financial breakthrough testimonies: *My Invention Testimony* Linda C., 2019-12-03 The title *My Invention Testimony* came from the journal I kept as I worked on my invention called Food Separators. As I was being introduced to the world of inventions, I persevered through a lot of frustrations and hostile ordeals during my learning experiences. I've heard in several sermons from various pastors, including my own, that when one commits themselves to carry out an assignment for God, one would most likely experience an aloofness of family and friends. What a true statement! I did lose a closeness with my family, biological and Christian alike. I became like a plague to them because I no longer did the things I use to do. I wanted, as well as needed, to spend as much time with the Lord as possible. My desire to spend more time with Him brought about undesirable situations with people of whom I used to have a closeness to. Not only did I have personal attacks, but in terms of business, it has been a long and tough journey with my endeavors to get prototypes of my invention, as well as making decisions to manufacture, license, or self-distribute. The decision that I make would determine my success or failure. I had a lot of decisions to make before I could even get my invention on the market. I so often found myself praying and asking God for His direction and guidance. After about six months into the invention process, I heard the Holy Spirit speak to me and say, Here is your book. Continue to write and place glory on my name. I couldn't believe what I heard, but after hearing the Lord speak, I looked at my journal and realized, Wow, this is a book. I was a little hesitant because I had no inclination of writing a book. The thought never crossed my mind. Besides, I was so caught up in venturing out and searching for information on how to make the right decisions concerning my invention that I didn't have time for anything else. As I stated before, I had no thoughts of writing a book, but I was obedient to God. This book is an actual testimony of almost everything that I've gone through to get this far with my invention. I say almost, because I'm not finished with publicizing my invention, and it is not yet fully on the market. I've done two illustrations with self-made prototypes, and they were a big hit. Everyone liked them, but I still have a long way to go. I thank God for His vision and for allowing me to partner with Him in sharing the experience of this venture.

Hollingshed, 2017-04-25 "While our first thought was how no one we knew had enough money to lend us for a funeral, our second thought was more personal: We are just as broke as everyone else! In that moment, we realized that we did not want to spend the rest of our lives in that type of financial position. We knew we needed help, but we felt so helpless. We found ourselves doing a lot of praying and crying until Jesus answered." (Excerpt from the book) The Hollingsheds know how it feels to desperately need money, but not be in the financial position to get it. Unfortunately, many people are experiencing financial problems. financial breakthrough testimonies: *THE MIRACLE DEBT CANCELLATION BOOK* Hlompho Phamodi, 2018-12-20 The first thing I am sure that goes into everyone's mind when they see a title like this one is can it happen? On the other hand, some say; yes, God is a God of miracles but can it happen to me? I believe He has done it for someone, but can it really happen to me? Now my question to you is why not you? Yes, God has done Debt Cancellation Miracles; He has done it in so many mysterious ways to so many people. He desires to do it in your life and this book is going to prepare you for that. I am not talking magic here, but I am talking of the power of God. He specializes in miracles. There are people that have prayed for money to pay their debts, we bless God for them and there are others however, that have prayed to the same God for a miracle over their debt situation, some were not specific, some were specific, but God answered them, He cancelled their debts. No matter the level of your faith the Word says; even if it is the faith as small as a mustard seed, you can move mountains with it. All you need to do is just to believe. To him who believes the Bible says ALL THINGS ARE POSSIBLE. I write this book as a believer in such a God, and I bear witness to testimonies of the miracles of debt cancellation.....

financial breakthrough testimonies: *Testimony of members of Congress, interested organizations and individuals* United States. Congress. House. Committee on Appropriations, 1965

financial breakthrough testimonies: *TALES OF BLESSED LANDNIA* Akin Adewale, 2014 The book is a fiction; it deals with Legal, political, economic and social ills plaguing most developing countries that are still grappling with various developmental challenges. The book highlights and satirizes all these ills and challenges facing these countries and proffer solutions to some of them. There are some developing countries especially in Africa where there is failure of leadership. This fuels ethnic, religious and social upheavals which lead to political instability and even wars. In some of these countries, there is corruption of monumental proportion which slows down economic development and this may eventually lead to other social problems such as poverty, chaos, anarchy etc. The book politely and humorously points out these problems and the way forward. Corruption is a global problem but the book also propounds a theory that corruption in large scale by a political leadership in any country may lead to economic problems that could cause extermination of the poor masses gradually through hunger, preventable and curable diseases and that such corruption should

be treated as massocide and as crime against humanity by the UNO. The book also highlights the problem of unsuitability of some political arrangement of some developing countries that is also responsible for the political, social and economic problems plaguing them; and the need to have national dialogue to arrive at the best political arrangement which is indeed the foundation to build on. The outcome of such national dialogue should be implemented and use to draft a new constitution. The book humorously highlights the flight of integrity from some of these developing countries due to the bad example from leadership. When corruption is the order of the day and there is impunity in that no one is punished even when caught, it makes many people to join the bandwagon and hell is then let loose on the society. Some lawyers when well paid by corrupt officials; they would do all within their powers and explore legal loopholes and processes to either ensure that such cases drag to eternity in law courts or are never heard. Due to the legal procedure that presume an accused person innocent until convicted in law courts, the corrupt official going through trial in court would be free to pursue his/her political ambition, get elected into any political office and acquire more money to frustrate his/her trial in law court. This book highlights the foregoing too. The book highlights the social ills plaguing many developing countries which reduce most human beings to subsistence level and in such situation; higher human ideals are sacrificed on altar of expediency to survive. Even the zeal to work hard and excel wane in many people as the economic climate favours those with political powers and their cohorts; in such a situation everyone struggles to get to political power through any means. It becomes a do or die affair. The book will appeal to the public at large especially those who are interested in finding solutions to the problems affecting the developing countries.
