ethnic adult magazines online: Cultural Sociology of Divorce Robert E. Emery, 2013-02-21
While the formal definition of divorce may be concise and straightforward (legal termination of a marital union, dissolving bonds of matrimony between parties), the effects are anything but, particularly when children are involved. The Americans for Divorce Reform estimates that 40 or possibly even 50 percent of marriages will end in divorce if current trends continue. Outside the U.S., divorce rates have markedly increased across developed countries. Divorce and its effects are a significant social factor in our culture and others. It might be said that a whole divorce industry has been constructed, with divorce lawyers and mediators, family counselors, support groups, etc. As King Henry VIII's divorces showed, divorce has not always been easy or accepted. In some countries, divorce is not permitted and even in Europe, countries such as Spain, Italy, Portugal, and the Republic of Ireland legalized divorce only in the latter quarter of the 20th century. This multi-disciplinary encyclopedia covers curricular subjects related to divorce as examined by disciplines ranging from marriage and the family to anthropology, social and legal history, developmental and clinical psychology, and religion, all through a lens of cultural sociology. Features: 550 signed entries, A-to-Z, fill 3 volumes (1,500 pages) in print and electronic formats, offering the most detailed reference work available on issues related to divorce, both in the U.S. and globally. Cross-References and Further Readings guide readers to additional resources. A Chronology provides students with context via a historical perspective of divorce. In the electronic version, the comprehensive Index combines with Cross-References and thematic Reader's Guide themes to provide convenient search-and-browse capabilities. For state and nation entries, uniform entry structure combined with an abundance of statistics facilitates comparison between and across states and nations. Appendices provide further annotated sources of data and statistics.

ethnic adult magazines online: Youth, Pornography, and the Internet National Research Council, Computer Science and Telecommunications Board, Committee to Study Tools and Strategies for Protecting Kids from Pornography and Their Applicability to Other Inappropriate Internet Content, 2002-08-31 The Internet has changed the way we access the world. This is especially true for kids, who soak up new technologies like eager little sponges. They have access to an enormous array of material, including educational links, sports info, chat rooms—and, unfortunately, pornography. But we must approach our need to protect children with care to avoid placing unnecessary restrictions on the many positive features of the Internet. Youth, Pornography, and the Internet examines approaches to protecting children and teens from Internet pornography, threats from sexual predators operating on-line, and other inappropriate material on the Internet. The National Research Council's Computer Science and Telecommunications Board explores a number of fundamental questions: Who defines what is inappropriate material? Do we control Internet access by a 17-year-old in the same manner as for a 7-year-old? What is the role of technology and policy in solving such a problem in the context of family, community, and society? The book discusses social and educational strategies, technological tools, and policy options for how to teach children to make safe and appropriate decisions about what they see and experience on the Internet. It includes lessons learned from case studies of community efforts to intervene in kids' exposure to Internet porn. Providing a foundation for informed debate, this very timely and relevant book will be a must-read for a variety of audiences.

ethnic adult magazines online: Pornography, Ideology, and the Internet Zhang Mei, 2018-10-22 This book starts from the discussion of a pornography, but does not end with pornography. Rather, it suggests that a pornographic star can be treated as a cultural product which obtains rich cultural meanings. It contributes to the debate between the global homogenization paradigm and the creolization paradigm which predominates in multiple disciplines, through a thorough examination of the entire process of the cross-cultural migration of Aoi Sola, a Japanese adult video (AV) actress who has achieved amazing popularity in mainland China since 2010. Through fifteen-month participant observation inside the two Chinese agencies of Sola, this study reveals that the transformative intermediaries play a significant role in the transformation of the cultural product in the Chinese context, even though their operations are usually invisible to outsiders. The findings challenge the conventional scholarly assumption that foreign products produced by global producers are consumed “directly” by local consumers or that the significance of these intermediaries can be ignored. This study further extends the participant observation inside the realistic field to the virtual space of media in different countries, which can be called the second field. It demonstrates that multiple local groups, including intermediaries, Chinese commercial news portals, Party media, and Chinese Internet users, respond to the dominant ideologies in Chinese society by reinterpreting Sola in different, even contradictory, ways. Thus, this research refutes the presumption that a local society is a coherent monolith in the acceptance of foreign cultural

products. The book also deepens the reader's understanding of Chinese Internet usage.

