enciso sisters fashion: *El Chapo* Noah Hurowitz, 2023-10-31 This is the true story of how El Chapo built the world's wealthiest and most powerful drug-trafficking operation, based on months' worth of trial testimony and dozens of interviews with cartel gunmen, Mexican journalists and political figures, Chapo's family members, and the DEA agents who brought him down. Over the course of three decades, El Chapo was responsible for smuggling hundreds of tons of cocaine, marijuana, heroin, meth, and fentanyl around the world, becoming in the process the most celebrated and reviled drug lord since Pablo Escobar. El Chapo waged ruthless wars against his rivals and former allies, plunging vast areas of Mexico into unprecedented levels of violence, even as many in his home state of Sinaloa continued to view him as a hero. -- Amazon.

enciso sisters fashion: *Monarchy and Liberalism in Spain* David San Narciso, Margarita Barral Martínez, Carolina Armenteros, 2020-11-29 Bringing together the work of top specialists and emerging scholars in the field, this volume is the first book-length study of the rapport between liberalism and the Spanish monarchy over the long nineteenth century in any language. It is at once a general overview and a set of original contributions to knowledge. The essays discuss monarchy's rapport with the pre-liberal, liberal and post-liberal nation-state, from the eve of the French Revolution, when the monarchy regulated a 'natural' order, to the unstable reign of Isabel II, fraught by revolutions that ended in her exile, to the brief republican monarchy of Amadeo I, the much-maligned foreign king, to Alfonso XIII's expulsion from Spain following the failure of the

dictatorship of Primo de Rivera. The essays approach the subject through two main thematic-analytical axes. The first, political axis examines the monarchy's confrontation with, and adaptation to, liberalism as a political force that aimed to nationalize the Spanish people. The second axis is cultural, and studies the Crown's support of liberalism's nationalizing aims through various staging strategies that comprised visits, rituals, ceremonies, iconography, religiosity, and familial and military display. The dual approach invites the reader to question the boundaries between the political and the cultural, especially in regard to the ceremonial, and during critical times that witness the transformation of political power and the building of the nation-state. Designed for Hispanists and students of politics, ritual, liberalism and monarchy, this collection should appeal to academics and researchers as well as anyone interested in modern European history.

enciso sisters fashion: *Reframing Sociocultural Research on Literacy* Cynthia Lewis, Patricia E. Enciso, Elizabeth Birr Moje, 2020-07-24 This landmark volume articulates and develops the argument that new directions in sociocultural theory are needed in order to address important issues of identity, agency, and power that are central to understanding literacy research and literacy learning as social and cultural practices. With an overarching focus on the research process as it relates to sociocultural research, the book is organized around two themes: conceptual frameworks and knowledge sources. *Part I, "Rethinking Conceptual Frameworks," offers new theoretical lenses for reconsidering key concepts traditionally associated with sociocultural theory, such as activity, history, community, and the ways they are conceptualized and under-conceptualized within sociocultural theory. *Part II, "Rethinking Knowledge and Representation," considers the tensions and possibilities related to how research knowledge is produced, represented, and disseminated or shared—challenging the locus of authority in research relationships, asking who is authorized to be a legitimate knowledge source, for what purposes, and for which audiences or stakeholders. Employing the lens of "critical sociocultural research," this book focuses on the central role of language and identity in learning and literacy practices. It is intended for scholars, researchers, and graduate students in literacy education, social and cultural psychology, social foundations of education, educational anthropology, curriculum theory, and qualitative research in education.
