emotional love stories pdf: *Love Stories of Later Life* Amanda Smith Barusch, 2008-03-13 Even with baby boomers retiring and greater media and research attention being lavished on older people, most gerontologists have studiously avoided examining romance among the elderly. Love Stories of Later Life is an appealing and eye-opening remedy to this neglect, as leading gerontologist Amanda Smith Barusch presents original research into what love and romance mean in seniors' lives. The result is a glimpse into a world many people didn't know existed - that of romantic love in later life. Unlike superficial guidebooks that purport to help seniors find a new mate, Love Stories of Later Life integrates theory and the latest research on love and the aging process. Drawing on a wealth of personal narratives collected during a landmark five-year study, the book presents the lived experiences of older adults from all walks of life. It addresses the impact of common age-related changes, both emotional and physical, on romantic relationships, and argues that love continues to sculpt our personalities and our lives, even in life's later decades. Each chapter includes

practical tools for the serious student of love, including exercises designed to increase self-awareness and relationship-building as well as annotated lists of suggested reading that are at once comprehensive and accessible. Barusch's fresh perspective, engaging voice, and in-depth qualitative research make *Love Stories of Later Life* an important contribution to the study of individual lives and the aging process. emotional love stories pdf: Handbook of Decolonial Community Psychology Christopher C. Sonn, Jesica Siham Fernández, James Ferreira Moura Jr., Monica Eviandaru Madyaningrum, Nick Malherbe, 2024-10-21 This handbook offers refined interpretations of decolonial thought, methodologies, and practices in community psychology. As a representative mapping of the broad range of decolonial cosmovisions, experiences, and praxes in community psychology and allied disciplines around the globe, it brings together contributions from North America, Latin America, Europe, Oceania, Africa, and Asia. It offers an overview of community psychology with a decolonial focus and from a transnational perspective, transcending intellectual, geographical, and cultural borders, and constraining identities, affirming and celebrating the unique identities, experiences, and positions of its contributors within the global landscape of knowledge and politics. The handbook illuminates the dynamic intersections between resistance and colonial legacies, foregrounding the enduring struggles against settler colonialism and racial capitalism across diverse geographies, temporalities, and histories. Underscoring the urgency of addressing inter-connected local and global challenges, such as land rights, livelihoods, and dignified existence, it offers hopeful yet critical perspectives on radical social justice struggles around the globe. The volume brings together contributions from scholars, academics, educators, researchers, practitioners, activists, and community collaborators, and its chapters range in style and format. Some are more aligned with academic writing, while others - in the spirit of decolonizing disciplinary logics - are structured through more undisciplined, less constrained writing forms. Each author was invited to question the coloniality of power in and beyond community psychology. As such, the handbook contains productions that trouble the manifestations of coloniality both in the past and in the present, as well as in the different territories of the Majority World, particularly within settler colonial nation-states. As a seminal work, the *Handbook of Decolonial Community Psychology* will further define and shape the contours of knowledge in decolonial community psychology, and inspire new generations of scholars, practitioners, students, and community organizers to advance the field with innovative ideas and transformative practices.

emotional love stories pdf: The End of Romance Amitabh Satyam, 2018-08-18 Two genders made by nature coexisted comfortably forever, till about a few hundred years ago when men and women started identifying themselves differently. These identities started hardening over time and today they appear to be a different species in many situations... Sometimes laugh-out-loud, at times, deeply poignant, and at other times, provoking and questioning, The End of Romance is a fantastic, one-of-its-kind take on patriarchy and feminism, rights and privileges, abuse and consent, and cultures and laws related to men-women conflicts. Peppered with anecdotes, real-life incidents and everyday stories, the book discusses the natural, cultural and religious influences on the man-woman relationship and how this has evolved over time. The author asks questions few would ever utter: Is our society increasingly becoming anti-men? If so, will this lead to any good? Are gender dynamics always tilted only to benefit one gender? Can we ever achieve equality? These are debated with an analysis of the privileges of women and the abuse of men, a discussion on the prevailing myths, followed by recommendations on how the relationship can be brought back to equal. Unabashed, hilarious, and at times caustic, The End of Romance signals what most of us miss: Oppressive societies do not survive, whoever it may benefit at the moment.

emotional love stories pdf: Harmonische Heilung Jasmuheen, 2008-01-30 Heute stirbt jeder vierte Erwachsene unnotiger Weise an einer der sieben lebensbedrohlichen Erkrankungen. Das mag daran liegen, dass zu wenig ganzheitlich orientiertes Wissen propagiert wird oder auch daran, dass für die Betroffenen einfach ihre Stunde geschlagen hat. Und falls es für sie an der Zeit ist, stellt sich die nächste Frage: Können sie dann mit Würde sterben? Sollte man es ihnen selbst überlassen, ob sie das uralte Verfahren der Selbsteuthanasie kennen und einsetzen wollen, von dem schon die Lamas in unterschiedlichsten Zeitaltern wussten? Was hat es mit dieser uralten Methode auf sich, und kann sie missbraucht werden? Wie sollen wir wissen, wo wir einfach mit unserem eigenen Tod konfrontiert sind oder nur mit einer vorübergehenden Herausforderung? Wie verhält es sich mit Spontanheilungen und Heilern wie dem brasilianischen Joao de Dios?

emotional love stories pdf: Vulnerable Witness, 2019-07-02 Scholars and practitioners who witness violence and loss in human, animal, and ecological contexts are expected to have no emotional connection to the subjects they study. Yet is this possible? Following feminist traditions, *Vulnerable Witness* centers the researcher and challenges readers to reflect on how grieving is part of the research process and, by extension, is a political act. Through thirteen reflective essays the book theorizes the role of grief in the doing of research—from methodological choices, fieldwork and analysis, engagement with individuals, and places of study to the manner in which scholars write and talk about their subjects. Combining personal stories from early career scholars, advocates, and senior faculty, the book shares a breadth of emotional engagement at various career stages and explores the transformative possibilities that emerge from being enmeshed with one's own research.

emotional love stories pdf: Historiographies of Game Studies Alisha Karabinus, 2025-07-25 *Historiographies of Game Studies* offers a first-of-its-kind reflection on how game studies as an academic field has been shaped and sustained. Today, game studies is a thriving field with many dedicated national and international conferences, journals, professional societies, and a strong presence at conferences in disciplines like computer science, communication, media studies, theater, visual arts, popular culture, and others. But, when did game studies start? And what (and who) is at the core or center of game studies? Fields are defined as much by what they are not as by what they are, and their borderlands can be hotly contested spaces. In this anthology, scholars from across the field consider how the boundaries of game studies have been established, codified, contested, and protected, raising critical questions about who and what gets left out of the field. Over more than two dozen chapters and interviews with leading figures, including Espen Aarseth, Kishonna Gray, Henry Jenkins, Lisa Nakamura, Kentaro Matsumoto, Ken McAllister, and Janet Murray, the contributors offer a dazzling array of insightful provocations that address the formation, propagation, and cultivation of game studies, interrogating not only the field's pasts but its potential futures and asking us to think deliberately about how academic fields are collectively built.