ethnic adult magazines online: Race, Ethnicity, and Consumption Patricia A. Banks, 2020-07-08 Race, Ethnicity, and Consumption: A Sociological View looks at the central concerns of consumer culture through the lens of race and ethnicity. Each chapter illustrates the connections between race, ethnicity, and consumption by focusing on a specific theme: identity, crossing cultures, marketing and advertising, neighborhoods, discrimination, and social activism. By exploring issues such as multicultural marketing, cultural appropriation, consumer racial profiling, urban food deserts, and racialized political consumerism, students, scholars, and other curious readers will gain insight on the ways that racial and ethnic boundaries shape, and are shaped by, consumption. This book goes beyond the typical treatments of race and ethnicity in introductory texts on consumption by not only providing a comprehensive overview of the major theories and concepts that sociologists use to make sense of consumption, race, and ethnicity, but also by examining these themes within distinctly contemporary contexts such as digital platforms and activism. Documenting the complexities and contradictions within consumer culture, Race, Ethnicity, and Consumption is an excellent text for sociology courses on consumers and consumption, race and ethnicity, the economy, and inequality. It will also be an informative resource for courses on consumer culture in the broader social sciences, marketing, and the humanities.

ethnic adult magazines online: After Taste: Cultural Value and the Moving Image Julia Vassilieva, Constantine Verevis, 2014-01-02 In the wake of the debates over high/low culture distinction spilling into the effective dismantling of the boundary that once separated them, the past decade has seen the explosion of 'bad taste' production on screen. Starting with paracinema or 'badfilm' – a movement that has grown up around sleazy, excessive, or poorly executed B-movies and has come to encompass disreputable and unworthy films – this trend has been evident in various formats: on television and in video-art, low-budget and straight to TV films, amateur and home movies. The proliferation of trash on screen can be seen as delivering the final blow to the vexed issue of taste. More importantly, it prompts a reconsideration of some critical issues surrounding production, circulation, understanding and teaching of 'bad objects' in the media. This collection of essays, written by international film and television scholars, provides detailed critical analysis of the issues surrounding judgements of cultural value and taste, feeling and affect, cultural morals and politics, research methodologies and teaching strategies in the new landscape of 'after taste' media. Addressing global and local developments – from global Hollywood to Australian indigenous film and television, through auteurs Sergei Eisenstein to Jerry Bruckheimer, on to examples such as Twilight

to Sukiyaiki Western Django – the essays in this book offer a range of critical tools for understanding the recent shifts affecting cultural, aesthetic and political value of the moving image. This book was originally published as a special issue of *Continuum: Journal of Media & Cultural Studies*.

ethnic adult magazines online: Manga's Cultural Crossroads Jaqueline Berndt, Bettina

Kümmerling-Meibauer, 2014-03-14 Focusing on the art and literary form of manga, this volume examines the intercultural exchanges that have shaped manga during the twentieth century and how manga's culturalization is related to its globalization. Through contributions from leading scholars in the fields of comics and Japanese culture, it describes manga culture in two ways: as a fundamentally hybrid culture comprised of both subcultures and transcultures, and as an aesthetic culture which has eluded modernist notions of art, originality, and authorship. The latter is demonstrated in a special focus on the best-selling manga franchise, NARUTO.

ethnic adult magazines online: *Handbook of Research on Race, Culture, and Student*

Achievement Keengwe, Jared, 2023-01-13 There is growing pressure on teachers and other educators to understand and adopt culturally relevant pedagogies as well as strategies to work with diverse groups of races, cultures, and languages that are represented in classrooms. The *Handbook of Research on Race, Culture, and Student Achievement* highlights cross-cultural perspectives, challenges, and opportunities of providing equitable educational opportunities for marginalized students and improving student achievement. Additionally, it examines how race and culture impact student achievement in an effort to promote cultural competence, equity, inclusion, and social justice in education. Covering topics such as identity, student achievement, and global education, this major reference work is ideal for researchers, scholars, academicians, librarians, policymakers, practitioners, educators, and students.

ethnic adult magazines online: *Digital Playgrounds* Sara M. Grimes, 2021-07-22 *Digital*

