It discusses relations between Asian celebrities and digital media across emerging phenomena in celebrity practices, cultures, politics, fandom, and economies. Highlighting original case studies from prominent Asian societies, including India, China, Hong Kong, the Philippines, Singapore, Vietnam, Indonesia, Thailand, South Korea, and Japan, this book sheds much-needed light on the de-Westernisation and internationalisation of celebrity studies and is essential reading for scholars and students in celebrity, fandom, digital media and communication, and cultural studies. 'It has been a long time since the necessity of de-Westernising or de-Anglicising

Yet much more needs to be done and celebrity studies is one of the least de-Westernised fields, given that the concept of “celebrity” itself is rather Euro-American-centric. Asian Celebrity Cultures in the Digital Age is a must-read for all scholars and students seeking to understand the diverse operation of cultural politics of fame and stardom in a digitally connected world.’ —Koichi Iwabuchi, University of Technology Sydney ‘This collection offers a vital intervention into the historically Western-centric field of celebrity studies in its examination of the rich and complex celebrity cultures emerging across Asia. Jian Xu, Glen Donnar, and Divya Garg have assembled a diverse set of scholars whose compelling and dynamic contributions draw attention to the unique historical, social, cultural, and political contexts shaping particular Asian celebrity cultures, as well as the broader impact those celebrity cultures have within an increasingly globalised and digitalised media landscape. Asian Celebrity Cultures in the Digital Age is an important book that sheds much-needed light on the transformations in how we engage with and study celebrities in the twenty-first century.’ —Erin A. Meyers, Oakland University ‘Asian Celebrity Cultures in the Digital Age is an updated volume that explores the evolving landscape of celebrity and fandom cultures across Asia. This collection meticulously documents cases from various locales, highlighting the impact of online culture and social media on the cultural politics of identity, language, gender, religion, and more. Taking themes and case studies from the online arenas of political celebrity, fandom, and social media influencers, the book traverses both national and transnational contexts, with China, Japan, South Korea, India, Vietnam, Singapore, Thailand, the Philippines, and Indonesia as anchoring stopping off points. The collection is rich in its analysis and complex in its journeying and findings, with highly original chapters on such topics as Livestreaming BTS, Indonesian Religious Influencers, VTubers and Disability, and Singapore’s Political Celebrity-Scape. esperanza rising ebook: Multicultural Literature for Latino Bilingual Children

Ellen Riojas Clark, Belinda Bustos Flores, Howard L. Smith, Daniel Alejandro González, 2015-11-25 While there are volumes that fall into the category of children’s literature, there appears to be relatively few that explore the needs of bilingual learners and the linguistic and sociocultural context of Latino children’s literature. This volume makes a needed contribution by addressing the social, cultural, academic, and linguistic needs of Latino bilingual learners who are still underserved through current school practices. We aim to conceptualize different forms of social knowledge so that they can serve as cultural resources for learning, acquiring knowledge, and transforming self and identity. This volume presents a balance of theory, research, and practice that speak to authentic multicultural Latino literature and helps ensure its availability for all students. The intended outcome of this volume then is to create a heightened awareness of the cultural and linguistic capital held by the

Latino community, to increase Latino students' social capital through the design of critical pedagogical practices, and for the formulation of a new perspective, that of Latino multicultural literature for children.

esperanza rising ebook: Paradoxes of Digital Disengagement Adi Kuntsman, Esperanza Miyake, 2022-10-04 Life is increasingly governed and mediated through digital and smart technologies, platforms, big data and algorithms. However, the reasons, practices and impact of how the digital is used by different institutions are often deeply linked to social oppression and injustice. Similarly, the ability to resist these digital impositions is based on inequality and privilege. Challenging the ways in which we are increasingly dependent on the digital, this book raises a set of provocative and urgent questions: in a world of compulsory digitality is there an opt out button? Where, when, how, why and to whom is it available? Answering these questions has become even more relevant since the COVID-19 pandemic. In response, the book puts forward the concept of 'digital disengagement' which is explored across six key areas of digitisation: health; citizenship; education; consumer culture; labour; and the environment. Part I examines the difficulty of opting out of compulsory digitality in a world where most things are digital by default. From health apps, algorithmic decision-making to learning analytics, opting out comes with a set of troubling consequences. Part II turns to several examples of disconnection and disengagement. The chapters reveal how phenomena like digital detoxes, time-management apps and online 'green' spaces are co-opted by the very digital systems one is trying to resist. The book critiques issues relating to digital surveillance, algorithmic discrimination and biased tech, corporatisation and monetisation of data, exploitative digital labour, digitalised self-discipline and destruction of the environment. As an interdisciplinary piece of work, the book will be useful to any scholar and activist in Digital, Internet and Social Media Studies; Digital Sociology and Social Policy; Digital Health; Media, Popular and Communication Studies; Consumer culture; and Environment Studies.
