Overview of Eric Foner's Textbooks

The Eric Foner textbook collection represents a significant contribution to the field of American history, focusing on a narrative that integrates political, social, economic, and cultural aspects of the nation's past. Foner's scholarship is noted for its clarity, thoroughness, and balanced interpretation, making his textbooks ideal for both undergraduate and advanced courses. His works often emphasize themes such as freedom, equality, and the ongoing struggles for civil rights, providing a nuanced understanding of historical events. These textbooks serve as foundational materials for students seeking a well-rounded grasp of American history from colonial times through the modern era.

Historical Scope and Coverage

Eric Foner textbooks cover a broad chronological span, typically beginning with the pre-Columbian period and extending to contemporary America. The scope allows readers to contextualize the evolution of the United States comprehensively. Key periods such as the Revolutionary War, the Civil War and Reconstruction, the Gilded Age, and the Civil Rights Movement receive detailed attention, reflecting Foner's expertise in these areas. This wide-ranging coverage supports a holistic approach to understanding the historical forces that shaped the nation.

Target Audience

The primary audience for the Eric Foner textbook series includes college and university students enrolled in American history courses. However, the accessible yet scholarly tone also appeals to history enthusiasts and educators seeking reliable texts to support curriculum development. The textbooks are designed to meet the needs of both introductory and more advanced history classes, providing essential context and critical analysis suited to various academic levels.

Key Features of Eric Foner Textbooks

Eric Foner's textbooks are distinguished by several features that enhance their value as educational resources. These include a clear narrative style, integration of primary sources, and a strong thematic framework that emphasizes the evolving meaning of freedom in American history. The books also incorporate recent historiographical debates and scholarship, ensuring that readers engage with current interpretations.

Inclusion of Primary Sources

One of the hallmark features of the Eric Foner textbook series is the incorporation of carefully selected primary source documents. These sources allow students to engage directly with historical voices, fostering critical thinking and analytical skills. The presentation of original texts alongside scholarly commentary provides context and encourages a deeper understanding of historical events and perspectives.

Thematic Organization

Foner's textbooks often organize content around central themes, such as freedom, democracy, and social justice. This thematic approach helps students connect disparate historical episodes and recognize overarching patterns. It also reflects Foner's scholarly focus on how concepts of liberty and equality have developed and been contested through American history.

Updated Scholarship and Balanced Perspectives

Eric Foner continually revises his textbooks to incorporate new research and historiographical trends. This commitment to updating content ensures that readers receive accurate and balanced interpretations. The textbooks avoid simplistic narratives, instead presenting history as a complex interplay of conflicting interests and diverse experiences.

Popular Titles and Editions

Several Eric Foner textbooks have become standard texts within academic settings. Among the most widely used are *Give Me Liberty!: An American History* and *Reconstruction: America's Unfinished Revolution, 1863-1877*. These works have undergone multiple editions, reflecting ongoing scholarly developments and pedagogical improvements.

Give Me Liberty!: An American History

This textbook is perhaps Eric Foner's most popular and widely adopted work. It offers a comprehensive survey of American history with an emphasis on the theme of freedom. The book is praised for its clear prose, engaging narrative, and integration of primary documents. It is often used in introductory courses and has editions tailored for different academic levels.

Reconstruction: America's Unfinished Revolution, 1863–1877

Focused specifically on the Reconstruction era, this book is a definitive account that challenges traditional interpretations of the period. It explores the political, social, and racial dimensions of Reconstruction, highlighting its significance in shaping modern America. This title is used in specialized courses and by scholars interested in post-Civil War history.

Edition Updates and Supplementary Materials

Eric Foner's textbooks frequently include updated editions that incorporate recent scholarship and pedagogical tools such as timelines, maps, and discussion questions. Supplementary materials often accompany the textbooks, including online resources, instructor manuals, and student workbooks, enhancing the learning experience.

