ethics book download: Considering Ethics in Dance, Theatre and Performance Fiona Bannon, 2018-08-01 This book asks important questions about making performance through the means of collaboration and co-created practice. It argues that we can align ethics and aesthetics with collaborative performance to realise the importance of being in association with one another, and being engaged through our shared imaginations. Evident in the examples of practice visited in this study is the attention given by a number of practitioners to the development of shared, co-operative modes of creation. Here, we can appreciate ethical work as being relational, forged in association with the others as we cultivate ideas that matter. In looking at a range of work from practitioners including Meg Stuart, Rosemary Lee, Deufert&Philschke and Fevered Sleep, Considering Ethics in Dance, Theatre and Performance explores ways that we rehearse by attending to ethics, aesthetics and co-creation. In learning to listen, to observe, to co-operate and to negotiate, these practitioners reveal the ways that they bring their work into existence through the transmission of shared meaning.

ethics book download: Erwachsenenbildung für nachhaltige Entwicklung Franz Rauch, Julia Schindler, 2023-06-22 Die Ausgabe 49 des Magazin erwachsenenbildung.at (Meb) bildet den Status quo des Nachhaltigkeitsdiskurses in der Erwachsenenbildung ab, beschreibt das konkrete, praktische Handeln und zeigt zukunftsweisende Ideen und Perspektiven. Die Beiträge beleuchten theoretisch verankerte Konzepte und Lösungsideen sowie praktische Umsetzungsbeispiele ebenso wie Blinde Flecken und unterschiedliche Dilemmata, die sich in diesem Kontext ergeben. Die Autor*innen machen deutlich, dass Bildungsprozesse allein die Nachhaltigkeitsziele nicht erreichen können. Ein solcher Zugang birgt die Gefahr, die Verantwortung für eine nachhaltige Entwicklung auf das Individuum zu übertragen, ohne die strukturellen Probleme und Zusammenhänge ausreichend zu berücksichtigen. Es bedarf daher einer kritischen Reflexion der bestehenden Systeme und Strukturen in Hinblick auf deren Beitrag zur Nachhaltigkeit, und es braucht alternative Ansätze, die über einen individualisierten Zugang hinaus emanzipatorische und kollektive Prozesse betonen und strukturelle Veränderungen anstoßen. (Red.)

ethics book download: The Online Self Soraj Hongladarom, 2016-07-27 This book investigates the emerging phenomenon of the self as it exists in the online world. It argues for an externalist conception of self and identity, one that does not depend on the continuity of consciousness of the subject. It also offers an analysis of related phenomenon such as online friendship and games based on this analysis. An outstanding feature of social networking sites such as Facebook and MySpace is that it allows for the user to put forward their "selves" or their identity onto the Internet and use the online self as an anchor to connect with any number of "friends" each of whom also has their own online selves. A number of questions then arise which are deeply conceptual and philosophical in nature: What is the metaphysical nature of this emerging online self? Is it the same or fundamentally different from the "offline" self with which we are already familiar? Since increasing numbers of people are connected to the online world, this world itself seems to be taking on a reality of its own. This much has been appreciated by a number of scholars in the field. However, there seems to be lacking a systematic study of the philosophical and metaphysical nature of the self that has become a key element in cyberspace, a key topic which this volume addresses. Apart from the problem of constitution of the online self, this volume addresses related questions concerning personal identity in the online world and scrutinizes computer games and the characteristics that they share with social networking sites. Unlike the majority of the existing literature, which discusses the topic from a more social scientific perspective, this volume fills the lacuna of a philosophical and theoretical study of the online world.
