiographies of bondage, the volume will anatomize the powerful WPA recordings of interviews with former slaves during the late 1930s. With essays on the genre's imaginative afterlife, its final essays will chart the emergence and development of neoslave narratives, most notably in Styron's *The Confessions of Nat Turner*, Toni Morrison's *Beloved* and Octavia Butler's provocative science fiction novel, *Kindred*. In short, the Handbook will provide a long-overdue assessment of the state of the genre and the vital scholarship that continues to grow around it, work that is offering some of the most provocative analysis emerging out of the literary studies discipline as a whole.

enslavement narratives archive: [Uncertain Archives](#) Nanna Bonde Thylstrup, Daniela Agostinho, Annie Ring, Catherine D'Ignazio, Kristin Veel, 2021-02-02 Scholars from a range of disciplines interrogate terms relevant to critical studies of big data, from abuse and aggregate to visualization and vulnerability. This pathbreaking work offers an interdisciplinary perspective on big data, interrogating key terms. Scholars from a range of disciplines interrogate concepts relevant to critical studies of big data--arranged glossary style, from from abuse and aggregate to visualization and vulnerability--both challenging conventional usage of such often-used terms as prediction and objectivity and introducing such unfamiliar ones as overfitting and copynorm. The contributors include both leading researchers, including N. Katherine Hayles, Johanna Drucker and Lisa Gitelman, and such emerging agenda-setting scholars as Safiya Noble, Sarah T. Roberts and Nicole Starosielski.

enslavement narratives archive: [Dreams of Archives Unfolded](#) Jocelyn Fenton Stitt, 2021-06-18 Introduction: Archival dreams and Caribbean life writing -- 'Autobiography in a graveyard' : doors of no return and revolutionary failures -- Speculative autobiography : ghosts and feminist fugitivity -- Repicturing the picturesque : genealogical desire, archives, and descendant community autobiography -- Ashes to ashes, dust to dust : Indo-Caribbean archival impossibility -- Put my mom in there : Memorialization as Caribbean counter-archive -- Coda: Untelling history.

enslavement narratives archive: [Archival Storytelling](#) Sheila Curran Bernard, Kenn Rabin, 2020-04-28 Fully revised and updated, *Archival Storytelling* second edition is a timely, pragmatic look at the use of audiovisual materials available to filmmakers and scholars, from the earliest photographs of the 19th century to the work of media makers today. Whether you're a top Hollywood filmmaker or a first-time documentarian, at some point you are going to want to find, use, and license third-party materials—images, audio, or music that you yourself did not create—to use them in your work. This book explains what's involved in researching and licensing visuals and music, and exactly what media makers need to know when filming in a world crowded with rights-protected images and sounds. Filled with insights from filmmakers, archivists, and intellectual property experts, this second edition defines key terms such as copyright, fair use, public domain, and orphan works. It guides readers through the complex archival process and challenges them to become not only archival users but also archival and copyright activists. This book is an essential resource for both students and professionals, from seasoned filmmakers to those creating their first projects, offering practical advice for how to effectively and ethically draw on the wealth of cultural materials that surround us.

enslavement narratives archive: [The Suicide Archive](#) Doyle D. Calhoun, 2024-09-13 Throughout the French empire, from the Atlantic and the Caribbean to West and North Africa, men, women, and children responded to enslavement, colonization, and oppression through acts of suicide. In *The Suicide Archive*, Doyle D. Calhoun charts a long history of suicidal resistance to French colonialism and neocolonialism, from the time of slavery to the Algerian War for Independence to the "Arab Spring." Noting that suicide was either obscured in or occluded from French colonial archives, Calhoun turns to literature and film to show how aesthetic forms and narrative accounts can keep alive the silenced histories of suicide as a political language. Drawing on scientific texts, police files, and legal proceedings alongside contemporary African and

Afro-Caribbean novels, film, and Senegalese oral history, Calhoun outlines how such aesthetic works rewrite histories of resistance and loss. Consequently, Calhoun offers a new way of writing about suicide, slavery, and coloniality in relation to literary history.

enslavement narratives archive: Folklife Center News , 1999

enslavement narratives archive: *Folklife Center News* American Folklife Center, 1999

enslavement narratives archive: Archives of American Time Lloyd Pratt, 2011-07-07