Eric Foner's Approach to American History

Eric Foner's historiographical approach centers on a revisionist perspective that seeks to amplify marginalized voices and reconsider traditional narratives. His work emphasizes the ongoing conflicts over freedom and equality as central to understanding American history. Foner's method combines rigorous archival research with accessible storytelling, making complex historical debates understandable for students.

Focus on Freedom and Equality

At the core of Foner's textbooks is the theme of freedom, explored as a contested and evolving concept throughout American history. He examines how different groups, including African Americans, women, immigrants, and laborers, have struggled for inclusion in the nation's promises of liberty and justice. This focus provides a critical lens through which readers can evaluate historical progress and setbacks.

Inclusion of Diverse Perspectives

Foner's textbooks are notable for incorporating perspectives from various social, racial, and economic groups. This inclusive approach challenges Eurocentric and traditional narratives, offering a more comprehensive and truthful representation of the American past. By doing so, the textbooks encourage critical engagement and empathy among readers.

Interdisciplinary Integration

Eric Foner integrates political, social, economic, and cultural history to provide a multidimensional understanding of events. His textbooks connect historical developments to broader societal trends and ideas, helping students appreciate the complexity of historical change.

Pedagogical Strengths and Educational Impact

The Eric Foner textbook series is highly regarded for its pedagogical strengths and significant impact on history education. These textbooks not only deliver factual knowledge but also cultivate analytical skills and historical thinking. Their design supports diverse learning styles and academic goals.

Critical Thinking and Analytical Skills

Eric Foner textbooks encourage students to analyze primary sources, evaluate differing interpretations, and understand cause-and-effect relationships in history. Discussion questions and essay prompts promote critical engagement, helping students develop skills essential for academic success and informed citizenship.

Accessible Language and Organization

The clear and engaging writing style makes complex historical topics accessible to a wide range of students. Logical organization and thematic structuring guide readers through the material systematically, aiding comprehension and retention.

Support for Instructors

These textbooks often come with comprehensive teaching aids, including syllabi suggestions, lecture outlines, and assessment tools. This support helps instructors effectively integrate Eric Foner's scholarship into their classrooms, enhancing the overall educational experience.

Using Eric Foner Textbooks in Academic Settings

Eric Foner textbooks are commonly adopted in high school Advanced Placement courses, undergraduate history classes, and graduate seminars. Their flexibility and depth make them suitable for a variety of instructional approaches and academic levels.

Course Integration Strategies

Educators often use Eric Foner textbooks as primary course materials supplemented by additional readings, documentaries, and research assignments. The inclusion of primary sources within the texts facilitates hands-on

historical inquiry and active learning.

Benefits for Students

Students gain a comprehensive understanding of American history framed through themes of freedom and equality. The textbooks' emphasis on primary sources and critical analysis equips students with the skills necessary for historical interpretation and scholarly research.

Adaptability to Diverse Curricula

The modular structure of Eric Foner textbooks allows instructors to tailor course content to specific themes or periods. This adaptability supports a range of curricula from survey courses to specialized topics in American history.

Summary of Key Takeaways

- Eric Foner textbook series offers comprehensive and authoritative American history coverage.
- Key themes include freedom, equality, and the experiences of marginalized groups.
- Popular titles include *Give Me Liberty!* and *Reconstruction: America's Unfinished Revolution*.
- The textbooks integrate primary sources and updated scholarship for critical engagement.
- Pedagogical features support diverse learners and promote analytical skills.
- Widely used in academic settings for their clarity, balance, and depth.

Frequently Asked Questions

Who is Eric Foner?

Eric Foner is a renowned American historian specializing in the Civil War, Reconstruction, and 19th-century American history, known for his influential textbooks and scholarly works.

What is the most popular textbook written by Eric Foner?

The most popular textbook written by Eric Foner is 'Give Me Liberty!: An American History,' widely used in college American history courses.

What topics does Eric Foner's textbook 'Give Me Liberty!' cover?

Eric Foner's 'Give Me Liberty!' covers American history from pre-Columbian times to the present, with a focus on themes of freedom, democracy, and social change.

