enciso sisters father: *The Ambassador Juan Ramírez de Lucena, the father of the chessbook writer Lucena* Govert Westerveld, 2015-07-28 This is the first bibliography in English of the protonotary Juan Ramírez de Lucena (1430-1504) who was one of the ambassadors of the Catholic monarchs. He was the father of Lucena, the writer of a chess book that was published in Salamanca in 1997. Knowing the biography of the protonotary and his activities in Italy and France in the highest sphere of society it is clear that his son Lucena could take advantage of this, because his father had opened the door in many places. No doubt that during the life of the protonotary Juan

Ramírez de Lucena his son visited these places in Italy and France, as Lucena himself confirmed in the chess treaty of 1497.

enciso sisters father: Mother & Myth in Spanish Novels Sandra J. Schumm, 2011-08-16 What if the goddess Athena, who sprang fully-grown from Zeus's head and denied she had a mother, became aware of the compelling existence of her other parent? What if she discovered that her mother, Metis-first wife of Zeus and wiser than all gods and mortal men, according to Hesiod-was swallowed by her father and continued to impart her wisdom to him from inside his belly? Recent Spanish novels by women parallel this hypothetical situation based on Greek myth by featuring female protagonists who obsessively re-examine the lives of their mothers, seeking to know and understand them. In *Mother and Myth in Spanish Novels*, Sandra J. Schumm examines six narratives by Spanish authors published since 2000 that focus on a daughter's search to know more about her matriarchal heritage: Carme Riera's *La mitad del alma*, Lucía Etxebarria's *Un milagro en equilibrio*, Rosa Montero's *El corazón del tártaro*, Cristina Cerezales's *De oca a oca*, María de la Pau Janer's *Las mujeres que hay en mí*, and Soledad Purlolas's *Historia de un abrigo*. In each of these novels, the protagonist realizes that failure to integrate the loss of her mother into her life results in the inability to define her self. Without valorization of the maternal subject, the legacy of the daughter is at risk-she is also objectified and swallowed-and the whole society suffers. The daughters' attention to their mothers in these novels is as if Athena had finally recognized that her mother, Metis, had been ingested by Zeus. The myth of Metis and Athena becomes a metaphor of the daughter's quest toward wholeness and individuation in these works; she begins to understand that her maternal legacy is a source of wisdom that has been obscured. These novels by Spanish women strengthen the mother's voice, rescue her from anonymity, and rewrite the matriarchal archetype.

enciso sisters father: Forming Ethical Identities in Early Childhood Play Brian Edmiston, 2007-10-08 Through compelling examples, Brian Edmiston presents the case for why and how adults should play with young children to create with them a 'workshop for life'. In a chapter on 'mythic play' Edmiston confronts adult discomfort over children's play with pretend weapons, as he encourages adults both to support children's desires to experience in imagination the limits of life and death, and to travel with children on their transformational journeys into unknown territory. This book provides researchers and students with a sound theoretical framework for re-conceptualising significant aspects of pretend play in early childhood. Its many practical illustrations make this a compelling and provocative read for any student taking courses in Early Childhood Studies.

Grounded on the theoretical advances in criticalism, feminism and postmodernism in the last two decades of the twentieth century, Counterpoints engages the meaning of these innovations in various forms of

educational expression. Committed to the proposition that theoretical literature should be accessible to a variety of audiences, the series insists that its authors avoid esoteric and jargonistic languages that transform educational scholarship into an elite discourse for the initiated.

As a sense of conspiracy grows and an apocalyptic shadow draws closer, the corruption, violence and decadence of twentieth-century history reveals itself in a novel of an astonishing scale and burning intensity. enciso sisters father: Merchants and Explorers Heather Dalton, 2016 In the early sixteenth century, a young English sugar trader spent a night at what is now the port of Agadir in Morocco, watching from the tenuous safety of the Portuguese fort as the local tribesmen attacked the Moors. Having recently departed the familiar environs of London and the Essex marshes, this was to be the first of several encounters Roger Barlow was to have with unfamiliar worlds. Barlow's family was linked to networks where the exchange of goods and ideas merged, and his contacts in Seville brought him into contact with the navigator, Sebastian Cabot. Merchants and Explorers follows Barlow and Cabot across the Atlantic to South America and back to Spain and Reformation England. Heather Dalton uses their lives as an effective narrative thread to explore the entangled Atlantic world during the first half of the sixteenth century. In doing so, she makes a critical contribution to the fields of both Atlantic and global history. Although it is generally accepted that the English were not significantly attracted to the Americas until the second half of the sixteenth century, Dalton demonstrates that Barlow, Cabot, and their cohorts had a knowledge of the world and its opportunities that was extraordinary for this period. She reveals how shared knowledge as well as the accumulation of capital in international trading networks prior to 1560 influenced emerging ideas of trade, discovery, settlement, and race in Britain. In doing so, Dalton not only provides a substantial new body of facts about trade and exploration, she explores the changing character of English commerce and society in the first half of the sixteenth century.

enciso sisters father: The Rise of Necro/Narco Citizenship Carlos G. Vélez-Ibáñez, 2025-03-18

Carlos G. Vélez-Ibáñez's latest work, *The Rise of Necro/Narco Citizenship* investigates the intricate and often harrowing dynamics that define the borderlands between the United States, Mexico, and beyond. This groundbreaking book provides a comprehensive cultural, economic, social, and political-ecological analysis, illustrating how various forms of violence and militarization have reshaped the daily lives and identities of the region's inhabitants. Through meticulous ethnographic fieldwork, extensive archival research, and rigorous statistical data, Vélez-Ibáñez exposes the deeply entrenched networks of exploitation and conflict that have emerged in response to global capitalism's pressures. Vélez-Ibáñez builds on theorization about necrocitizenship to introduce the concept of necro/narco citizenship, which argues that pervasive violence and socioeconomic disruptions create a unique form of existence on both sides of the border. The author examines the dislocation of thousands, the persistent threat of violence, and the ways in which these forces compel individuals to navigate a reality steeped in addiction, self-destruction, and civil deterioration. This book reveals the transnational networks and the morally compromised political economies that sustain them, offering readers an unflinching look at the cost of survival in this tumultuous region. This essential volume is not only a critical addition to the field of anthropology but also an invaluable resource for those interested in the sociopolitical landscape of the U.S.-Mexico border. Vélez-Ibáñez's insights will resonate with scholars, students, and policymakers alike. *The Rise of Necro/Narco Citizenship* challenges us to rethink the narratives of violence, militarization, and resistance that define our understanding of the Southwest North American Region.

enciso sisters father: Cinema of Contradiction Sally Faulkner, 2006-02-22 A key decade in world cinema, the 1960s was also a crucial era of change in Spain. *A Cinema of Contradiction*, the first book to focus in depth on this period in Spain, analyses six films that reflect and interpret these transformations. The coexistence of traditional and modern values and the timid acceptance of limited change by Franco's authoritarian regime are symptoms of the uneven modernity that characterises the period. Contradiction--the unavoidable effect of that unevenness--is the conceptual terrain explored by these six filmmakers. One of the most significant movements of Spanish film history, the 'New Spanish Cinema' art films explore contradictions in their subject matter, yet are themselves the contradictory products of the state's protection and promotion of films that were ideologically opposed to it. *A Cinema of Contradiction* argues for a new reading of the movement as a compromised yet nonetheless effective cinema of critique. It also demonstrates the possible contestatory value of popular films of the era, suggesting that they may similarly explore contradictions. This book therefore reveals the overlaps between art and popular film in the period, and argues that we should see these as complementary rather than opposing areas of cinematic activity in Spain.