American historians have typically argued that a shared experience of time worked to bind the antebellum nation together. Trains, technology, and expanding market forces catapulted the United States into the future on a straight line of progressive time. The nation's exceedingly diverse population could cluster around this common temporality as one forward-looking people. In a bold revision of this narrative, Archives of American Time examines American literature's figures and forms to disclose the competing temporalities that in fact defined the antebellum period. Through discussions that link literature's essential qualities to social theories of modernity, Lloyd Pratt asserts that the competition between these varied temporalities forestalled the consolidation of national and racial identity. Paying close attention to the relationship between literary genre and theories of nationalism, race, and regionalism, Archives of American Time shows how the fine details of literary genres tell against the notion that they helped to create national, racial, or regional communities. Its chapters focus on images of invasive forms of print culture, the American historical romance, African American life writing, and Southwestern humor. Each in turn revises our sense of how these images and genres work in such a way as to reconnect them to a broad literary and social history of modernity. At precisely the moment when American authors began self-consciously to quest after a future in which national and racial identity would reign triumphant over all, their writing turned out to restructure time in a way that began foreclosing on that particular future.

enslavement narratives archive: Creole in the Archive Roshini Kempadoo, 2016-10-24 The image of the Caribbean figure has been reconfigured by photography from the mid-19th century onwards. Initial images associated with the slave and indentured worker from the locations and legacies associated with plantation economies have been usurped by visual representations emerging from struggles for social, political and cultural autonomy. Contemporary visual artists engaging with the Caribbean as a 21st century globalised space have focused on visually re-imagining historical material and events as memories, histories and dreamscapes. *Creole in the Archive* uses photographic analysis to explore portraits, postcards and social documentation of the colonial worker between 1850 and 1960 and contemporary, often digital, visual art by post-independent, postcolonial Caribbean artists. Drawing on Derridean ideas of the archive, the book reconceptualises the Caribbean visual archive as contiguous and relational. It argues that using a creolising archive practice, the conjuncture of contemporary artworks, historical imagery and associated locations can develop insightful new multimodal representations of Caribbean subjectivities.

enslavement narratives archive: Archiving Creole Voices Marl'ene Edwin, 2024-12-10

Archiving Creole Voices: Representations of Language and Culture begins with a re-reading of selected texts by female Caribbean writers, specifically, Joan Anim-Addo, Olive Senior and Merle Collins and proclaims that literary fiction can and does function as a 'creolised archive'. Marl'ene Edwin argues that historic marginalisation, which has barred Caribbean scholars from entering 'formal' archival spaces, has created an alternative discourse. Consequently, Caribbean writers have chosen the imagined landscapes of literature, a new archival space for the Caribbean, within which to document and preserve Caribbean cultural traditions. Fiction allows for the safeguarding of traditions, so how then should Caribbean literature be read? The combination of a physical and a virtual archive, questions the literary and linguistic interface that such a mingling entails in a preservation of Caribbean culture. Edwin argues for an appreciation of orality as performance as well as the reading of texts as 'creolised archive.'

enslavement narratives archive: Before Equiano Zachary McLeod Hutchins, 2022-12-06 In the antebellum United States, formerly enslaved men and women who told their stories and

advocated for abolition helped establish a new genre with widely recognized tropes: the slave narrative. This book investigates how enslaved black Africans conceived of themselves and their stories before the War of American Independence and the genre's development in the nineteenth century. Zachary McLeod Hutchins argues that colonial newspapers were pivotal in shaping popular understandings of both slavery and the black African experience well before the slave narrative's proliferation. Introducing the voices and art of black Africans long excluded from the annals of literary history, Hutchins shows how the earliest life writing by and about enslaved black Africans established them as political agents in an Atlantic world defined by diplomacy, war, and foreign relations. In recovering their stories, Hutchins sheds new light on how black Africans became Black Americans; how the earliest accounts of enslaved life were composed editorially from textual fragments rather than authored by a single hand; and how the public discourse of slavery shifted from the language of just wars and foreign policy to a heritable, race-based system of domestic oppression.

enslavement narratives archive: Revisiting Slave Narratives I Judith Misrahi-Barak, 2016-01-12 One cannot fail to be impressed by the number of works of fiction relating to slavery and the slave trade, writing back to the original slave narratives of the 18th and 19th centuries. If the African-American authors of the 1960s and 1970s are now well-known, they find an echo in works written more recently in the 1980s and 1990s by American, African, African-American and Caribbean writers. About twenty writers come under the scrutiny of renowned scholars, offering perspectives into what makes it so necessary today for writers, critics and readers alike to revisit, reassess and reappropriate the canonical texts of slavery and post-slavery literature. The specificity of this collection is to focus on neo-slave novels while bringing together African-American and Caribbean authors. On ne peut qu'être impressionné par le nombre d'œuvres littéraires de fiction qui se rapportent à l'esclavage et au commerce des esclaves, répondant ainsi aux premiers récits d'esclaves publiés aux XVIIIe et XIXe siècles. Si les auteurs africains-américains des années soixante et soixante-dix sont maintenant bien connus, toute une nouvelle vague d'écrivains Américains, Africains, Africains-Américains et Caribbéens, poursuivent et renouvèlent, depuis les années quatre-vingt et quatre vingt-dix, cette tradition. Rassemblés autour de l'œuvre d'une vingtaine d'écrivains, des universitaires de renom ouvrent, dans ce recueil, des perspectives nouvelles pour comprendre la nécessité qui poussent écrivains, critiques et lecteurs à relire, réécrire et revisiter cette littérature de l'esclavage encore aujourd'hui.