Why is Eric Foner's textbook considered authoritative?

Eric Foner's textbook is considered authoritative due to his expertise as a leading historian, thorough research, balanced perspectives, and clear writing style.

How does Eric Foner approach Reconstruction in his textbook?

Eric Foner provides a detailed, nuanced analysis of Reconstruction, emphasizing its successes and failures and its lasting impact on American society and civil rights.

Is Eric Foner's textbook suitable for AP U.S. History students?

Yes, Eric Foner's 'Give Me Liberty!' is widely used in AP U.S. History courses because it aligns well with the AP curriculum and exam requirements.

What editions of Eric Foner's textbook are currently available?

Multiple editions of 'Give Me Liberty!' are available, with the latest editions including updated scholarship, primary sources, and digital resources for students and instructors.

Does Eric Foner's textbook include primary source documents?

Yes, 'Give Me Liberty!' incorporates numerous primary source excerpts to help students engage directly with historical texts and perspectives.

How does Eric Foner's textbook address issues of race and slavery?

Eric Foner's textbook provides an in-depth examination of race, slavery, abolition, and their central roles in American history, especially in the context of the Civil War and Reconstruction.

Are there supplementary materials available for Eric Foner's textbook?

Yes, there are various supplementary materials such as study guides, online resources, quizzes, and instructor manuals available to complement Eric

Foner's textbook.

Additional Resources

1. *Give Me Liberty!: An American History* by Eric Foner

This is Eric Foner's widely used textbook that provides a comprehensive overview of American history from the colonial period to the present. It emphasizes themes of freedom and liberty, exploring how different groups have fought for and understood these ideals. The book is known for its clear narrative and incorporation of diverse perspectives.

2. *Reconstruction: America's Unfinished Revolution, 1863-1877* by Eric Foner

Foner's definitive work on the Reconstruction era examines the political, social, and economic challenges that shaped the United States after the Civil War. It highlights the struggles for civil rights and the redefinition of freedom for formerly enslaved people. The book is both scholarly and accessible, making it a foundational text for understanding this critical period.

3. *America's History* by James A. Henretta, Eric Hinderaker, Rebecca Edwards, and Robert O. Self

This textbook offers a broad survey of American history with an emphasis on social and cultural developments. It complements Foner's narrative by incorporating a variety of voices and perspectives, including those of marginalized groups. The text is well-illustrated and includes primary sources to enhance learning.

4. *Voices of Freedom: A Documentary History* by Eric Foner

This companion volume to Foner's textbooks features a rich collection of primary documents from American history. It allows readers to engage directly with speeches, letters, and other texts that have shaped the nation's understanding of freedom and democracy. The book is organized thematically to align with major historical periods.

5. *These Truths: A History of the United States* by Jill Lepore

Lepore's comprehensive history explores the ideals of democracy, freedom, and truth in America. Like Foner, she examines the nation's contradictions and struggles to live up to its founding principles. The narrative is engaging and thought-provoking, providing a critical perspective on the American story.

6. *A People's History of the United States* by Howard Zinn

Zinn's classic work offers a bottom-up view of American history, focusing on the experiences of ordinary people rather than political elites. It challenges traditional narratives and highlights struggles for justice and equality. This book provides a valuable alternative perspective that complements Foner's approach.

7. *The American Pageant: A History of the Republic* by David M. Kennedy and Elizabeth Cohen

A popular textbook known for its engaging storytelling and rich detail, this book covers American history with a focus on political, social, and economic developments. It provides a balanced narrative accessible to students and often used alongside Foner's texts. The book includes vivid illustrations and primary source excerpts.

8. *Race and Reunion: The Civil War in American Memory* by David W. Blight

Blight's work explores how the Civil War and Reconstruction have been

remembered and commemorated in American culture. It complements Foner's scholarship by addressing the legacy of race and memory in shaping national identity. The book is essential for understanding the long-term impact of the Civil War.