Playgrounds explores the key developments, trends, debates, and controversies that have shaped children's commercial digital play spaces over the past two decades. It argues that children's online

playgrounds, virtual worlds, and connected games are much more than mere sources of fun and diversion – they serve as the sites of complex negotiations of power between children, parents, developers, politicians, and other actors with a stake in determining what, how, and where children’s play unfolds. Through an innovative, transdisciplinary framework combining science and technology studies, critical communication studies, and children’s cultural studies, *Digital Playgrounds* focuses on the contents and contexts of actual technological artefacts as a necessary entry point for understanding the meanings and politics of children’s digital play. The discussion draws on several research studies on a wide range of digital playgrounds designed and marketed to children aged six to twelve years, revealing how various problematic tendencies prevent most digital play spaces from effectively supporting children’s culture, rights, and – ironically – play. *Digital Playgrounds* lays the groundwork for a critical reconsideration of how existing approaches might be used in the development of new regulation, as well as best practices for the industries involved in making children’s digital play spaces. In so doing, it argues that children’s online play spaces be reimagined as a crucial new form of public sphere in which children’s rights and digital citizenship must be prioritized.

ethnic adult magazines online: Handbook of Research on Cross-Cultural Online

Learning in Higher Education Keengwe, Jared, Kungu, Kenneth, 2019-04-01 Online learning has been touted as one way of reducing the cost of higher education while simultaneously addressing the increasing demand for educational opportunity and providing access to hitherto “left out” populations. Many universities are defying tradition by offering completely online degrees for global participants. As such, research is needed to improve the design of online and virtual learning environments to ensure that they are inclusive and culturally adaptive for the global education marketplace. The Handbook of Research on Cross-Cultural Online Learning in Higher Education shares paradigms, perspectives, insights, challenges, and best practices for the instructional design and delivery of cross-cultural adult web-based learning experiences and examines adult learner characteristics and competencies critical for the design of these applications. The content within this publication covers trending topics including virtual learning, culturally adaptive environments, and online education and is intended for instructional designers, faculty, administrators, students, and researchers.

ethnic adult magazines online: Cultural Journalism and Cultural Critique in the Media Nete Kristensen, Unni From, 2018-10-03 This book addresses a topic in journalism studies that has gained increasing scholarly attention since the mid-2000s: the coverage and evaluation of arts and culture, or what we term ‘cultural journalism and cultural critique’. The book highlights three approaches to this emerging research field: (1) the constant challenge of demarcating what constitutes the ‘cultural’ in cultural journalism and cultural critique, and the interlinks of cultural journalism and cultural critique; (2) the dialectic of globalization’s cultural homogenization and the specificity of local/national cultures; and (3) the need to rethink, perhaps even redefine, cultural journalism and cultural critique in view of the digital media landscape. ‘Cultural journalism’ is used as an umbrella term for media reporting and debating on culture, including the arts, value politics, popular culture, the culture industries, and entertainment. Therefore some of the contributions this book apply a broad approach to ‘the cultural’ when theorizing and analyzing the production and content of cultural journalism, and the professional ideology, self-perception, and legitimacy struggles of cultural journalists and editors. Other contributions demarcate their field of study more narrowly, both topically and generically, by engaging with very specific sub-areas such as ‘film criticism’ or ‘television series.’ This book was originally published as a special issue of Journalism Practice.

ethnic adult magazines online: Cultural Practices of Literacy Victoria Purcell-Gates, 2020-07-24 This volume presents case studies of literacy practices as shaped by culture, language, community, and power. Covering a range of contexts and exploring a number of relevant dimensions in the evolving picture of literacy as situated, multiple, and social, the studies are grouped around four overarching themes: *Language, Literacy, and Hegemony; *The Immigrant Experience: Language, Literacies, and Identities; *Literacies In-/Out-of-School and On the Borders; and *New Pedagogies for New Literacies. It is now generally recognized that literacy is multiple and woven within the sociocultural lives of communities, but what is not yet fully understood is how it is multiple--how this multiplicity plays out across and within differing sociocultural contexts. Such understanding is critical for crafting school literacy practices in response to the different literacy sets brought to school by different learners. Toward this end it is necessary to know what those sets are composed of. Each of the case studies contributes to building this knowledge in new and interesting ways. As a whole the book provides a rich and complex portrait of literacy-in-use. Cultural Practices of Literacy: Case Studies of Language, Literacy, Social Practice, and Power advances sociocultural research and theory pertaining to literacy development as it occurs across school and community boundaries and cultural contexts and in and out of school. It is intended for researchers, students, professionals across the field of literacy studies and schooling, including specialists in family literacy, community literacy, adult literacy, critical language studies, multiliteracies, youth literacy, international education, English as a second language, language and social policy, and global literacy.