enslavement narratives archive: The Briny South Nienke Boer, 2023-01-30 In *The Briny South* Nienke Boer examines the legal and literary narratives of enslaved, indentured, and imprisoned individuals crossing the Indian Ocean to analyze the formation of racialized identities in the imperial world. Drawing on court records, ledgers, pamphlets, censors' reports, newsletters, folk songs, memoirs, and South African and South Asian works of fiction and autobiography, Boer theorizes the role of sentiment and the depiction of emotions in the construction of identities of displaced peoples across the Indian Ocean. From Dutch East India Company rule in the seventeenth and eighteenth centuries to early apartheid South Africa, Boer shows how colonial powers and settler states mediated and manipulated subaltern expressions of emotion as a way to silence racialized subjects and portray them as inarticulately suffering. In this way, sentiment operated in favor of the powerful rather than as an oppositional weapon of the subaltern. By tracing the entwinement of displacement, race, and sentiment, Boer frames the Indian Ocean as a site of subjectification with a long history of transnational connection—and exploitation.

enslavement narratives archive: American Revolutions in the Digital Age Nora Slonimsky, Mark Boonshoft, Ben Wright, 2024-08-15 The interdisciplinary essays in *American Revolutions in the Digital Age* explore what digital tools can tell us about the late eighteenth- and early nineteenth-century United States and reveal how an understanding of the American past can make sense of our digital present. By employing a host of innovative digital research methods, these authors challenge long-held assumptions about the American past. In addition, this collection uniquely demonstrates how contemporary anxieties about an array of topics, including media

disinformation, patriarchy, economic inequality, and public memory, can be better understood through careful considerations of early American history. Open Access edition funded by Iona University

enslavement narratives archive: Unruly Narrative Samira Spatzek, 2022-09-06 This study deals with the formative powers of modern liberal ideas of private property. The liberal subject emerged with the formations of European liberalism, Atlantic slavery, and settler colonial expansion in the New World. Toni Morrison's *A Mercy* is thus identified as a key literary text that generates a fundamental critique of the connections between self-making and private property at its 17th-century scene.

enslavement narratives archive: Narratives of Dependency Elke Brüggem, Marion Gymnich, 2024-05-20 Given that strong asymmetrical dependencies have shaped human societies throughout history, this kind of social relation has also left its traces in many types of texts. Using written and oral narratives in attempts to reconstruct the history of asymmetrical dependency comes along with various methodological challenges, as the 15 articles in this interdisciplinary volume illustrate. They focus on a wide range of different (factual and fictional) text types, including inscriptions from Egyptian tombs, biblical stories, novels from antiquity, the Middle High German *Rolandslied*, Ottoman court records, captivity narratives, travelogues, the American gift book *The Liberty Bell*, and oral narratives by Caribbean Hindu women. Most of the texts discussed in this volume have so far received comparatively little attention in slavery and dependency studies. The volume thus also seeks to broaden the archive of texts that are deemed relevant in research on the histories of asymmetrical dependencies, bringing together perspectives from disciplines such as Egyptology, theology, literary studies, history, and anthropology.

enslavement narratives archive: Revisiting Slave Narratives I Collectif, 2022-03-25 One cannot fail to be impressed by the number of works of fiction relating to slavery and the slave trade, writing back to the original slave narratives of the 18th and 19th centuries. If the African-American authors of the 1960s and 1970s are now well-known, they find an echo in works written more recently in the 1980s and 1990s by American, African, African-American and Caribbean writers. About twenty writers come under the scrutiny of renowned scholars, offering perspectives into what makes it so necessary today for writers, critics and readers alike to revisit, reassess and reappropriate the canonical texts of slavery and post-slavery literature. The specificity of this collection is to focus on neo-slave novels while bringing together African-American and Caribbean authors.