9. *Freedom National: The Destruction of Slavery in the United States, 1861-1865* by James Oakes

This book offers a detailed examination of the political and military efforts to abolish slavery during the Civil War. It aligns with Foner's focus on emancipation and Reconstruction, providing a nuanced analysis of the transformation of freedom in this era. Oakes combines rigorous scholarship with a compelling narrative style.

eric foner textbook: Nothing But Freedom Eric Foner, 2007-09 Nothing But Freedom examines the aftermath of emancipation in the South and the restructuring of society by which the former slaves gained, beyond their freedom, a new relation to the land they worked on, to the men they worked for, and to the government they lived under. Taking a comparative approach, Eric Foner examines Reconstruction in the southern states against the experience of Haiti, where a violent slave revolt was followed by the establishment of an undemocratic government and the imposition of a system of forced labor; the British Caribbean, where the colonial government oversaw an orderly transition from slavery to the creation of an almost totally dependent work force; and early twentieth-century southern and eastern Africa, where a self-sufficient peasantry was dispossessed in order to create a dependent black work force. Measuring the progress of freedmen in the post-Civil War South against that of freedmen in other recently emancipated societies, Foner reveals Reconstruction to have been, despite its failings, a unique and dramatic experiment in interracial democracy in the aftermath of slavery. Steven Hahn's timely new foreword places Foner's analysis in the context of recent scholarship and assesses its enduring impact in the twenty-first century.

eric foner textbook: Forever Free Eric Foner, 2013-06-26 From one of our most distinguished historians, a new examination of the vitally important years of Emancipation and Reconstruction during and immediately following the Civil War—a necessary reconsideration that emphasizes the era's political and cultural meaning for today's America. In *Forever Free*, Eric Foner overturns numerous assumptions growing out of the traditional understanding of the period, which is based almost exclusively on white sources and shaped by (often unconscious) racism. He presents the period as a time of determination, especially on the part of recently emancipated black Americans, to put into effect the principles of equal rights and citizenship for all. Drawing on a wide range of long-neglected documents, he places a new emphasis on the centrality of the black experience to an understanding of the era. We see African Americans as active agents in overthrowing slavery, in helping win the Civil War, and—even more actively—in shaping Reconstruction and creating a legacy long obscured and misunderstood. Foner makes clear how, by war's end, freed slaves in the South built on networks of church and family in order to exercise their right of suffrage as well as gain access to education, land, and employment. He shows us that the birth of the Ku Klux Klan and

renewed acts of racial violence were retaliation for the progress made by blacks soon after the war. He refutes lingering misconceptions about Reconstruction, including the attribution of its ills to corrupt African American politicians and "carpetbaggers," and connects it to the movements for civil rights and racial justice. Joshua Brown's illustrated commentary on the era's graphic art and photographs complements the narrative. He offers a unique portrait of how Americans envisioned their world and time. *Forever Free* is an essential contribution to our understanding of the events that fundamentally reshaped American life after the Civil War—a persuasive reading of history that transforms our sense of the era from a time of failure and despair to a threshold of hope and achievement.

eric foner textbook: *Reconstruction* Eric Foner, 2002-02-05 This masterful treatment of one of the most complex periods of American history (New Republic) made history when it was originally published in 1988. It redefined how Reconstruction was viewed by historians and people everywhere in its chronicling of how Americans -- black and white -- responded to the unprecedented changes unleashed by the war and the end of slavery. This smart book of enormous strengths (Boston Globe) has since gone on to become the classic work on the wrenching post-Civil War period -- an era whose legacy reverberates still today in the United States.

eric foner textbook: *The Fiery Trial: Abraham Lincoln and American Slavery* Eric Foner, 2011-09-26 "A masterwork [by] the preeminent historian of the Civil War era."—Boston Globe Selected as a Notable Book of the Year by the New York Times Book Review, this landmark work gives us a definitive account of Lincoln's lifelong engagement with the nation's critical issue: American slavery. A master historian, Eric Foner draws Lincoln and the broader history of the period into perfect balance. We see Lincoln, a pragmatic politician grounded in principle, deftly navigating the dynamic politics of antislavery, secession, and civil war. Lincoln's greatness emerges from his capacity for moral and political growth.

