gender themes novels download: Women's Lives around the World Susan M. Shaw, Nancy Staton Barbour, Patti Duncan Ph.D., Kryn Freehling-Burton Ph.D., Jane Nichols, 2018-01-04 Providing an in-depth look at the lives of women and girls in approximately 150 countries, this multivolume reference set offers readers transnational and postcolonial analysis of the many issues that are critical to the success of women and girls. For millennia, women around the world have shouldered the responsibility of caring for their families. But in recent decades, women have emerged as a major part of the global workforce, balancing careers and family life. How did this change happen? And how are societies in developing countries responding and adapting to women's newer roles in society? This four-volume encyclopedia examines the lives of women around the world, with coverage that includes the education of girls and teens; the key roles women play in their families, careers, religions, and cultures; how issues for women intersect with colonialism, transnationalism, feminism, and established norms of power and control. Organized geographically, each volume presents detailed entries about the lives of women in particular countries. Additionally, each volume offers sidebars that spotlight topics related to women and girls in specific regions or focus on individual women's lives and contributions. Primary source documents include sections of countries' constitutions that are relevant to women and girls, United Nations resolutions and national resolutions regarding women and girls, and religious statements and proclamations about women and girls. The organization of the set enables readers to take an in-depth look at individual countries as well as to make comparisons across countries.

gender themes novels download: *Das globale Dorf mit 100 Menschen / The global village of*

100 people Liz Mohn Stiftung, Bertelsmann Stiftung, 2025-04-29 Stellen wir uns unsere Welt einmal als Dorf mit 100 Menschen vor. Welche Muttersprachen sind hier vertreten? Wie viele Menschen können lesen und schreiben? Wie viele Bewohner:innen sind in der Lage, sich einen Urlaub im Ausland zu leisten? Wer ist übergewichtig – und wer leidet unter Hunger? Und wie viele im Dorf haben eigentlich eine eigene Toilette? Wir fragen, wie es um die globale Gesundheitsversorgung steht – und welche gesundheitlichen Herausforderungen es weltweit gibt. Wie sind essenzielle Ressourcen wie Wasser, Nahrung und Energie auf der Welt verteilt – und welche Konflikte ergeben sich daraus? Wie beeinflussen die globalen Klimaveränderungen die Lebensbedingungen der Menschen – und wer ist am stärksten betroffen? Anhand von 40 Kategorien – z. B. Pressefreiheit, Krankenversicherung, Internetzugang – zeichnet dieses Buch ein Porträt unserer globalen Gemeinschaft. Es macht die Realität, die jeden Tag unübersichtlicher wird, etwas greifbarer. Und es zeigt, dass hinter jeder Statistik ein Mensch steht. Imagine the world as a village of 100 inhabitants. Which native languages would be spoken there? How many people could read and write? How many could afford a vacation abroad? Who would be overweight and who would not have enough to eat? And how many people in the village would have their own toilet? In this book, we look at the state of health care around the globe – and which health challenges exist. We ask how basic resources, such as water, food and energy, are distributed across the planet and which conflicts occur as a result. We also ask how climate change is affecting living conditions – and who is being impacted the most. Based on 40 categories – such as freedom of the press, health insurance, Internet access – we sketch a portrait of our global community. It's a portrait that makes our present reality, which is becoming more confusing every day, a bit more tangible. And it shows that behind every statistic there's a human being.