eric foner textbook: *Give Me Liberty!* Eric Foner, 2008 Concise, clear, compact, Eric Foner's brilliant synthesis of American history is the perfect teaching tool for the U.S. survey course.

eric foner textbook: *Tom Paine and Revolutionary America* Eric Foner, 2005 Since its publication in 1976, *Tom Paine and Revolutionary America* has been recognized as a classic study of the career of the foremost political pamphleteer of the Age of Revolution, and a model of how to integrate the political, intellectual, and social history of the struggle for American independence. Foner skillfully brings together an account of Paine's remarkable career with a careful examination of the social worlds within which he operated, in Great Britain, France, and especially the United States. He explores Paine's political and social ideas and the way he popularized them by pioneering a new form of political writing, using simple, direct language and addressing himself to a reading public far broader than previous writers had commanded. He shows which of Paine's views remained essentially fixed throughout his career, while directing attention to the ways his stance on social questions evolved under the pressure of events. This enduring work makes clear the tremendous impact Paine's writing exerted on the American Revolution, and suggests why he failed to have a similar impact during his career in revolutionary France. And it offers new insights into the nature and internal tensions of the republican outlook that helped to shape the Revolution. In a new preface, Foner discusses the origins of this book and the influences of the 1960s and 1970s on its writing. He also looks at how Paine has been adopted by scholars and politicians of many stripes, and has even been called the patron saint of the Internet.

eric foner textbook: *Who Owns History?* Eric Foner, 2025-09-23 A thought-provoking new book from one of America's finest historians. History, wrote James Baldwin, does not refer merely, or even principally, to the past. On the contrary, the great force of history comes from the fact that we carry it within us, are unconsciously controlled by it in many ways, and history is literally present in all that we do. Rarely has Baldwin's insight been more forcefully confirmed than during the past few decades. History has become a matter of public controversy, as Americans clash over such things as museum presentations, the flying of the Confederate flag, or reparations for slavery. So whose history is being written? Who owns it? In *Who Owns History?*, Eric Foner proposes his answer to

these and other questions about the historian's relationship to the world of the past and future. He reconsiders his own earlier ideas and those of the pathbreaking Richard Hofstadter. He also examines international changes during the past two decades--globalization, the collapse of the Soviet Union, the end of apartheid in South Africa--and their effects on historical consciousness. He concludes with considerations of the enduring, but often misunderstood, legacies of slavery, the Civil War, and Reconstruction. This is a provocative, even controversial, study of the reasons we care about history--or should.

eric foner textbook: Give Me Liberty! An American History Eric Foner, 2016-09-15 Give Me Liberty! is the #1 book in the U.S. history survey course because it works in the classroom. A single-author text by a leader in the field, Give Me Liberty! delivers an authoritative, accessible, concise, and integrated American history. Updated with powerful new scholarship on borderlands and the West, the Fifth Edition brings new interactive History Skills Tutorials and Norton InQuizitive for History, the award-winning adaptive quizzing tool. The best-selling Seagull Edition is also available in full color for the first time.

eric foner textbook: Comparative Perspectives on School Textbooks Dobrochna Hildebrandt-Wypych, Alexander W. Wiseman, 2021-04-22 This book examines the discourses on nation-building, civic identity, minorities, and the formation of religious identities in school textbooks worldwide. It offers up-to-date, practical, and scholarly information on qualitative and mixed-method textbook analysis, as well as the broader context of critical comparative textbook and curriculum analyses in and across selected countries. The volume offers unique and empirical research on how internal educational policies and ideological goals of dominant social, political, and economic groups affect textbook production and the curricular aims in different educational systems worldwide. Chapters address the role of school textbooks in developing nationhood, the creation of citizenship through school textbooks, the complexity of gender in normative discourses, and the intersection of religion and culture in school textbooks.

eric foner textbook: The Story of American Freedom Eric Foner, 1994

eric foner textbook: The New American History American Historical Association, 1997 Originally released in 1990, The New American History edited for the American Historical Association by Eric Foner, has become an indispensable volume for teachers and students. In essays that chart the shifts in interpretation within their fields, some of our most prominent American historians survey the key works and themes in the scholarship of the last three decades. Along with substantially revised essays from the first edition, this volume presents three entirely new ones - on intellectual history, the history of the West, and the histories of the family and sexuality. The second edition of The New American History reflects, in Foner's words, the continuing vitality and creativity of the study of the past, how traditional fields are being expanded and redefined even as new ones are created. Author note: Eric Foner is DeWitt Clinton Professor of History at Columbia University. He is the author of numerous books, including Reconstruction, 1863-1877 which was awarded the Bancroft Prize.

eric foner textbook: Give Me Liberty!, 6th Edition (Volume 1) Eric Foner, 2019-10 The leading U.S. history textbook, with a new focus on Who is an American?

eric foner textbook: Give Me Liberty! Eric Foner, 2012 The leading United States History survey text, now available in a brief, full-color edition.

eric foner textbook: Give Me Liberty! Eric Foner, 2017-07 The leading text in the U.S. survey course.

eric foner textbook: The World in Books Kenneth C. Davis, 2025-10-21 From ancient times to the present day, The World in Books offers a wide-ranging historical education through pleasure reading--and a fantastic introduction to some of the most thought-provoking, profound, and interesting nonfiction works of all time. From Sun Tzu's The Art of War to bell hooks's All About Love, as well as such recent classics as Barbara Ehrenreich's Nickel and Dimed and Chimamanda Ngozi Adichie's We Should All Be Feminists, Davis's guide suggests a world of nonfiction books and explains just why they're so historically meaningful and culturally relevant today--

eric foner textbook: The Writing of American History Michael Kraus, Davis D. Joyce, 1990-01-01 Events which become historical, says Michael Kraus, do not live on because of their mere occurrence. They survive when writers re-create them and thus preserve for posterity their otherwise fleeting existence. Paul Revere's ride, for example, might well have vanished from the records had not Longfellow snatched it from approaching oblivion and given it a dramatic spot in American history. Now Revere rides on in spirited passages in our history books. In this way the recorder of events becomes almost as important as the events themselves. In other words, historiography-the study of historians and their particular contributions to the body of historical records-must not be ignored by those who seriously wish to understand the past. When the first edition of Michael Kraus's Writing of American History was published, a reviewer for the New York Herald Tribune wrote: No serious study of our national origins and development can afford not to have such an aid as this at his elbow. The book quickly came to be regarded as one of the few truly standard general surveys of American historiography, invaluable as a reference book, as a textbook, and as a highly readable source of information for the interested general reader. This new edition with coauthor Davis D. Joyce confirms its position as the definitive work in the field. Concise yet comprehensive, here is an analysis of the writers and writings of American history from the Norse voyages to modern times. The book has its roots in Kraus's pioneering History of American History, published in 1937, a unique and successful attempt to cover in one volume the entire sweep of American historical activity. Kraus revised and updated the book in 1953, when it was published under the present title. Now, once again, the demand for its revision has been met. Davis D. Joyce, with the full cooperation and approval of Kraus, has thoroughly revised and brought up to date the text of the 1953 edition. The clarity and evenhandedness of Kraus's text has been carefully preserved. The last three chapters add entirely new material, surveying the massive and complex body of American historical writing since World War II: Consensus: American Historical Writing in the 1950s, Conflict: American Historical Writing in the 1960s, and Complexity: American Historical Writing in the 1970s-and Beyond. Michael Kraus, Professor Emeritus at City College of New York, received the Ph.D. from Columbia University and in his long career established himself as one of America's foremost historiographers. Davis D. Joyce is Professor Emeritus of History, East Central University, Ada, Oklahoma, and is the author of HOWARD ZINN: A RADICAL AMERICAN VISION and ALTERNATIVE OKLAHOMA: CONTRARIAN VIEWS OF THE SOONER STATE. He teaches part-time at Rogers State University, Claremore, Oklahoma.

eric foner textbook: Folklore and Book Culture Kevin J. Hayes, 2016-02-05 To many observers, folklore and book culture may appear to be opposites. Folklore, after all, involves orally circulated stories and traditions while book culture is concerned with the transmission of written texts. However, as Kevin J. Hayes points out, there are many instances where the two intersect, and exploring those intersections is the purpose of this fascinating and provocative study. Hayes shows that the acquisition of knowledge and the ownership of books have not displaced folklore but instead have given rise to new beliefs and superstitions. Some books have generated new proverbs; others have fostered their own legends. Occasionally the book has served as an important motif in folklore, and in one folk genre--the flyleaf rhyme--the book itself has become the place where folklore occurs, thus indicating a lively interaction between folk, print, and manuscript culture. The author begins by examining the tradition of the Volksbucher--cheaply printed books, often concerned with the occult, whose powers are said to transcend the written text. Hayes looks in depth at one particular Volksbuch--The Sixth and Seventh Books of Moses--and proceeds, in subsequent chapters, to discuss a variety of folktales and legends, placing them within the context of book culture and the history of education. He closes with an examination of flyleaf rhymes, the little verses that book owners have inscribed in their books, and considers what they reveal about the identity of the inscribers as well as about attitudes toward book lending, book borrowing, and the circulation of knowledge. Solidly researched and venturing into areas long neglected by scholars. Folklore and Book Culture is a work that will engage not only folklorists but historians and literary scholars as well.

eric foner textbook: Treason to Whiteness is Loyalty to Humanity Noel Ignatiev, 2022-06-28

For sixty years, Noel Ignatiev provided an unflinching account of whiteness - a social fiction and an unmitigated disaster for all working-class people. This new essay collection from the late firebrand covers the breadth of his life and insights as an autodidact steel worker, a groundbreaking theoretician, and a bitter enemy of racists everywhere. In these essays, Ignatiev confronts the Weather Underground and recounts which strategies proved most effective to winning white workers in Gary, Indiana, to black liberation. He discovers the prescient political insights of the nineteenth-century abolition movement, surveys the wreckage of the revolutionary twentieth century with C.L.R. James, and attends to the thorny and contradictory nature of working-class consciousness. Through it all, our attentions are turned to the everyday life of ordinary people, whose actions anticipate a wholly new society they have not yet recognized or named. In short, Ignatiev reflects on the incisive questions of his time and ours: How can we drive back the forces of racism in society? How can the so-called white working class be won over to emancipatory politics? How can we build a new human community?

eric foner textbook: White Lies Ann Bausum, 2025-08-12 This powerful and unflinching examination of racism in America by award-winning historian Ann Bausum deconstructs the warped history of the Civil War for teen readers, perfect for fans of STAMPED, JUST MERCY, and ACCOUNTABLE. Warning: This is not your average U.S. history book. After the Civil War, the Confederates may have laid down their arms, but they were far from accepting defeat. By warping the narrative around what really happened during and after the Civil War, they created an alternate history now known as the Lost Cause. These lies still manifest today through criticism of Critical Race Theory, book banning, unequal funding for education, and more. This book sets the record straight and explains the true history of the Civil War, and its complex and far-reaching aftermath. Written by historian and award-winning author Ann Bausum, WHITE LIES is an impeccably researched chronicle filled with photos, robust back matter, additional resources, and more that fans of Howard Zinn's A Young People's History of the United States will enjoy.

eric foner textbook: Schoolbook Nation Joseph Moreau, 2004-11-23 DIVAn unbiased examination of the century-and-a-half-long culture wars fought in the pages of our country's history texts /div
